CHAPTER 872

An act to amend Section 100 of, and to add Section 100.95 to, the Revenue and Taxation Code, relating to local government finance.

[Approved by Governor September 30, 2006. Filed with
Secretary of State September 30, 2006.]

LEGISLATIVE COUNSEL'S DIGEST

SB 1317, Torlakson. Property tax revenue allocations: public utilities: qualified property.

(1) The California Constitution requires the State Board of Equalization to assess the property, other than franchises, of companies transmitting or selling gas or electricity. Existing property tax law provides for the valuation, as a unit, of properties of a state assessee that are operated as a unit as a primary function of that assessee, and for the allocation of the assessed value of the unit among various counties in which the state-assessee's unitary property is located. Existing law also provides, pursuant to specified formulas, for the application in each county of specified tax rates to unitary assessed value, and for the allocation among jurisdictions in that county of the resulting revenues.

This bill would, for the 2007–08 fiscal year and for each fiscal year thereafter, require that the assessed value of qualified property, as defined, placed in service by a public utility on or after January 1, 2007, be allocated entirely to the county in which the property is located. This bill would also require that the property tax revenues derived from qualified property be allocated among the county, certain special districts, and school entities in the same percentage shares as revenues derived from the utility in the prior fiscal year. This bill would also require that the balance of these revenues remaining after these allocations have been made be allocated to water districts, cities, or the county, as specified. This bill would make findings and declarations that the bill not be construed to require the State Board of Equalization to modify its computerized roll system, as specified.

(2) By establishing new duties with respect to the annual allocation of property tax revenues derived from state-assessed property, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state,

reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) This bill would change the pro rata shares in which ad valorem property tax revenues are allocated among local agencies in a county, within the meaning of paragraph (3) of subdivision (a) of Section 25.5 of Article XIII of the California Constitution, and thus would require for passage the approval of $\frac{2}{3}$ of the membership of each house of the Legislature.

(4) This bill would incorporate additional changes to Section 100 of the Revenue and Taxation Code, proposed by AB 2670, to be operative only if AB 2670 and this bill are both enacted, both bills amend the respective section, and this bill is enacted after AB 2670.

The people of the State of California do enact as follows:

SECTION 1. Section 100 of the Revenue and Taxation Code is amended to read:

100. Notwithstanding any other provision of law, commencing with the 1988–89 fiscal year, property tax assessed value attributable to unitary and operating nonunitary property, as defined in Sections 723 and 723.1, that is assessed by the State Board of Equalization shall be allocated by county as provided in Section 756, and the assessed value and revenues attributable to that allocation shall be allocated within each county as follows:

(a) Each county shall establish one countywide tax rate area. The assessed value of all unitary and operating nonunitary property shall be assigned to this tax rate area. No other property shall be assigned to this tax rate area.

(b) Property assigned to the tax rate area created by subdivision (a) shall be taxed at a rate equal to the sum of the following two rates:

(1) A rate determined by dividing the county's total ad valorem tax levies for the secured roll, including levies made pursuant to Section 96.8, for the prior year, exclusive of levies for debt service, by the county's total ad valorem secured roll assessed value for the prior year.

(2) A rate determined as follows:

(A) By dividing the county's total ad valorem tax levies for unitary and operating nonunitary property for the prior year debt service only by the county's total unitary and operating nonunitary assessed value for the prior year.

(B) Beginning with the 1989–90 fiscal year, adjusting the rate determined pursuant to subparagraph (A) by the percentage change between the two preceding fiscal years in the county's ad valorem debt service levy for the secured roll, not including unitary and operating nonunitary debt service.

(c) The property tax revenue derived from the assessed value assigned to the countywide tax rate area pursuant to subdivision (a) by the use of

the tax rate determined in paragraph (1) of subdivision (b) shall be allocated as follows:

(1) For the 1988–89 fiscal year and each fiscal year thereafter, each taxing jurisdiction shall be allocated an amount of property tax revenue equal to 102 percent of the amount of the aggregate property tax revenue it received from all unitary and operating nonunitary property in the prior fiscal year, exclusive of revenue attributable to qualified property under Section 100.95 and levies for debt service.

(2) If the amount of property tax revenue available for allocation in the current fiscal year is insufficient to make the allocations required by paragraph (1), the amount of revenue to be allocated to each taxing jurisdiction shall be prorated based on a factor determined by dividing the total amount of property tax revenue available to all taxing jurisdictions from unitary and operating nonunitary property in the current year, exclusive of revenue attributable to levies for debt service, by the total amount of property tax revenue received by all taxing jurisdictions from unitary and operating nonunitary property in the prior fiscal year, exclusive of revenue attributable to levies for debt service.

(3) If the amount of property tax revenue available for allocation to all taxing jurisdictions in the current fiscal year from unitary and operating nonunitary property, exclusive of revenue attributable to qualified property under Section 100.95 and levies for debt service, exceeds 102 percent of the property tax revenue received by all taxing jurisdictions from all unitary and operating nonunitary property in the prior fiscal year, exclusive of revenue attributable to qualified property under Section 100.95 and levies for debt service, the amount of revenue in excess of 102 percent shall be allocated to all taxing jurisdictions in the county by a ratio determined by dividing each taxing jurisdiction's share of the county's total ad valorem tax levies for the secured roll for the prior year, exclusive of levies for qualified property under Section 100.95 and levies for debt service, by the county's total ad valorem tax levies for the secured roll for the prior year, exclusive of levies for qualified property under Section 100.95 and levies for debt service.

(d) The property tax revenue derived from the assessed value assigned to the countywide tax rate area pursuant to subdivision (a) by the use of the tax rate determined in paragraph (2) of subdivision (b) shall be allocated as follows:

(1) An amount shall be computed for each taxing jurisdiction and shall be determined by multiplying the amounts required in the current year pursuant to subdivisions (a) and (c) of Section 93 by that percentage that shall be determined by dividing the amount of property tax revenue the jurisdiction received in the prior year from unitary property and operating nonunitary property by the total amount of property tax revenue the jurisdiction received in the prior year from all property.

(2) The amount of property tax revenue available for allocation pursuant to this subdivision shall be allocated among taxing jurisdictions in the proportion that the amount computed for each taxing jurisdiction

pursuant to paragraph (1) bears to the total amount computed pursuant to paragraph (1) for all taxing jurisdictions.

(3) If a taxing jurisdiction is levying a tax rate for debt service for the first time in the current fiscal year, for purposes of determining the percentage specified in paragraph (1), that percentage shall be the percentage determined by dividing the amount of property tax revenue received by that taxing jurisdiction in the prior year pursuant to subdivision (c) from unitary and operating nonunitary property by the total amount of property tax revenue received by that taxing jurisdiction in the prior year from all property within the taxing jurisdiction.

(e) For purposes of this section:
