

AMENDED IN SENATE JULY 13, 2005

AMENDED IN ASSEMBLY JUNE 1, 2005

CALIFORNIA LEGISLATURE—2005—06 REGULAR SESSION

**ASSEMBLY BILL**

**No. 1328**

---

---

**Introduced by Assembly Member Wolk**  
**(Coauthor: Assembly Member Berg)**  
*(Coauthors: Senators Chesbro and Machado)*

February 22, 2005

---

---

An act to amend Sections 5093.54 and 5093.545 of the Public Resources Code, relating to rivers.

LEGISLATIVE COUNSEL'S DIGEST

AB 1328, as amended, Wolk. Wild and scenic rivers: Cache Creek.

The *federal* Wild and Scenic Rivers Act includes specified rivers and segments thereof within the California Wild and Scenic River system, which are subject to various protections under the act.

This bill would include within the system Cache Creek from  $\frac{1}{4}$  mile below Cache Creek Dam to Camp Haswell and North Fork Cache Creek from the Highway 20 bridge to the confluence with the mainstem, and would designate various segments as wild, scenic, or recreational.

The bill would prohibit the Governor or an employee of a state agency or department from applying for or expending funds preparing an application for the designation of any portion of Cache Creek as a component of the national *wild* and scenic rivers system under the federal Wild and Scenic Rivers Act.

~~This bill would require the Secretary of the Resources Agency, on or before January 1, 2011, to evaluate and report to the Legislature on the inclusion of Cache Creek within the system.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) Cache Creek contains extraordinary scenic, recreational,
- 4 fishery, and wildlife values of statewide significance that deserve
- 5 to be preserved in their free-flowing state for the benefit and
- 6 enjoyment of the people of this state.
- 7 (b) In designating Cache Creek as a component of the
- 8 California Wild and Scenic River system, it is the intent of the
- 9 Legislature that this act will accomplish the preservation of those
- 10 values without the necessity of having Cache Creek added to the
- 11 national wild and scenic rivers system (16 U.S.C. Sec. 1271 et
- 12 seq.).
- 13 (c) As the waters of the Cache Creek watershed are the sole
- 14 source of supply within that watershed for the County of Lake,
- 15 special provision must be made to ensure that serving the
- 16 reasonable water supply and flood control needs of the County of
- 17 Lake are balanced with protection of the designated segments of
- 18 Cache Creek.
- 19 (d) As the waters of the Cache Creek watershed are an
- 20 important source of supply for the County of Yolo, special
- 21 provision must be made to ensure that serving the reasonable
- 22 water supply and flood control needs of the County of Yolo are
- 23 balanced with protection of the designated segments of Cache
- 24 Creek.
- 25 (e) The designation of Cache Creek is not intended to impair
- 26 or affect in any way projects or activities in the segment of Cache
- 27 Creek downstream of Camp Haswell that are undertaken
- 28 pursuant to and in accordance with the County of Yolo’s Cache
- 29 Creek Resources Management Plan, as amended from time to
- 30 time.
- 31 (f) The designation of Cache Creek is not intended to impair
- 32 or affect in any way projects or activities in the segment of Cache
- 33 Creek downstream of Camp Haswell that are intended to provide
- 34 flood control for downstream landowners and communities.

1 SEC. 2. Section 5093.54 of the Public Resources Code is  
2 amended to read:

3 5093.54. The following rivers and segments thereof are  
4 designated as components of the system:

5 (a) Klamath River. The main stem from 100 yards below Iron  
6 Gate Dam to the Pacific Ocean; the Scott River from the mouth  
7 of Shackelford Creek west of Fort Jones to the river mouth near  
8 Hamburg; the Salmon River from Cecilville Bridge to the river  
9 mouth near Somesbar; the North Fork of the Salmon River from  
10 the intersection of the river with the south boundary of the  
11 Marble Mountain Wilderness Area to the river mouth; Wooley  
12 Creek from the western boundary of the Marble Mountain  
13 Wilderness Area to its confluence with the Salmon River.

14 (b) Trinity River. The main stem from 100 yards below  
15 Lewiston Dam to the river mouth at Weitchpec; the North Fork  
16 of the Trinity from the intersection of the river with the southern  
17 boundary of the Salmon-Trinity Primitive Area downstream to  
18 the river mouth at Helena; New River from the intersection of the  
19 river with the southern boundary of the Salmon-Trinity Primitive  
20 Area downstream to the river mouth near Burnt Ranch; South  
21 Fork of the Trinity from the junction of the river with State  
22 Highway Route 36 to the river mouth near Salver.

23 (c) Smith River. The main stem from the confluence of the  
24 Middle and South Forks to its mouth at the Pacific Ocean; the  
25 Middle Fork from its source about three miles south of Sanger  
26 Lake as depicted on 1956 USGS 15' "Preston Peak" topographic  
27 map to the middle of Section 7 T17N R5E; the Middle Fork from  
28 the middle of Section 7 T17N R5E to the middle of Section 6  
29 T17N R5E; the Middle Fork from the middle of Section 6 T17N  
30 R5E to one-half mile upstream from the confluence with Knopki  
31 Creek; the Middle Fork from one-half mile upstream from the  
32 confluence with Knopki Creek to the confluence with the South  
33 Fork; Myrtle Creek from its source in Section 9 T17N R1E as  
34 depicted on 1952 USGS 15' "Crescent City" topographic map to  
35 the middle of Section 28 T17N R1E; Myrtle Creek, from the  
36 middle of Section 28 T17N R1E to the confluence with the  
37 Middle Fork; Shelly Creek from its source in Section 1 T18N  
38 R3E as depicted on 1951 USGS 15' "Gasquet" topographic map  
39 to the confluence with Patrick Creek; Kelly Creek from its source  
40 in Section 32 T17N R3E as depicted on 1951 USGS 15'

1 “Gasquet” topographic map to the confluence with the Middle  
2 Fork; Packsaddle Creek from its source about 0.8 miles  
3 southwest of Broken Rib Mountain as depicted on 1956 USGS  
4 15’ “Preston Peak” topographic map to the eastern boundary of  
5 Section 3 T17N R1E; Packsaddle Creek from the eastern  
6 boundary of Section 3 T17N R4E to the northern boundary of  
7 Section 3 T17N R4E; Packsaddle Creek from the northern  
8 boundary of Section 3 T17N R4E to the confluence with the  
9 Middle Fork; East Fork Patrick Creek from its source in Section  
10 10 T18N R3E as depicted on 1951 USGS 15’ “Gasquet”  
11 topographic map to the confluence with West Fork Patrick  
12 Creek; West Fork Patrick Creek from its source in Section 18  
13 T18N R3E as depicted on 1951 15’ “Gasquet” topographic map  
14 to the confluence with East Fork Patrick Creek; Griffin Creek  
15 from its source about 0.2 miles southwest of Hazel View Summit  
16 as depicted on 1956 USGS 15’ “Preston Peak” topographic map  
17 to the confluence with the Middle Fork; Knopki Creek from its  
18 source about 0.4 miles west of Sanger Peak as depicted on 1956  
19 USGS 15’ “Preston Peak” topographic map to the confluence  
20 with Middle Fork; Monkey Creek from its source in the northeast  
21 quadrant of Section 12 T18N R3E as depicted on 1951 USGS 15’  
22 “Gasquet” topographic map to the northern boundary of Section  
23 26 T18N R3E; Monkey Creek from the northern boundary of  
24 Section 26 T18N R3E to the confluence with the Middle Fork;  
25 Patrick Creek from the junction of the East and West Forks of  
26 Patrick Creek to the confluence with Middle Fork; the North  
27 Fork from the California-Oregon boundary to the confluence  
28 with an unnamed tributary in the northern quarter Section 5  
29 T18N R2E as depicted on 1951 USGS 15’ “Gasquet”  
30 topographic map; the North Fork from the confluence with an  
31 unnamed tributary in northern quarter of Section 5 T18N R2E to  
32 the southernmost intersection of eastern boundary Section 5  
33 T18N R2E as depicted on 1951 USGS 15’ “Gasquet”  
34 topographic map; the North Fork from the southern-most  
35 intersection of the eastern boundary Section 5 T18N R2E as  
36 depicted on 1951 USGS 15’ “Gasquet” topographic map to the  
37 confluence with Stony Creek; the North Fork from the  
38 confluence with Stony Creek to the confluence with the Middle  
39 Fork; Diamond Creek from the California-Oregon state boundary  
40 to the confluence with High Plateau Creek; Diamond Creek from

1 the confluence with High Plateau Creek to the confluence with  
2 the North Fork; Bear Creek from its source in Section 24 T18N  
3 R2E as depicted on 1951 USGS 15' "Gasquet" topographic map  
4 to the confluence with Diamond Creek; Still Creek from its  
5 source in Section 11 T18N R1E as depicted on 1952 USGS 15'  
6 "Crescent City" topographic map to the confluence with the  
7 North Fork Smith River; North Fork Diamond Creek from the  
8 California-Oregon state boundary to the confluence with  
9 Diamond Creek; High Plateau Creek from its source in Section  
10 26 T18N R2E as depicted on 1951 USGS 15' "Gasquet"  
11 topographic map to northern boundary Section 23 T18N R2E;  
12 High Plateau Creek from the northern boundary Section 23 T18N  
13 R2E to the confluence with Diamond Creek; the Siskiyou Fork  
14 from its source about 0.7 miles southeast of Broken Rib  
15 Mountain as depicted on 1956 USGS 15' "Preston Peak"  
16 topographic map to the confluence with the South Siskiyou Fork;  
17 the Siskiyou Fork from its confluence with the South Siskiyou  
18 Fork to the confluence with the Middle Fork; the South Siskiyou  
19 Fork from its source about 0.6 miles southwest of Buck Lake as  
20 depicted on 1956 USGS 15' "Preston Peak" topographic map to  
21 the confluence with the Siskiyou Fork; the South Fork from its  
22 source about 0.5 miles southwest of Bear Mountain as depicted  
23 on 1956 USGS 15' "Preston Peak" topographic map to  
24 Blackhawk Bar; the South Fork from Blackhawk Bar to the  
25 confluence with the Middle Fork; Williams Creek from its source  
26 in Section 31 T14N R4E as depicted on 1952 USGS 15' "Ship  
27 Mountain" topographic map to the confluence with Eight Mile  
28 Creek; Eight Mile Creek from its source in Section 29 T14N R4E  
29 as depicted on 1955 USGS 15' "Dillon Mountain" topographic  
30 map to the confluence with the South Fork; the Prescott Fork  
31 from its source about 0.5 miles southeast of Island Lake as  
32 depicted on 1955 USGS 15' "Dillon Mountain" topographic map  
33 to the confluence with the South Fork; Quartz Creek from its  
34 source in Section 31 T16N R4E as depicted on 1952 USGS 15'  
35 "Ship Mountain" topographic map to the confluence with the  
36 South Fork; Jones Creek from its source in Section 36 T16N R3E  
37 as depicted on 1952 USGS 15' "Ship Mountain" topographic  
38 map to the middle of Section 5 T15N R3E; Jones Creek from the  
39 middle of Section 5 T15N R3E to the confluence with the South  
40 Fork; Hurdygurdy Creek from its source about 0.4 miles

1 southwest of Bear Basin Butte as depicted on 1956 USGS 15'  
2 “Preston Peak” topographic map to the confluence with the South  
3 Fork; Gordon Creek from its source in Section 18 T16N R3E as  
4 depicted on 1951 USGS 15’ “Gasquet” topographic map to the  
5 confluence with the South Fork; Coon Creek from the junction of  
6 the two-source tributaries in the southwest quadrant of Section 31  
7 T17N R3E as depicted on 1951 USGS 15’ “Gasquet”  
8 topographic map to the western boundary Section 14 T16N R2E;  
9 Coon Creek from the western boundary Section 14 T16N R2E to  
10 the confluence with the South Fork; Craigs Creek from its source  
11 in Section 36 T17N R2E as depicted on 1951 USGS 15’  
12 “Gasquet” topographic map to the confluence with the South  
13 Fork; Buck Creek from its source at Cedar Camp Spring as  
14 depicted on 1952 USGS 15’ “Ship Mountain” topographic map  
15 to the confluence with the South Fork; Muzzleloader Creek from  
16 its source in Section 2 T15N R3E as depicted on 1952 USGS 15’  
17 “Ship Mountain” topographic map to the confluence with Jones  
18 Creek; Canthook Creek from its source in Section 2 T15N R2E  
19 as depicted on 1952 USGS 15’ “Ship Mountain” topographic  
20 map to the confluence with South Fork.

21 (d) Eel River. The main stem from 100 yards below Van  
22 Arsdale Dam to the Pacific Ocean; the South Fork of the Eel  
23 from the mouth of Section Four Creek near Branscomb to the  
24 river mouth below Weott; Middle Fork of the Eel from the  
25 intersection of the river with the southern boundary of the Middle  
26 Eel-Yolla Bolly Wilderness Area to the river mouth at Dos Rios;  
27 North Fork of the Eel from the Old Gilman Ranch downstream to  
28 the river mouth near Ramsey; Van Duzen River from Dinsmores  
29 Bridge downstream to the river mouth near Fortuna.

30 (e) American River. The North Fork from its source to the  
31 Iowa Hill Bridge; the Lower American from Nimbus Dam to its  
32 junction with the Sacramento River.

33 (f) (1) West Walker River. The main stem from its source to  
34 the confluence with Rock Creek near the town of Walker; Leavitt  
35 Creek from Leavitt Falls to the confluence with the main stem of  
36 the West Walker River.

37 (2) Carson River. The East Fork from the Hangman’s Bridge  
38 crossing of State Highway Route 89 to the California-Nevada  
39 border.

1 (3) The Legislature finds and declares that, because the East  
2 Fork Carson River and West Walker River are interstate streams,  
3 and a source of agricultural water and domestic water for  
4 communities within the counties of Alpine and Mono where they  
5 originate, it is necessary that the following special provisions  
6 apply:

7 (A) Nothing in this subdivision shall be construed to prohibit  
8 the replacement of diversions or changes in the purpose of use,  
9 place of use, or point of diversion under existing water rights,  
10 except that (i) no replacement or change shall operate to increase  
11 the adverse effect, if any, of the preexisting diversion facility or  
12 place or purpose of use, upon the free-flowing condition and  
13 natural character of the stream, and (ii) after January 1, 1990, no  
14 new diversion shall be constructed unless and until the secretary  
15 determines that the facility is needed to supply domestic water to  
16 the residents of any county through which the river or segment  
17 flows and that the facility will not adversely affect the  
18 free-flowing condition and natural character of the stream.

19 (B) Nothing in this chapter shall be construed as quantifying  
20 or otherwise affecting any equitable apportionment, or as  
21 establishing any upper limit, between the State of California and  
22 the State of Nevada of the waters of these streams.

23 (g) (1) The South Yuba River: From Lang Crossing to its  
24 confluence with Kentucky Creek below Bridgeport.

25 (2) Nothing in this subdivision shall prejudice, alter, delay,  
26 interfere with, or affect in any way, the existing rights of the  
27 Placer County Water Agency, the implementation of those rights;  
28 any historic water use practices; the replacement, maintenance,  
29 repair, operation, or future expansion of existing diversions,  
30 storage, powerhouses, or conveyance facilities or other works by  
31 the Placer County Water Agency; or changes in the purpose of  
32 use, places of use, points of diversion, or ownership of those  
33 existing water rights; nor shall anything in this subdivision  
34 preclude the issuance of any governmental authorization needed  
35 for utilization of those rights, except that no changes shall  
36 operate to increase the adverse effect, if any, of the preexisting  
37 facilities or places, or the purposes of use upon the free-flowing  
38 and natural character of the river segment designated herein.

39 (3) This subdivision shall become operative on January 1,  
40 2001.

1 (h) Albion River. The Albion River from one-fourth mile  
2 upstream of its confluence with Deadman Gulch downstream to  
3 its mouth at the Pacific Ocean.

4 (i) Gualala River. The main stem Gualala River from the  
5 confluence of the North and South Forks to the Pacific Ocean.

6 (j) (1) Cache Creek from one-fourth mile below Cache Creek  
7 Dam to Camp Haswell.

8 (2) North Fork Cache Creek from the Highway 20 bridge to  
9 the confluence with the mainstem.

10 (3) The designation of Cache Creek under paragraphs (1) and  
11 (2) shall not prejudice, alter, delay, interfere with, or affect in any  
12 way, the existing water rights of the Yolo County Flood Control  
13 and Water Conservation District, or public water agencies within  
14 the Cache Creek watershed lying in the County of Lake,  
15 including the range of operations permitted under these existing  
16 water rights; any historic water use practices within existing  
17 water rights; or the replacement, maintenance, repair, or future  
18 expansion within existing water rights of existing diversion,  
19 storage, powerhouse, or conveyance facilities or other works by  
20 the Yolo County Flood Control and Water Conservation District  
21 or public water agencies within the Cache Creek watershed lying  
22 in the County of Lake.

23 (4) The designation of Cache Creek under paragraphs (1) and  
24 (2) shall not prejudice, alter, delay, interfere with, or affect any  
25 changes to the existing water rights of the Yolo County Flood  
26 Control and Water Conservation District, including changes to  
27 the purpose of use, place of use, points of diversion, quantity of  
28 water diverted, or ownership, or applications by the district for  
29 new water rights; provided, that the changes or applications do  
30 not involve the construction of a dam, reservoir, diversion, or  
31 other water impoundment facility within the segments of Cache  
32 Creek designated in paragraphs (1) and (2). Any such change or  
33 application shall be subject to all applicable constitutional,  
34 statutory, and judicial requirements, including the public trust  
35 doctrine.

36 (5) As the waters of the Cache Creek watershed are the sole  
37 source of supply within that watershed for the County of Lake,  
38 the designation of Cache Creek under paragraphs (1) and (2)  
39 shall not prejudice, alter, delay, interfere with, or affect any  
40 changes to the existing water rights of the public water agencies

1 within the Cache Creek watershed lying in the County of Lake,  
2 including changes to the purpose of use, place of use, points of  
3 diversion, quantity of water diverted, or ownership, or  
4 applications by these agencies for new water rights; provided,  
5 that the changes or applications do not involve the construction  
6 of a dam, reservoir, diversion, or other water impoundment  
7 facility within the segments of Cache Creek designated in  
8 paragraphs (1) and (2). Any such change or application shall be  
9 subject to all applicable constitutional, statutory, and judicial  
10 requirements, including the public trust doctrine.

11 (6) (A) The designation of Cache Creek under paragraphs (1)  
12 and (2) shall not impair or affect in any way activities to manage  
13 or remove invasive or nonnative plants and animal species.

14 (B) The designation of Cache Creek under paragraphs (1) and  
15 (2) shall not impair or affect in any way activities to remediate  
16 mercury pollution; provided, that this activity does not involve  
17 the construction of a dam, reservoir, diversion, or other water  
18 impoundment facility within the segments of Cache Creek  
19 designated in paragraphs (1) and (2).

20 (7) (A) Neither the Governor nor an employee of a state  
21 agency or department shall apply to a secretary, department,  
22 agency, or other entity of the federal government for the  
23 designation of any portion of Cache Creek as a component of the  
24 national wild and scenic rivers system under the federal Wild and  
25 Scenic Rivers Act (16 U.S.C. Sec. 1271 et seq.).

26 (B) Neither the Governor nor an employee of a state agency or  
27 department shall expend funds preparing, filing, or otherwise  
28 submitting an application to a secretary, department, or other  
29 entity of the federal government for the designation of any  
30 portion of Cache Creek as a component of the national wild and  
31 scenic rivers system under the federal Wild and Scenic Rivers  
32 Act (16 U.S.C. Sec. 1271 et seq.).

33 (8) To the extent that this subdivision conflicts with other  
34 provisions of this chapter, this subdivision shall control.

35 (k) Other rivers which qualify for inclusion in the system may  
36 be recommended to the Legislature by the secretary.

37 SEC. 3. Section 5093.545 of the Public Resources Code is  
38 amended to read:

1 5093.545. The classifications heretofore established by the  
 2 secretary for the rivers or segments of rivers included in the  
 3 system are revised and adopted as follows:

4	Rivers	Classification
5		
6	(a) Klamath River: The Klamath River from the	
7	FERC Project 2082 downstream boundary	
8	in Section 17 T47N R5W as shown on	
9	Exhibit K-7 sheet 1 dated May 25, 1962, to	
10	the river mouth at the Pacific Ocean	Recreational
11	(b) Scott River:	
12	(1) The Scott River from Shackleford Creek to	
13	McCarthy Creek	Recreational
14	(2) The Scott River from McCarthy Creek to	
15	Scott Bar	Scenic
16	(3) The Scott River from Scott Bar to the	
17	confluence with the Klamath River	Recreational
18	(c) Salmon River:	
19	(1) The Salmon River from the Forks of	
20	Salmon to the Lewis Creek confluence	Recreational
21	(2) The Salmon River from the Lewis Creek	
22	confluence to the Wooley Creek confluence	Scenic
23	(3) The Salmon River from the Wooley Creek	
24	confluence to the confluence with the	
25	Klamath River	Recreational
26	(4) The South Fork of the Salmon River from	
27	Cecilville to St. Claire Creek confluence	Recreational
28	(5) The South Fork from St. Claire Creek	
29	confluence to the Matthews Creek	
30	confluence	Scenic
31	(6) The South Fork from Matthews Creek	
32	confluence to the Forks of Salmon	Recreational
33	(7) The North Fork of the Salmon River from	
34	Marble Mountain Wilderness boundary to	
35	Mule Bridge Campground in Section 35	
36	T12N R11W and Section 12 T11N R11W	Wild
37	(8) The North Fork from Mule Bridge	
38	Campground to the Forks of Salmon	Recreational

- 1 (9) Wooley Creek from the Marble Mountain
- 2 Wilderness Area boundary to 1/2 mile
- 3 upstream of the confluence with Salmon
- 4 River Wild
- 5 (10) Wooley Creek downstream 1/2 mile above
- 6 the confluence with the Salmon River Recreational
- 7 (d) Trinity River:
- 8 (1) The Trinity River from 100 yards below
- 9 Lewiston Dam to Cedar Flat Creek
- 10 confluence Recreational
- 11 (2) The Trinity River from Cedar Flat Creek
- 12 confluence to Gray Falls Scenic
- 13 (3) The Trinity River from Gray Falls to the
- 14 west boundary of Section 2 T8N R4E Recreational
- 15 (4) The Trinity River from the west boundary
- 16 of Section 2 T8N R4E to the confluence
- 17 with the Klamath River at Weitchpec Scenic
- 18 (5) The North Fork of the Trinity River from
- 19 the Trinity Alps Primitive Area boundary to
- 20 north boundary Section 20 T34N R11W Wild
- 21 (6) The North Fork from the north boundary
- 22 Section 20 T34N R11W to mouth Recreational
- 23 (7) The South Fork Trinity River from Forest
- 24 Glen to Hidden Valley Ranch Wild
- 25 (8) The South Fork from Hidden Valley Ranch
- 26 to the Naufus Creek confluence in Section 8
- 27 T1N R7E Scenic
- 28 (9) The South Fork from the Naufus Creek
- 29 confluence in Section 8 T1N R7E to
- 30 Johnson Creek confluence near the
- 31 boundary of Sections 13 and 14 T2N R6E Wild
- 32 (10) The South Fork from Johnson Creek
- 33 confluence near the boundary of Sections 13
- 34 and 14 T2N R6E to the boundary of
- 35 Sections 25 and 36 T2N R6E Scenic
- 36 (11) The South Fork from the boundary of
- 37 Sections 25 and 36 T2N R6E to the
- 38 footbridge near the mouth of Underwood
- 39 Creek in Section 17 T4N R6E Humboldt
- 40 Base and Meridian Recreational

- |    |      |   |              |
|----|------|---|--------------|
| 1  | (12) | The South Fork from the footbridge near the |              |
