## CHAPTER \_\_\_\_\_

An act to amend Sections 1337.1 and 1430 of the Health and Safety Code, relating to health facilities.

## LEGISLATIVE COUNSEL'S DIGEST

AB 2791, Simitian. Skilled nursing and intermediate care facilities: training.

Existing law requires a skilled nursing and intermediate care facility to adopt an approved training program that meets standards established by the State Department of Health Services.

Existing law requires that 6 hours of the precertification classroom training focus on preventing, recognizing, and reporting resident abuse. Existing law requires that 4 hours of continuing education and in-service training for certified nursing assistants address preventing, recognizing, and reporting resident abuse. Violation of these requirements is a crime under existing law.

This bill would additionally require one hour of precertification classroom training addressing the prevention, recognition, and reporting of residents' rights violations. This bill would provide that the continuing education and in-service training for certified nursing assistants includes instruction on preventing, recognizing, and reporting residents' rights violations. By changing the definition of a crime, this bill would impose a state-mandated local program.

Existing law authorizes a resident or patient of a skilled nursing facility or intermediate care facility to bring a civil action against the licensee of a facility that violates any rights of the resident or patient as set forth in the Patients Bill of Rights. Existing law provides that the licensee is liable for up to \$500, and for costs and attorney's fees, and may be enjoined from permitting the violation to continue.

This bill would make technical, nonsubstantive changes to that provision.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

*The people of the State of California do enact as follows:*

SECTION 1. Section 1337.1 of the Health and Safety Code is amended to read:

1337.1. A skilled nursing or intermediate care facility shall adopt an approved training program that meets standards established by the state department. The approved training program shall consist of at least the following:

(a) An orientation program to be given to newly employed nurse assistants prior to providing direct patient care in skilled nursing or intermediate care facilities.

(b) (1) A precertification training program consisting of at least 60 classroom hours of training on basic nursing skills, patient safety and rights, the social and psychological problems of patients, and resident abuse prevention, recognition, and reporting pursuant to subdivision (e). The 60 classroom hours of training may be conducted within a skilled nursing or intermediate care facility or in an educational institution.

(2) In addition to the 60 classroom hours of training required under paragraph (1), the precertification training program shall consist of at least 100 hours of supervised and on-the-job training clinical practice. The 100 hours may consist of normal employment as a nurse assistant under the supervision of either the director of nurse training or a licensed nurse qualified to provide nurse assistant training who has no other assigned duties while providing the training.

(3) At least two hours of the 60 hours of classroom training and at least four hours of the 100 hours of the supervised clinical training shall address the special needs of persons with developmental and mental disorders, including mental retardation, Alzheimer's disease, cerebral palsy, epilepsy, dementia, Parkinson's disease, and mental illness.

(4) In a precertification training program subject to this subdivision, credit shall be given for the training received in an approved precertification training program adopted by another skilled nursing or intermediate care facility.

(5) This subdivision shall not apply to a skilled nursing or intermediate care facility that demonstrates to the state department that it employs only nurse assistants with a valid certification.

(c) Continuing in-service training to assure continuing competency in existing and new nursing skills.

(d) Each facility shall consider including training regarding the characteristics and method of assessment and treatment of acquired immune deficiency syndrome (AIDS).

(e) (1) The approved training program shall include, within the 60 hours of classroom training, a minimum of six hours of instruction on preventing, recognizing, and reporting instances of resident abuse utilizing those courses developed pursuant to Section 13823.93 of the Penal Code, and a minimum of one hour of instruction on preventing, recognizing, and reporting residents' rights violations.

(2) A minimum of four hours of instruction on preventing, recognizing, and reporting instances of resident abuse, including instruction on preventing, recognizing, and reporting residents' rights violations, shall be included within the total minimum hours of continuing education or in-service training required and in effect for certified nursing assistants.

SEC. 2. Section 1430 of the Health and Safety Code is amended to read:

1430. (a) Except where the state department has taken action and the violations have been corrected to its satisfaction, a licensee who commits a class "A" or "B" violation may be enjoined from permitting the violation to continue or may be sued for civil damages within a court of competent jurisdiction. An action for injunction or civil damages, or both, may be prosecuted by the Attorney General in the name of the people of the State of California upon his or her own complaint or upon the complaint of a board, officer, person, corporation, or association, or by a person acting for the interests of itself, its members, or the general public. The amount of civil damages that may be recovered in an action brought pursuant to this section may not exceed the maximum amount of civil penalties that could be assessed on account of the violation or violations.

(b) A current or former resident or patient of a skilled nursing facility, as defined in subdivision (c) of Section 1250, or intermediate care facility, as defined in subdivision (d) of Section

1250, may bring a civil action against the licensee of a facility who violates any rights of the resident or patient as set forth in the Patients Bill of Rights in Section 72527 of Title 22 of the California Code of Regulations, or any other right provided for by federal or state law or regulation. The suit shall be brought in a court of competent jurisdiction. The licensee shall be liable for the acts of the licensee's employees. The licensee shall be liable for up to five hundred dollars (\$500), and for costs and attorney fees, and may be enjoined from permitting the violation to continue. An agreement by a resident or patient of a skilled nursing facility or intermediate care facility to waive his or her rights to sue pursuant to this subdivision shall be void as contrary to public policy.

(c) The remedies specified in this section shall be in addition to any other remedy provided by law.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Approved \_\_\_\_\_, 2004
