

Assembly Bill No. 2511

CHAPTER 888

An act to amend Sections 65008, 65400, 65589.5, 65852.1, 65863, and 65950 of, to add Section 65582.1 to, and to repeal Section 66037 of, the Government Code, relating to land use.

[Approved by Governor September 30, 2006. Filed with
Secretary of State September 30, 2006.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2511, Jones. Land use: housing.

(1) The Planning and Zoning Law prohibits a city, county, city and county, and other local governmental agency from prohibiting or discriminating against a residential development or emergency shelter because of specified reasons, including that the development is intended for occupancy by persons or families of low, moderate, or middle income.

This bill would include within this prohibition the intended occupancy by persons or families of very low income. The bill would also prohibit a city, county, city and county, or other local government agency from disapproving a housing development project or conditioning the approval of a housing development project in a manner that renders the project infeasible if the basis for the disapproval or conditional approval includes the prohibited bases of discrimination specified in the Planning and Zoning Law.

(2) The Planning and Zoning Law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city and of any land outside its boundaries that bears relation to its planning. That law requires this general plan to include several elements, including land use, circulation, housing, open-space, and conservation elements, which are required to meet specified requirements. After the legislative body of a city, county, or city and county adopts all or part of a general plan, the Planning and Zoning Law requires the agency to provide an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes specified information regarding the status of the plan and progress in its implementation. This report is due by April 1 of each year, except for the 2006 calendar year when it is due on October 1.

This bill would require a court to issue an order or judgment compelling compliance with this reporting requirement within 60 days if, upon a motion to that effect, the court finds that a city, county, or city and county failed to timely submit the housing element portion of that report that substantially complies with the applicable requirements. The bill would

authorize the court to grant appropriate sanctions and require the court to retain jurisdiction to ensure that its order or judgment is carried out.

(3) The Planning and Zoning Law requires that a local agency not disapprove a housing development project for very low, low-, or moderate-income households or condition its approval in a manner that renders the project infeasible for development for those households unless it makes written findings, based upon substantial evidence in the record, as to one of a number of specified conditions.

The Planning and Zoning Law also requires the court, in an action to enforce these provisions, to issue an order or judgment to compel compliance with these provisions within 60 days if the court finds that the local agency disapproved the project or conditioned its approval without making the required findings or without making sufficient findings supported by substantial evidence, and authorizes the court to issue further orders to ensure that the purposes and policies of these provisions are fulfilled if its order or judgment has not been carried out within the 60-day period.

This bill would provide that these provisions be known and cited as the Housing Accountability Act.

(4) Existing law provides for the adoption and administration of zoning laws, ordinances, rules, and regulations by counties and cities, as well as the implementation of general plans. Existing law declares the intent of the Legislature to provide only a minimum of limitation in order that counties and cities may exercise the maximum degree of control over local zoning matters.

Existing law makes various findings and declarations regarding the lack of affordable housing and declares that it is the policy of the state that a local government not reject or make infeasible affordable housing developments that contribute to meeting the state housing need without a thorough analysis of the effects of the action.

This bill would state the findings and declarations of the Legislature with respect to some of the laws that provide incentives to facilitate and expedite the construction of affordable housing.

(5) The Planning and Zoning Law authorizes a local agency to provide by ordinance for the creation of 2nd units on parcels zoned for single-family and multifamily residence, as prescribed. It also authorizes a local agency to issue a zoning variance, special use permit, or conditional use permit for a dwelling unit of a specified size to be constructed either attached to or detached from a primary residence on a parcel zoned for a single-family residence if the dwelling unit is intended for the sole occupancy of one adult or 2 adult persons aged 62 years or older.

This bill would repeal this specific authority of a local agency, but would provide that units constructed pursuant to these variances or permits issued before January 1, 2007, are to be considered in compliance with relevant laws, ordinances, rules, and regulations.

(6) The Planning and Zoning Law prohibits a city, county, or city and county from reducing, requiring, or permitting the reduction of the

residential density to a lower residential density that is below the density that was utilized by the Department of Housing and Community Development in determining compliance with housing element law unless the city, county, or city and county makes written findings supported by substantial evidence that the reduction is consistent with the adopted general plan, including the housing element, and the remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need. The city, county, or city and county may reduce the residential density for a parcel if it identifies sufficient additional sites, as prescribed.

This bill would define a lower residential density below which the city, county, or city and county would be required to make the above described written findings.

(7) Existing law requires each city, county, or city and county to ensure that its inventory or programs of adequate sites identified in its housing element can accommodate its share of the regional housing need throughout the planning period and prohibits a city, county, or city and county from reducing, requiring, or permitting the reduction of the residential density for any parcel to a lower residential density that is lower than the density used by the Department of Housing and Community Development in determining compliance with housing element law unless the city, county, or city and county makes specified written findings supported by substantial evidence.

This bill would instead require each city, county, or city and county to ensure that its housing element inventory or its housing element program to make those sites available, can accommodate its share of the regional housing need throughout the planning period. The bill would define "lower residential density" for these purposes.

(8) The Permit Streamlining Act within the Planning and Zoning Law requires the lead agency that has the principal responsibility for approving a development project, as defined, to approve or disapprove the project within a specified number of days from the date of certification of an environmental impact report, the date of the adoption of a negative declaration, or the determination by the lead agency that the project is exempt from the California Environmental Quality Act.

This bill would define "development project" with respect to a development project that is affordable to very low or low-income households and for which the project applicant has applied for or will apply for financial assistance from a public agency or federal agency as a use that consists of residential units only or a mixed-use development consisting of residential and less than 50% nonresidential neighborhood commercial use, as defined.

(9) Existing law authorizes the court to invite the parties involved in specified land use actions before the court to consider resolving their dispute by mediation. Actions filed on or after January 1, 2006, are not subject to this provision.

This bill would repeal the provision that makes those actions not subject to the invitation to mediate the dispute.

(10) This bill would incorporate additional changes in Section 65008 of the Government Code, proposed by AB 2800, to be operative only if AB 2800 and this bill are both chaptered and become effective on or before January 1, 2007, and this bill is chaptered last.

The bill would also incorporate additional changes in Section 65589.5 of the Government Code, proposed by SB 1322, to be operative only if SB 1322 and this bill are both chaptered and become effective on or before January 1, 2007, and this bill is chaptered last.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) Failure to timely prepare and file an adequate report on a general plan adopted by a city, county, or city and county before the mandatory deadlines as required pursuant to Section 65400 of the Government Code is a violation of law and contrary to the state housing goal.

(b) Preventing governmental delays in processing a permit application for a development project is an important state interest. Failure to comply with the mandatory deadlines set forth in Section 65950 of the Government Code is contrary to the state housing goal.

SEC. 2. Section 65008 of the Government Code is amended to read:

65008. (a) Any action pursuant to this title by any city, county, city and county, or other local governmental agency in this state is null and void if it denies to any individual or group of individuals the enjoyment of residence, landownership, tenancy, or any other land use in this state because of any of the following reasons:

(1) The race, sex, color, religion, ethnicity, national origin, ancestry, lawful occupation, familial status, disability, or age of the individual or group of individuals. For purposes of this section, both of the following definitions apply:

(A) "Familial status" as defined in Section 12955.2.

(B) "Disability" as defined in Section 12955.3.

(2) The method of financing of any residential development of the individual or group of individuals.

(3) The intended occupancy of any residential development by persons or families of very low, low, moderate, or middle income.

(b) (1) No city, county, city and county, or other local governmental agency shall, in the enactment or administration of ordinances pursuant to any law, including this title, prohibit or discriminate against any residential development or emergency shelter for any of the following reasons:

(A) Because of the method of financing.

(B) Because of the race, sex, color, religion, ethnicity, national origin, ancestry, lawful occupation, familial status, disability, or age of the owners or intended occupants of the residential development or emergency shelter.

(C) Because the development or shelter is intended for occupancy by persons and families of very low, low, or moderate income, as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income.

(D) Because the development consists of a multifamily residential project that is consistent with both the jurisdiction’s zoning ordinance and general plan as they existed on the date the application was deemed complete, except that a project shall not be deemed to be inconsistent with the zoning designation for the site if that zoning designation is inconsistent with the general plan only because the project site has not been rezoned to conform with a more recently adopted general plan.

(2) The discrimination prohibited by this subdivision includes the denial or conditioning of a residential development or shelter because of, in whole or in part, either of the following:

(A) The method of financing.

(B) The occupancy of the development by persons protected by this subdivision, including, but not limited to, persons and families of very low, low, or moderate income.

(3) A city, county, city and county, or other local government agency may not, pursuant to subdivision (d) of Section 65589.5, disapprove a housing development project or condition approval of a housing development project in a manner that renders the project infeasible if the basis for the disapproval or conditional approval includes any of the reasons prohibited in paragraph (1) or (2).

(c) For the purposes of this section, “persons and families of middle income” means persons and families whose income does not exceed 150 percent of the median income for the county in which the persons or families reside.

(d) (1) No city, county, city and county, or other local governmental agency may impose different requirements on a residential development or emergency shelter that is subsidized, financed, insured, or otherwise assisted by the federal or state government or by a local public entity, as defined in Section 50079 of the Health and Safety Code, than those imposed on nonassisted developments, except as provided in subdivision (e). The discrimination prohibited by this subdivision includes the denial or conditioning of a residential development or emergency shelter based in whole or in part on the fact that the development is subsidized, financed, insured, or otherwise assisted as described in this paragraph.

(2) No city, county, city and county, or other local governmental agency may, because of the race, sex, color, religion, ethnicity, national origin, ancestry, lawful occupation, familial status, disability, or age of the intended occupants, or because the development is intended for occupancy by persons and families of very low, low, moderate, or middle income, impose different requirements on these residential developments than those imposed on developments generally, except as provided in subdivision (e).

(e) Notwithstanding subdivisions (a) to (d), inclusive, this section and this title do not prohibit either of the following:

(1) The County of Riverside from enacting and enforcing zoning to provide housing for older persons, in accordance with state or federal law, if that zoning was enacted prior to January 1, 1995.

(2) Any city, county, or city and county from extending preferential treatment to residential developments or emergency shelters assisted by the federal or state government or by a local public entity, as defined in Section 50079 of the Health and Safety Code, or other residential developments or emergency shelters intended for occupancy by persons and families of low and moderate income, as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income, or agricultural employees, as defined in subdivision (b) of Section 1140.4 of the Labor Code, and their families. This preferential treatment may include, but need not be limited to, reduction or waiver of fees or changes in architectural requirements, site development and property line requirements, building setback requirements, or vehicle parking requirements that reduce development costs of these developments.

(f) “Residential development,” as used in this section, means a single-family residence or a multifamily residence, including manufactured homes, as defined in Section 18007 of the Health and Safety Code.

(g) This section shall apply to chartered cities.

(h) The Legislature finds and declares that discriminatory practices that inhibit the development of housing for persons and families of very low, low, moderate, and middle income, or emergency shelters for the homeless, are a matter of statewide concern.

SEC. 2.5. Section 65008 of the Government Code is amended to read:

65008. (a) Any action pursuant to this title by any city, county, city and county, or other local governmental agency in this state is null and void if it denies to any individual or group of individuals the enjoyment of residence, landownership, tenancy, or any other land use in this state because of any of the following reasons:

(1) (A) The lawful occupation, age, or any characteristic of the individual or group of individuals listed in subdivision (a) or (d) of Section 12955, as those bases are defined in Sections 12926, 12926.1, subdivision (m) and paragraph (1) of subdivision (p) of Section 12955 and Section 12955.2.

(B) Notwithstanding subparagraph (A), with respect to familial status, subparagraph (A) shall not be construed to apply to housing for older persons, as defined in Section 12955.9. With respect to familial status, nothing in subparagraph (A) shall be construed to affect Sections 51.2, 51.3, 51.4, 51.10, 51.11, and 799.5 of the Civil Code, relating to housing for senior citizens. Subdivision (d) of Section 51 and Section 1360 of the Civil Code and subdivisions (n), (o), and (p) of Section 12955 of this code shall apply to subparagraph (A).

(2) The method of financing of any residential development of the individual or group of individuals.

(3) The intended occupancy of any residential development by persons or families of very low, low, moderate, or middle income.

(b) (1) No city, county, city and county, or other local governmental agency shall, in the enactment or administration of ordinances pursuant to any law, including this title, prohibit or discriminate against any residential development or emergency shelter for any of the following reasons:

(A) Because of the method of financing.

(B) (i) Because of the lawful occupation, age, or any characteristic listed in subdivision (a) or (d) of Section 12955, as those characteristics are defined in Sections 12926, 12926.1, subdivision (m) and paragraph (1) of subdivision (p) of Section 12955, and Section 12955.2 of the owners or intended occupants of the residential development or emergency shelter.

(ii) Notwithstanding clause (i), with respect to familial status, clause (i) shall not be construed to apply to housing for older persons, as defined in Section 12955.9. With respect to familial status, nothing in clause (i) shall be construed to affect Sections 51.2, 51.3, 51.4, 51.10, 51.11, and 799.5 of the Civil Code, relating to housing for senior citizens. Subdivision (d) of Section 51 and Section 1360 of the Civil Code and subdivisions (n), (o), and (p) of Section 12955 of this code shall apply to clause (i).

(C) Because the development or shelter is intended for occupancy by persons and families of very low, low, or moderate income, as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income.

(D) Because the development consists of a multifamily residential project that is consistent with both the jurisdiction's zoning ordinance and general plan as they existed on the date the application was deemed complete, except that a project shall not be deemed to be inconsistent with the zoning designation for the site if that zoning designation is inconsistent with the general plan only because the project site has not been rezoned to conform with a more recently adopted general plan.

(2) The discrimination prohibited by this subdivision includes the denial or conditioning of a residential development or shelter because of, in whole or in part, either of the following:

(A) The method of financing.

(B) The occupancy of the development by persons protected by this subdivision, including, but not limited to, persons and families of very low, low, or moderate income.

(3) A city, county, city and county, or other local government agency may not, pursuant to subdivision (d) of Section 65589.5, disapprove a housing development project or condition approval of a housing development project in a manner that renders the project infeasible if the basis for the disapproval or conditional approval includes any of the reasons prohibited in paragraph (1) or (2).

(c) For the purposes of this section, "persons and families of middle income" means persons and families whose income does not exceed 150

percent of the median income for the county in which the persons or families reside.

(d) (1) No city, county, city and county, or other local governmental agency may impose different requirements on a residential development or emergency shelter that is subsidized, financed, insured, or otherwise assisted by the federal or state government or by a local public entity, as defined in Section 50079 of the Health and Safety Code, than those imposed on nonassisted developments, except as provided in subdivision (e). The discrimination prohibited by this subdivision includes the denial or conditioning of a residential development or emergency shelter based in whole or in part on the fact that the development is subsidized, financed, insured, or otherwise assisted as described in this paragraph.

(2) (A) No city, county, city and county, or other local governmental agency may, because of the lawful occupation age, or any characteristic of the intended occupants listed in subdivision (a) or (d) of Section 12955, as those characteristics are defined in Sections 12926, 12926.1, subdivision (m) and paragraph (1) of subdivision (p) of Section 12955, and Section 12955.2 or because the development is intended for occupancy by persons and families of very low, low, moderate, or middle income, impose different requirements on these residential developments than those imposed on developments generally, except as provided in subdivision (e).

(B) Notwithstanding subparagraph (A), with respect to familial status, subparagraph (A) shall not be construed to apply to housing for older persons, as defined in Section 12955.9. With respect to familial status, nothing in subparagraph (A) shall be construed to affect Sections 51.2, 51.3, 51.4, 51.10, 51.11, and 799.5 of the Civil Code, relating to housing for senior citizens. Subdivision (d) of Section 51 and Section 1360 of the Civil Code and subdivisions (n), (o), and (p) of Section 12955 of this code shall apply to subparagraph (A).

(e) Notwithstanding subdivisions (a) to (d), inclusive, this section and this title do not prohibit either of the following:

(1) The County of Riverside from enacting and enforcing zoning to provide housing for older persons, in accordance with state or federal law, if that zoning was enacted prior to January 1, 1995.

(2) Any city, county, or city and county from extending preferential treatment to residential developments or emergency shelters assisted by the federal or state government or by a local public entity, as defined in Section 50079 of the Health and Safety Code, or other residential developments or emergency shelters intended for occupancy by persons and families of low and moderate income, as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income, or agricultural employees, as defined in subdivision (b) of Section 1140.4 of the Labor Code, and their families. This preferential treatment may include, but need not be limited to, reduction or waiver of fees or changes in architectural requirements, site development and property line requirements, building setback requirements, or vehicle parking requirements that reduce development costs of these developments.

(f) “Residential development,” as used in this section, means a single-family residence or a multifamily residence, including manufactured homes, as defined in Section 18007 of the Health and Safety Code.

(g) This section shall apply to chartered cities.

(h) The Legislature finds and declares that discriminatory practices that inhibit the development of housing for persons and families of very low, low, moderate, and middle income, or emergency shelters for the homeless, are a matter of statewide concern.

SEC. 3. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan, so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) The progress in meeting its share of regional housing needs determined pursuant to Section 65584 and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of forms and definitions adopted by the Department of Housing and Community Development pursuant to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2).

(C) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(b) For the report to be filed during the 2006 calendar year, the planning agency may provide the report required pursuant to paragraph (2) of subdivision (a) by October 1, 2006.

(c) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court’s order within 60 days, the plaintiff or petitioner may move for sanctions, and the

court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

SEC. 4. Section 65582.1 is added to the Government Code, to read:

65582.1. The Legislature finds and declares that it has provided reforms and incentives to facilitate and expedite the construction of affordable housing. Those reforms and incentives can be found in the following provisions:

(a) Housing element law (Article 10.6 (commencing with Section 65580) of Chapter 3).

(b) Extension of statute of limitations in actions challenging the housing element and brought in support of affordable housing (subdivision (d) of Section 65009).

(c) Restrictions on disapproval of housing developments (Section 65589.5).

(d) Priority for affordable housing in the allocation of water and sewer hookups (Section 65589.7).

(e) Least cost zoning law (Section 65913.1).

(f) Density bonus law (Section 65915).

(g) Second dwelling units (Sections 65852.150 and 65852.2).

(h) By-right housing, in which certain multifamily housing are designated a permitted use (Section 65589.4).

(i) No-net-loss-in zoning density law limiting downzonings and density reductions (Section 65863).

(j) Requiring persons who sue to halt affordable housing to pay attorney fees (Section 65914) or post a bond (Section 529.2 of the Code of Civil Procedure).

(k) Reduced time for action on affordable housing applications under the approval of development permits process (Article 5 (commencing with Section 65950) of Chapter 4.5).

(l) Limiting moratoriums on multifamily housing (Section 65858).

(m) Prohibiting discrimination against affordable housing (Section 65008).

(n) California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3).

(o) Community redevelopment law (Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code, and in particular Sections 33334.2 and 33413).

SEC. 5. Section 65589.5 of the Government Code is amended to read:

65589.5. (a) The Legislature finds and declares all of the following:

(1) The lack of housing is a critical problem that threatens the economic, environmental, and social quality of life in California.

(2) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(3) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(4) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing projects, reduction in density of housing projects, and excessive standards for housing projects.

(b) It is the policy of the state that a local government not reject or make infeasible housing developments that contribute to meeting the housing need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (d) of Section 50199.50 of the Health and Safety Code, for very low, low-, or moderate-income households or condition approval in a manner that renders the project infeasible for development for the use of very low, low-, or moderate-income households, including through the use of design review standards, unless it makes written findings, based upon substantial evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the

project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and Community Development pursuant to Section 65400. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The development project as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.

(3) The denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households.

(4) The development project is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The development project is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in accordance with Section 65588 that is in substantial compliance with this article.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction’s housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction’s share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within

commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the local agency's share of the regional housing need for the very low and low-income categories.

(e) This section does not relieve the local agency from complying with the Congestion Management Program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code). This section also does not relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) This section does not prohibit a local agency from requiring the development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development project. This section does not prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the development project.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) "Housing development project" means a use consisting of either of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses in which nonresidential uses are limited to neighborhood commercial uses and to the first floor of buildings that are two or more stories. As used in this paragraph, "neighborhood commercial" means small-scale general or specialty stores that furnish goods and services primarily to residents of the neighborhood.

(3) "Housing for very low, low-, or moderate-income households" means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to moderate-income households as defined in Section 50093 of the Health and Safety Code, or middle-income households, as defined in Section 65008 of this code. Housing units targeted for lower income

households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate-income eligibility limits are based.

(4) “Area median income” means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(5) “Disapprove the development project” includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved.

(B) Fails to comply with the time periods specified in subparagraph (B) of paragraph (1) of subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(i) If any city, county, or city and county denies approval or imposes restrictions, including design changes, a reduction of allowable densities or the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the application is deemed complete pursuant to Section 65943, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of restrictions on the development is the subject of a court action which challenges the denial, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d) and that the findings are supported by substantial evidence in the record.

(j) When a proposed housing development project complies with applicable, objective general plan and zoning standards and criteria, including design review standards, in effect at the time that the housing development project’s application is determined to be complete, but the local agency proposes to disapprove the project or to approve it upon the condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by substantial evidence on the record that both of the following conditions exist:

(1) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower

density. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(2) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(k) The applicant or any person who would be eligible to apply for residency in the development may bring an action to enforce this section. If in any action brought to enforce the provisions of this section, a court finds that the local agency disapproved a project or conditioned its approval in a manner rendering it infeasible for the development of housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making sufficient findings supported by substantial evidence, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the development project. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney’s fees and costs of suit to the plaintiff or petitioner who proposed the housing development, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency, in which case the application for the project, as constituted at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be deemed approved unless the applicant consents to a different decision or action by the local agency.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development in violation of this section and (2) failed to carry out the court’s order or judgment within 60 days as described in paragraph (k), the court in addition to any other remedies provided by this section, may impose fines upon the local agency that the local agency shall be required to deposit into a housing trust fund. Fines shall not be paid from funds that are already dedicated for affordable housing, including, but not limited to, redevelopment or low- and moderate-income housing funds and federal HOME and CDBG funds. The local agency shall commit the money in the trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or

low-income households. For purposes of this section, “bad faith” shall mean an action that is frivolous or otherwise entirely without merit.

(m) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency. Upon entry of the trial court’s order, a party shall, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow. If the local agency appeals the judgment of the trial court, the local agency shall post a bond, in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be prepared (1) by the petitioner with the petition or petitioner’s points and authorities, (2) by the respondent with respondent’s points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o) This section shall be known, and may be cited, as the Housing Accountability Act.

SEC. 5.5. Section 65589.5 of the Government Code is amended to read:

65589.5. (a) The Legislature finds and declares all of the following:

(1) The lack of housing and emergency shelters is a critical problem that threatens the economic, environmental, and social quality of life in California.

(2) California housing has become the most expensive in the nation. The excessive cost of the state’s housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(3) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(4) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing projects and emergency shelters, reduction in density of housing projects, and excessive standards for housing projects.

(b) It is the policy of the state that a local government not reject or make infeasible emergency shelters housing developments that contribute

to meeting the housing need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (d) of Section 50199.50 of the Health and Safety Code, for very low, low-, or moderate-income households, a special needs facility, or an emergency shelter, or condition approval in a manner that renders the project infeasible for development for the use of very low, low-, or moderate-income households, a special needs facility, or an emergency shelter, including through the use of design review standards, unless it makes written findings, based upon substantial evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and Community Development pursuant to Section 65400. In the case of transitional housing or an emergency shelter, the jurisdiction shall have met or exceeded the need for transitional housing or emergency shelter, as identified pursuant to paragraph (6) of subdivision (a) of Section 65583. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The development project, special needs facility, or emergency shelter as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households or rendering the development of the special needs facility or emergency shelter financially

infeasible. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a specific, adverse impact upon the public health or safety.

(3) The denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households or rendering the development of the special needs facility or emergency shelter financially infeasible.

(4) The development project, special needs facility, or emergency shelter is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The development project, special needs facility, or emergency shelter is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in accordance with Section 65588 that is in substantial compliance with this article.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction’s housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation. This paragraph cannot be utilized to disapprove or conditionally approve an emergency shelter if the shelter is proposed on a site that is identified as suitable for emergency shelters in the housing element, even though it is inconsistent with both the jurisdiction’s zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction’s share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and

with services and facilities to accommodate the local agency's share of the regional housing need for the very low and low-income categories.

(e) This section does not relieve the local agency from complying with the Congestion Management Program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code). This section does not relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) This section also does not prohibit a local agency from requiring the housing development project, special needs facility, or emergency shelter to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. A local agency may also require special needs facilities and emergency shelters to comply with objective, quantifiable, written management standards. However, the development and management standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the housing development project, special needs facility, or emergency shelter. This section does not prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the housing development project, special needs facility, or emergency shelter.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) "Housing development project" means a use consisting of either of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses in which nonresidential uses are limited to neighborhood commercial uses and to the first floor of buildings that are two or more stories. As used in this paragraph, "neighborhood commercial" means small-scale general or specialty stores that furnish goods and services primarily to residents of the neighborhood.

(3) "Housing for very low, low-, or moderate-income households" means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to moderate-income households as defined in Section 50093 of the Health and Safety Code, or middle-income households, as defined in

Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate income eligibility limits are based.

(4) “Special needs facility” includes all of the following if the facility is licensed and serves seven or more persons:

(A) A “community care facility,” “residential facility,” “social rehabilitation facility,” “community treatment facility,” “transitional shelter care facility,” and “transitional housing placement facility,” as those terms are defined in Section 1502 of the Health and Safety Code.

(B) A “residential care facility,” as defined in Section 1568.01 of the Health and Safety Code.

(C) A “residential care facility for the elderly,” as defined in Section 1569.2 of the Health and Safety Code.

(5) “Area median income” means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(6) “Disapprove the development project” includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved.

(B) Fails to comply with the time periods specified in subparagraph (B) of paragraph (1) of subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(i) If any city, county, or city and county denies approval or imposes restrictions, including design changes, a reduction of allowable densities or the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the application is deemed complete pursuant to Section 65943, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of restrictions on the development is the subject of a court action which challenges the denial, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d) and that the findings are supported by substantial evidence in the record.

(j) When a proposed housing development project complies with applicable, objective general plan and zoning standards and criteria, including design review standards, in effect at the time that the housing development project's application is determined to be complete, but the local agency proposes to disapprove the project or to approve it upon the condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by substantial evidence on the record that both of the following conditions exist:

(1) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(2) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(k) The applicant or any person who would be eligible to apply for residency in the development, special needs facility, or emergency shelter may bring an action to enforce this section. If in any action brought to enforce the provisions of this section, a court finds that the local agency disapproved a project or conditioned its approval in a manner rendering it infeasible for the development of a special needs facility, emergency shelter, or housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making sufficient findings supported by substantial evidence, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the development project, special needs facility or emergency shelter. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner who proposed the housing development, special needs facility, or emergency shelter, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency, in which case the application for the project, as constituted at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be

deemed approved unless the applicant consents to a different decision or action by the local agency.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development, special needs facility, or emergency shelter in violation of this section and (2) failed to carry out the court's order or judgment within 60 days as described in paragraph (k), the court in addition to any other remedies provided by this section, may impose fines upon the local agency that the local agency shall be required to deposit into a housing trust fund. Fines shall not be paid from funds that are already dedicated for affordable housing, including, but not limited to, redevelopment or low- and moderate-income housing funds and federal HOME and CDBG funds. The local agency shall commit the money in the trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households. For purposes of this section, "bad faith" shall mean an action that is frivolous or otherwise entirely without merit.

(m) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency. Upon entry of the trial court's order, a party shall, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow. If the local agency appeals the judgment of the trial court, the local agency shall post a bond, in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be prepared (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o) This section shall be known, and may be cited, as the Housing Accountability Act.

SEC. 6. Section 65852.1 of the Government Code is amended to read:

65852.1. (a) Notwithstanding Section 65906, any city, including a charter city, county, or city and county may issue a zoning variance, special use permit, or conditional use permit for a dwelling unit to be constructed, or which is attached to or detached from, a primary residence on a parcel zoned for a single-family residence, if the dwelling unit is

intended for the sole occupancy of one adult or two adult persons who are 62 years of age or over, and the area of floorspace of the attached dwelling unit does not exceed 30 percent of the existing living area or the area of the floorspace of the detached dwelling unit does not exceed 1,200 square feet.

This section shall not be construed to limit the requirements of Section 65852.2, or the power of local governments to permit second units.

(b) This section shall become inoperative on January 1, 2007, and shall have no effect thereafter, except that any zoning variance, special use permit, or conditional use permit issued for a dwelling unit before January 1, 2007, pursuant to this section shall remain valid, and a dwelling unit constructed pursuant to such a zoning variance, special use permit, or conditional use permit shall be considered in compliance with all relevant laws, ordinances, rules, and regulations after January 1, 2007.

SEC. 7. Section 65863 of the Government Code is amended to read:

65863. (a) Each city, county, or city and county shall ensure that its housing element inventory described in paragraph (3) of subdivision (a) of Section 65583 or its housing element program to make sites available pursuant to paragraph (1) of subdivision (c) of Section 65583 can accommodate its share of the regional housing need pursuant to Section 65584, throughout the planning period.

(b) No city, county, or city and county shall, by administrative, quasi-judicial, legislative, or other action, reduce, or require or permit the reduction of, the residential density for any parcel to, or allow development of any parcel at, a lower residential density, as defined in paragraphs (1), and (2) of subdivision (h), unless the city, county, or city and county makes written findings supported by substantial evidence of both of the following:

(1) The reduction is consistent with the adopted general plan, including the housing element.

(2) The remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584.

(c) If a reduction in residential density for any parcel would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584, the jurisdiction may reduce the density on that parcel if it identifies sufficient additional, adequate, and available sites with an equal or greater residential density in the jurisdiction so that there is no net loss of residential unit capacity.

(d) The requirements of this section shall be in addition to any other law that may restrict or limit the reduction of residential density.

(e) If a court finds that an action of a city, county, or city and county is in violation of this section, the court shall award to the plaintiff or petitioner who proposed the housing development, reasonable attorney's fees and costs of suit, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this

section or the court finds that the action was frivolous. This subdivision shall remain operative only until January 1, 2007, and as of that date is no longer operative, unless a later enacted statute that is enacted before January 1, 2007, deletes or extends that date.

(f) This section requires that a city, county, or city and county be solely responsible for compliance with this section, unless a project applicant requests in his or her initial application, as submitted, a density that would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. In that case, the city, county, or city and county may require the project applicant to comply with this section. The submission of an application for purposes of this subdivision does not depend on the application being deemed complete or being accepted by the city, county, or city and county.

(g) This section shall not be construed to apply to parcels that, prior to January 1, 2003, were either (1) subject to a development agreement, or (2) parcels for which an application for a subdivision map had been submitted.

(h) (1) If the local jurisdiction has adopted a housing element for the current planning period that is in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3, for purposes of this section, "lower residential density" means the following:

(A) For sites zoned for residential use and identified in the local jurisdiction's housing element inventory described in paragraph (3) of subdivision (a) of Section 65583, a density below the density used in the inventory to determine the total housing unit capacity.

(B) For sites that have been or will be rezoned pursuant to the local jurisdiction's housing element program described in paragraph (1) of subdivision (c) of Section 65583, a density below the density used to determine the housing unit capacity of the rezoned site.

(2) If the local jurisdiction has not adopted a housing element for the current planning period within 90 days of the deadline established by Section 65588 for purposes of this section, or the adopted housing element is not in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3 within 180 days of the deadline established by Section 65588, "lower residential density" means a density that is lower than 80 percent of the maximum allowable residential density for that parcel. For the purposes of this paragraph, if the council of governments fails to complete a final housing need allocation pursuant to the deadlines established by Section 65584.05, the deadline for adoption of the housing element and determining substantial compliance shall be extended by a time period equal to the delay incurred by the council of governments in completing the final housing need allocation.

SEC. 8. Section 65950 of the Government Code is amended to read:

65950. (a) Any public agency that is the lead agency for a development project shall approve or disapprove the project within whichever of the following periods is applicable:

(1) One hundred eighty days from the date of certification by the lead agency of the environmental impact report if an environmental impact report is prepared pursuant to Section 21100 or 21151 of the Public Resources Code for the development project.

(2) Ninety days from the date of certification by the lead agency of the environmental impact report if an environmental impact report is prepared pursuant to Section 21100 or 21151 of the Public Resources Code for the development project and all of the following conditions are met:

(A) At least 49 percent of the units in the development project are affordable to very low or low-income households, as defined by Sections 50105 and 50079.5 of the Health and Safety Code, respectively. Rents for the lower income units shall be set at an affordable rent, as that term is defined in Section 50053 of the Health and Safety Code, for at least 30 years. Owner-occupied units shall be available at an affordable housing cost, as that term is defined in Section 50052.5 of the Health and Safety Code.

(B) Prior to the application being deemed complete for the development project pursuant to Article 3 (commencing with Section 65940), the lead agency received written notice from the project applicant that an application has been made or will be made for an allocation or commitment of financing, tax credits, bond authority, or other financial assistance from a public agency or federal agency, and the notice specifies the financial assistance that has been applied for or will be applied for and the deadline for application for that assistance, the requirement that one of the approvals of the development project by the lead agency is a prerequisite to the application for or approval of the application for financial assistance, and that the financial assistance is necessary for the project to be affordable as required pursuant to subparagraph (A).

(C) There is confirmation that the application has been made to the public agency or federal agency prior to certification of the environmental impact report.

(3) Sixty days from the date of adoption by the lead agency of the negative declaration if a negative declaration is completed and adopted for the development project.

(4) Sixty days from the determination by the lead agency that the project is exempt from the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) if the project is exempt from the California Environmental Quality Act.

(b) This section does not preclude a project applicant and a public agency from mutually agreeing in writing to an extension of any time limit provided by this section pursuant to Section 65957.

(c) For purposes of paragraph (2) of subdivision (a), “development project” means a use consisting of either of the following:

(1) Residential units only.

(2) Mixed-use developments consisting of residential and nonresidential uses in which the nonresidential uses are less than 50 percent of the total square footage of the development and are limited to

neighborhood commercial uses and to the first floor of buildings that are two or more stories. As used in this paragraph, “neighborhood commercial” means small-scale general or specialty stores that furnish goods and services primarily to residents of the neighborhood.

(d) For purposes of this section, “lead agency” and “negative declaration” shall have the same meaning as those terms have in Sections 21067 and 21064 of the Public Resources Code, respectively.

SEC. 9. Section 66037 of the Government Code is repealed.

SEC. 10. (a) Section 2.5 of this bill incorporates amendments to Section 65008 of the Government Code proposed by both this bill and AB 2800. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2007, (2) each bill amends Section 65008 of the Government Code, and (3) this bill is enacted after AB 2800, in which case Section 2 of this bill shall not become operative.

(b) Section 5.5 of this bill incorporates amendments to Section 65589.5 of the Government Code proposed by both this bill and SB 1322. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2007, (2) each bill amends Section 65589.5 of the Government Code, and (3) this bill is enacted after SB 1322, in which case Section 5 of this bill shall not become operative.
