

AMENDED IN SENATE APRIL 28, 2005

SENATE BILL

No. 269

Introduced by Senator Dutton

February 15, 2005

An act to amend ~~Sections 12131.5 and~~ *Section* 12133 of the Penal Code, relating to unsafe handguns.

LEGISLATIVE COUNSEL'S DIGEST

SB 269, as amended, Dutton. Unsafe handguns.

~~Existing law specifies certain features that must be present and tests that must be met for a handgun not to be classified as unsafe, as specified. Existing law also provides that a firearm shall be deemed to meet those requirements if another firearm made by the same manufacturer meets the requirements, and the firearms have only specified cosmetic differences.~~

~~This bill would include within those specified cosmetic differences, the barrel or chamber dimensions, so long as the difference in dimensions does not in any way alter the functioning of the magazine well or any of the components of the firing mechanism of the firearm.~~

Existing law exempts certain specified handguns from satisfying the requirements necessary for a handgun not to be classified as unsafe.

This bill would also exempt single-shot pistols with a barrel length of not less than 3 inches and which has an overall length of at least 7 1/2 inches when the handle, frame or receiver, and barrel are assembled.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
