AMENDED IN ASSEMBLY APRIL 11, 2002

CALIFORNIA LEGISLATURE—2001-02 REGULAR SESSION

ASSEMBLY BILL

No. 2472

Introduced by Assembly Member Simitian

February 21, 2002

An act to add Article 18 (commencing with Section 13500) to Chapter 2 of Division 7 of the Food and Agricultural Code, relating to pesticides.

LEGISLATIVE COUNSEL'S DIGEST

AB 2472, as amended, Simitian. Pesticides: state property.

Existing law generally regulates the use of pesticides. Existing law, the Healthy Schools Act of 2000, provides that it is the policy of the state that effective least toxic pest management practices should be the preferred method of managing pests at schoolsites and that the state, in order to reduce children's exposure to toxic pesticides, shall take the necessary steps to facilitate the adoption of effective least toxic pest management practices at schoolsites. Existing law requires the Department of Pesticide Regulation to promote and facilitate the voluntary adoption of integrated pest management programs, as defined, for all school districts that choose to do so.

This bill would state various findings and declarations of the Legislature relating to pesticide use in state buildings and lands and would state the intent of the Legislature to enact legislation to protect public and environmental health through Integrated Pest Management (IPM) techniques, as specified make a finding and declaration of state policy. This bill would require, upon receipt of grant funds for those purposes, that the Department of General Services implement a pilot

program to study the use of integrated pest management techniques at the State Capitol.

Vote: majority. Appropriation: no. Fiscal committee: —no yes. State-mandated local program: no.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that it is the policy of the state to protect public health and safety in a manner that compliments sustainability as an extension of resource conservation.

SEC. 2. Article 18 (commencing with Section 13500) is added to Chapter 2 of Division 7 of the Food and Agricultural Code, to read:

Article 18. Integrated Pest Management on State Property. 13500. (a) The Legislature finds and declares that pesticide use in state buildings and lands can be a cause of significant damage to the health of citizens and state employees. The elimination or reduction of pesticide use in these areas is an important step in providing all state employees with a safe, healthy work environment.

(b) It is the intent of the Legislature to enact legislation to protect public and environmental health through Integrated Pest Management (IPM) techniques utilizing nonpesticide alternatives, where feasible, before considering use of pesticides on state property. Integrated Pest Management Techniques include biological, cultural, physical, and chemical tools to minimize pesticide usage to control pests such as insects, rodents, nematodes, fungus, weeds, or forms of terrestrial or aquatic plant or animal life.

13500. Upon receipt of a grant of funds for those purposes, the Department of General Services shall implement a pilot program to study the use of integrated pest management (IPM) techniques utilizing nonpesticide alternatives at the State Capitol and its associated grounds. Successful practices learned directly from this pilot program shall be deemed a sustainable measure, fitness and quality to traditional pest management methods being equal, and shall be made available to those state agencies interested in Integrated Pest Management if the cost is the same or a lower total

- cost than traditional pesticide application. Successful practices
 learned from this pilot program should be made available to local
 jurisdictions at their request and expense, if appropriate.
