AMENDED IN ASSEMBLY JUNE 11, 2002  
AMENDED IN SENATE APRIL 4, 2001

**SENATE BILL**

**No. 849**

**Introduced by Senator Torlakson**

*(Coauthors: Assembly Members Alquist, Cohn, and Simitian)*

February 23, 2001

---

---

An act to amend Sections 8670.37.58, 8670.40, 8670.54, and 8670.55 of, and to add Sections 8670.41 and 8670.42 to, the Government Code, relating to oil spills.

LEGISLATIVE COUNSEL'S DIGEST

SB 849, as amended, Torlakson. Oil spills: fees.

(1) Existing law, the Lempert-Keene-Seastrand Oil Spill Prevention and Response Act, establishes in state government the office of administrator for oil spill response and requires the administrator to adopt and implement regulations and guidelines governing the adequacy of oil spill contingency plans. A knowing violation of the act is a misdemeanor.

Existing law prohibits a nontank vessel, as defined, that is required to have a contingency plan, from entering the marine waters of the state unless the nontank vessel owner or operator provides to the administrator evidence of financial responsibility that demonstrates, to the administrator's satisfaction, the ability to pay at least \$300,000,000

to cover damages caused by a spill, and the owner or operator of the nontank vessel has obtained a certificate of financial responsibility from the administrator for the nontank vessel. The administrator is authorized to charge the owner or operator a reasonable fee to reimburse specified costs for processing that application. However, until January 1, 2003, the administrator is authorized to establish a lower standard of financial responsibility for a nontank vessel that has a carrying capacity of 6,500 barrels of oil or less, or a nontank vessel that is owned and operated by California or a federal agency and has a carrying capacity of 7,500 barrels of oil or less.

This bill would extend, until January 1, 2006, the expiration date on the authority of the administrator to establish a lower standard of financial responsibility for the specified nontank vessels.

The bill would require the administrator to charge a nontank vessel owner or operator a reasonable fee, to be collected with each application to obtain a certificate of financial responsibility, in an amount that is based upon the administrator's costs in implementing certain provisions relating to nontank vessels. The bill would authorize the administrator to charge a reduced fee for nontank vessels determined by the administrator to pose a reduced risk of pollution, including vessels used for research or training and vessels that are moored permanently or rarely move.

The bill would require the fees to be \$2,500 or less, before January 1, 2005. ~~On and after January 1, 2005, and after the report described in (3) has been submitted, the bill would authorize the administrator to adjust the fees for inflation on an annual basis, as measured by the California Consumer Price Index.~~

The bill would require the administrator to deposit all revenue derived from the fees in the Oil Spill Prevention and Administration Fund. The bill would authorize revenue derived from the fees to be spent for certain, listed purposes relating to oil spill prevention, response, and preparedness, but not for responding to an oil spill.

(2) Existing law requires the administrator for oil spill response to adopt and implement regulations and guidelines governing the adequacy of oil spill contingency plans. Existing law requires the State Board of Equalization to collect an oil spill prevention and administration fee which is imposed upon every person owning crude oil at the time that the crude oil is received at a marine terminal, in an amount determined by the administrator for oil spill response, not to exceed 4¢ per barrel of crude oil or petroleum products. Under existing

law, the revenues from the oil spill prevention and administration fee are deposited in the Oil Spill Prevention and Administration Fund in the State Treasury. Existing law provides that the money in the fund is available for appropriation by the Legislature and may only be used for the purposes of the act and the provisions governing oil spill prevention and response.

Existing law requires the administrator, on or before January 15, to prepare a plan annually that projects revenues and expenses over 3 fiscal years, including the current year. Existing law requires the administrator to set the fee based on the plan.

This bill would prohibit the annual assessment from exceeding 5¢ per barrel of crude oil or petroleum products, ~~except that the administrator would be authorized to annually adjust the fee for inflation, as measured by the California Consumer Price Index, after the report described in (3) has been submitted.~~

The bill would change the date by which the administrator is required to prepare the plan to January 20.

Since a failure to pay the fees imposed by the bill would be a crime, the bill would impose a state-mandated local program.

(3) Existing law establishes the Oil Spill Technical Advisory Committee to provide public input and independent judgment of the actions of the administrator and the State Interagency Oil Spill Committee. The committee is required to consist of 9 members, of whom 5 are required to be appointed by the Governor, 2 by the Speaker of the Assembly, and 2 by the Senate Committee on Rules, as specified. The committee is required to report annually to the Governor and the Legislature on its evaluation of oil spill response and preparedness programs within the state.

This bill would increase the membership of the committee by 1 member, who would be appointed by the Governor and would be required to have a demonstrable knowledge of the dry cargo vessel industry.

The bill would require the *Department of Fish and Game to contract with the Department of Finance* to prepare and submit to the Governor and the Legislature, on or before January 1, 2005, a detailed report on the financial basis and programmatic effectiveness of the state's oil spill prevention, response, and preparedness program.

The bill would require the committee to review, on or before August 1, 2005, the ~~department's~~ *Department of Finances* report and to prepare and submit to the Governor and the Legislature comments on the report,

including recommendations for improving the state’s oil spill prevention, response, and preparedness program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 8670.37.58 of the Government Code, as  
2 added by Section 35 of Chapter 748 of the Statutes of 2001, is  
3 amended to read:

4 8670.37.58. (a) A nontank vessel required to have a  
5 contingency plan pursuant to this chapter shall not enter marine  
6 waters of the state unless the nontank vessel owner or operator has  
7 provided to the administrator evidence of financial responsibility  
8 that demonstrates, to the administrator’s satisfaction, the ability to  
9 pay at least three hundred million dollars (\$300,000,000) to cover  
10 damages caused by a spill, and the owner or operator of the  
11 nontank vessel has obtained a certificate of financial responsibility  
12 from the administrator for the nontank vessel.

13 (b) Notwithstanding subdivision (a), the administrator may  
14 establish a lower standard of financial responsibility for a nontank  
15 vessel that has a carrying capacity of 6,500 barrels of oil or less,  
16 or for a nontank vessel that is owned and operated by California  
17 or a federal agency and has a carrying capacity of 7,500 barrels of  
18 oil or less. The standard shall be based upon the quantity of oil that  
19 can be carried by the nontank vessel and the risk of an oil spill into  
20 marine waters. The administrator shall not set a standard that is less  
21 than the expected cleanup costs and damages from an oil spill into  
22 marine waters.

23 (c) The administrator may adopt regulations to implement this  
24 section.

25 (d) This section shall remain in effect only until January 1,  
26 2006, and as of that date is repealed, unless a later enacted statute,  
27 that is enacted before January 1, 2006, deletes or extends that date.

1 SEC. 2. Section 8670.37.58 of the Government Code, as  
2 added by Section 36 of Chapter 748 of the Statutes of 2001, is  
3 amended to read:

4 8670.37.58. (a) A nontank vessel, required to have a  
5 contingency plan pursuant to this chapter, shall not enter marine  
6 waters of the state unless the nontank vessel owner or operator has  
7 provided to the administrator evidence of financial responsibility  
8 that demonstrates, to the administrator's satisfaction, the ability to  
9 pay at least three hundred million dollars (\$300,000,000) to cover  
10 damages caused by a spill, and the owner or operator of the  
11 nontank vessel has obtained a certificate of financial responsibility  
12 from the administrator for the nontank vessel.

13 (b) The administrator may adopt regulations to implement this  
14 section.

15 (c) This section shall become operative on January 1, 2006.

16 SEC. 3. Section 8670.40 of the Government Code is amended  
17 to read:

18 8670.40. (a) ~~(1)~~The State Board of Equalization shall  
19 collect a fee in an amount determined by the administrator to be  
20 sufficient to carry out the purposes set forth in subdivision (e), and  
21 a reasonable reserve for contingencies. ~~Except as authorized under~~  
22 ~~paragraph (2), the~~ The annual assessment may not exceed five  
23 cents (\$0.05) per barrel of crude oil or petroleum products.

24 ~~(2) After the report required under Section 8670.42 has been~~  
25 ~~submitted, the administrator may annually adjust the fee for~~  
26 ~~inflation, as measured by the California Consumer Price Index.~~

27 (b) (1) The oil spill prevention and administration fee shall be  
28 imposed upon every person owning crude oil at the time that the  
29 crude oil is received at a marine terminal from within or outside  
30 the state, and upon every person owning petroleum products at the  
31 time that those petroleum products are received at a marine  
32 terminal from outside this state. The fee shall be collected by the  
33 marine terminal operator from the owner of the crude oil or  
34 petroleum products based on each barrel of crude oil or petroleum  
35 products so received by means of a vessel operating in, through,  
36 or across the marine waters of the state. In addition, every operator  
37 of a pipeline shall pay the oil spill prevention and administration  
38 fee for each barrel of crude oil originating from a production  
39 facility in marine waters and transported in the state by means of  
40 a pipeline operating across, under, or through the marine waters of

1 the state. The fees shall be remitted to the board by the terminal or  
2 pipeline operator on the 25th day of the month based upon the  
3 number of barrels of crude oil or petroleum products received at  
4 a marine terminal or transported by pipeline during the preceding  
5 month. No fee shall be imposed pursuant to this section with  
6 respect to any crude oil or petroleum products if the person who  
7 would be liable for that fee, or responsible for its collection,  
8 establishes that the fee has been collected by a terminal operator  
9 registered under this chapter or paid to the board with respect to  
10 the crude oil or petroleum product.

11 (2) Every owner of crude oil or petroleum products is liable for  
12 the fee until it has been paid to the board, except that payment to  
13 a marine terminal operator registered under this chapter is  
14 sufficient to relieve the owner from further liability for the fee.

15 (3) On or before January 20, the administrator shall annually  
16 prepare a plan that projects revenues and expenses over three fiscal  
17 years, including the current year. Based on the plan, the  
18 administrator shall set the fee so that projected revenues, including  
19 any interest, are equivalent to expenses as reflected in the current  
20 Budget Act and in the proposed budget submitted by the Governor.  
21 In setting the fee, the administrator may allow for a surplus if the  
22 administrator finds that revenues will be exhausted during the  
23 period covered by the plan or that the surplus is necessary to cover  
24 possible contingencies.

25 (c) The moneys collected pursuant to subdivision (a) shall be  
26 deposited into the fund.

27 (d) The board shall collect the fee and adopt regulations for  
28 implementing the fee collection program.

29 (e) The fee described in this section shall be collected solely for  
30 all of the following purposes:

31 (1) To implement oil spill prevention programs through rules,  
32 regulations, leasing policies, guidelines, and inspections and to  
33 implement research into prevention and control technology.

34 (2) To carry out studies that may lead to improved oil spill  
35 prevention and response.

36 (3) To finance environmental and economic studies relating to  
37 the effects of oil spills.

38 (4) To reimburse the member agencies of the State Interagency  
39 Oil Spill Committee for costs arising from implementation of this  
40 chapter, Article 3.5 (commencing with Section 8574.1) of Chapter

1 7, and Division 7.8 (commencing with Section 8750) of the Public  
2 Resources Code.

3 (5) To implement, install, and maintain emergency programs,  
4 equipment, and facilities to respond to, contain, and clean up oil  
5 spills and to ensure that those operations will be carried out as  
6 intended.

7 (6) To respond to an imminent threat of a spill in accordance  
8 with the provisions of Section 8670.62 pertaining to threatened  
9 discharges. The cumulative amount of any expenditure for this  
10 purpose shall not exceed the amount of one hundred thousand  
11 dollars (\$100,000) in any fiscal year unless the administrator  
12 receives the approval of the Director of Finance and notification  
13 is given to the Joint Legislative Budget Committee. Commencing  
14 with the 1993–94 fiscal year, and each fiscal year thereafter, it is  
15 the intent of the Legislature that the annual Budget Act contain an  
16 appropriation of one hundred thousand dollars (\$100,000) from  
17 the fund for the purpose of allowing the administrator to respond  
18 to threatened oil spills.

19 (7) To reimburse the board for costs incurred to implement this  
20 chapter and to carry out Part 24 (commencing with Section 46001)  
21 of Division 2 of the Revenue and Taxation Code.

22 (f) The moneys deposited in the fund shall not be used for  
23 responding to an oil spill.

24 SEC. 4. Section 8670.41 is added to the Government Code, to  
25 read:

26 8670.41. (a) The administrator shall charge a nontank vessel  
27 owner or operator a reasonable fee, to be collected with each  
28 application to obtain a certificate of financial responsibility, in an  
29 amount that is based upon the administrator's costs in  
30 implementing this chapter relating to nontank vessels. Before  
31 January 1, 2005, the fee shall be two thousand five hundred dollars  
32 (\$2,500), or less. ~~On and after January 1, 2005, the fee may be~~  
33 ~~adjusted pursuant to subdivision (c): (\$2,500), or less.~~

34 (b) The administrator may charge a reduced fee under this  
35 section for nontank vessels determined by the administrator to  
36 pose a reduced risk of pollution, including, but not limited to,  
37 vessels used for research or training and vessels that are moored  
38 permanently or rarely move.

39 ~~(c) After the report required under Section 8670.42 has been~~  
40 ~~submitted, the administrator may annually adjust for inflation the~~

1 ~~fee established under subdivision (a) or (b), as measured by the~~  
2 ~~California Consumer Price Index.~~

3 ~~(d)~~

4 (c) The administrator shall deposit all revenue derived from the  
5 fees imposed under this section in the Oil Spill Prevention and  
6 Administration Fund established in the State Treasury under  
7 Section 8670.38.

8 ~~(e)~~

9 (d) Revenue derived from the fees imposed under this section  
10 may be spent for the purposes listed in subdivision (e) of Section  
11 8670.40, and may not be used for responding to an oil spill.

12 SEC. 5. Section 8670.42 is added to the Government Code, to  
13 read:

14 ~~8670.42. On or before January 1, 2005, the Department of~~  
15 ~~Finance shall prepare and submit to the Governor and the~~  
16 ~~Legislature a detailed report on the financial basis and~~

17 *8670.42. The Department of Fish and Game shall contract*  
18 *with the Department of Finance for the preparation of a detailed*  
19 *report that shall be submitted on or before January 1, 2005, to the*  
20 *Governor and the Legislature on the financial basis and*  
21 *programmatic effectiveness of the state's oil spill prevention,*  
22 *response, and preparedness program. This report shall include an*  
23 *analysis of all of the oil spill prevention, response, and*  
24 *preparedness program's major expenditures, fees and fines*  
25 *collected, staffing and equipment levels, spills responded to, and*  
26 *other relevant issues. The report shall recommend measures to*  
27 *improve the efficiency and effectiveness of the state's oil spill*  
28 *prevention, response, and preparedness program, including, but*  
29 *not limited to, measures to modify existing contingency plan*  
30 *requirements, to improve protection of sensitive shoreline sites,*  
31 *and to ensure adequate and equitable funding for the state's oil spill*  
32 *prevention, response, and preparedness program.*

33 SEC. 6. Section 8670.54 of the Government Code is amended  
34 to read:

35 8670.54. (a) The Oil Spill Technical Advisory Committee,  
36 hereafter in this article the committee, is hereby established to  
37 provide public input and independent judgment of the actions of  
38 the administrator and the State Interagency Oil Spill Committee.  
39 The committee shall consist of ten members, of whom six shall be  
40 appointed by the Governor, two by the Speaker of the Assembly,

1 and two by the Senate Rules Committee. The appointments shall  
2 be made in the following manner:

3 (1) The Speaker of the Assembly, and Senate Rules Committee  
4 shall each appoint members who shall be representatives of the  
5 public.

6 (2) The Governor shall appoint a member who has a  
7 demonstrable knowledge of marine transportation.

8 (3) The Speaker of the Assembly and the Senate Rules  
9 Committee shall each appoint a member who has demonstrable  
10 knowledge of environmental protection and the study of  
11 ecosystems.

12 (4) The Governor shall appoint a member who has served as a  
13 local government elected official or who has worked for a local  
14 government.

15 (5) The Governor shall appoint a member who has experience  
16 in oil spill response and prevention programs.

17 (6) The Governor shall appoint a member who has been  
18 employed in the petroleum industry.

19 (7) The Governor shall appoint a member who has worked in  
20 state government.

21 (8) The Governor shall appoint a member who has  
22 demonstrable knowledge of the dry cargo vessel industry.

23 (b) The committee shall meet as often as required, but at least  
24 twice per year. Members shall be paid one hundred dollars (\$100)  
25 per day for each meeting and all necessary travel expenses at state  
26 per diem rates.

27 (c) The administrator and any personnel the administrator  
28 determines to be appropriate shall serve as staff to the committee.

29 (d) A chairman and vice chairman shall be elected by a majority  
30 vote of the committee.

31 SEC. 7. Section 8670.55 of the Government Code is amended  
32 to read:

33 8670.55. (a) The committee shall provide recommendations  
34 to the administrator, the State Lands Commission, the California  
35 Coastal Commission, the San Francisco Bay Conservation and  
36 Development Commission, and the State Interagency Oil Spill  
37 Committee, on any provision of this chapter including the  
38 promulgation of all rules, regulations, guidelines, and policies.

39 (b) The committee may, at its own discretion, study, comment  
40 on, or evaluate, any aspect of oil spill prevention and response in

1 the state. To the greatest extent possible, these studies shall be  
2 coordinated with studies being done by the federal government,  
3 the administrator, the State Lands Commission, the State Water  
4 Resources Control Board, and other appropriate state and  
5 international entities. Duplication with the efforts of other entities  
6 shall be minimized.

7 (c) The committee may attend any drills called pursuant to  
8 Section 8601.10 or any oil spills, if practicable.

9 (d) The committee shall report biennially to the Governor and  
10 the Legislature on its evaluation of oil spill response and  
11 preparedness programs within the state and may prepare and send  
12 any additional reports it determines to be appropriate to the  
13 Governor and the Legislature.

14 (e) On or before August 1, 2005, the committee shall review the  
15 Department of Finance report required under Section 8670.42 and  
16 prepare and submit to the Governor and the Legislature comments  
17 on the report, including, but not limited to, recommendations for  
18 improving the state's oil spill prevention, response, and  
19 preparedness program.

20 SEC. 8. No reimbursement is required by this act pursuant to  
21 Section 6 of Article XIII B of the California Constitution because  
22 the only costs that may be incurred by a local agency or school  
23 district will be incurred because this act creates a new crime or  
24 infraction, eliminates a crime or infraction, or changes the penalty  
25 for a crime or infraction, within the meaning of Section 17556 of  
26 the Government Code, or changes the definition of a crime within  
27 the meaning of Section 6 of Article XIII B of the California  
28 Constitution.
