

ASSEMBLY BILL

No. 218

Introduced by Assembly Member Simitian

January 29, 2003

An act to amend Section 65582 of the Government Code, relating to local planning.

LEGISLATIVE COUNSEL'S DIGEST

AB 218, as introduced, Simitian. Local planning: housing elements.

The Planning and Zoning Law requires a city or county to adopt a general plan for land use development that includes, among other things, a housing element. It also requires the Department of Housing and Community Development to determine the regional share of the statewide housing need, and each council of governments to determine the existing and projected housing need for its region.

This bill would define “housing unit” and “unit” for purposes of these housing element requirements and would declare the intent of the Legislature to enact legislation that would require the department, when evaluating whether a housing element is consistent with state law, to count congregate housing for seniors that is identified within the housing element of a city or county for purposes of determining whether the city or county meets its share of the regional housing needs.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 65582 of the Government Code is
