

Assembly Bill No. 2582

CHAPTER 283

An act to add Section 71041 to the Public Resources Code, relating to environmental protection.

[Approved by Governor September 14, 2006. Filed with
Secretary of State September 14, 2006.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2582, Mullin. CALGOLD program.

Existing law requires a business or entity to obtain various environmental permits prior to undertaking any project that may have an impact on the environment.

Existing law requires the Secretary for Environmental Protection to establish an electronic online permit assistance center, the CALGOLD program, to provide businesses and other entities with assistance in complying with the laws and regulations implemented by the boards, departments, and offices within the agency.

This bill would require the CALGOLD program to be reviewed periodically and, when necessary, updated to assist businesses in the state that would benefit from information on permitting and regulatory compliance, including emerging industries and life sciences industries.

The people of the State of California do enact as follows:

SECTION 1. Section 71041 is added to the Public Resources Code, to read:

71041. The CALGOLD program shall be reviewed periodically and, when necessary, updated to assist businesses in the state that would benefit from information on permitting and regulatory compliance, including emerging industries and life sciences industries.
