CALIFORNIA LEGISLATURE—2007—08 REGULAR SESSION

ASSEMBLY BILL

No. 16

**Introduced by Assembly Member Hernandez
(Principal coauthor: Assembly Member Garcia)**

December 4, 2006

An act to amend Section ~~120335~~ of 120365 of, and to amend, repeal, and add Section 120335 of, the Health and Safety Code, relating to pupil immunizations.

LEGISLATIVE COUNSEL'S DIGEST

AB 16, as amended, Hernandez. Pupil immunizations: human papillomavirus vaccine.

Existing law prohibits the governing authority of a school or other institution from unconditionally admitting any person as a pupil of any private or public elementary or secondary school, child care center, day nursery, nursery school, family day care home, or development center, unless prior to his or her first admission to that institution he or she has been fully immunized against various diseases.

This bill would, in addition, on and after July 1, ~~2008~~ 2009, prohibit the governing authority from unconditionally admitting *or advancing* any female pupil to the 7th grade level of any of those institutions unless the pupil has received the human papillomavirus (HPV) vaccine.

This bill would require the State Department of Public Health, *in coordination with the State Department of Education*, to identify and distribute related informational materials and to inform the institutions

and all health care providers that administer HPV vaccines about the availability of the materials.

~~This bill would require a health care provider administering the HPV vaccine to provide a written disclosure to the parent or guardian relating to the HPV virus including its relation to cervical cancer and the effects of the HPV vaccine, and would require the disclosure to include the materials distributed by the department.~~

By increasing the duties of local school districts, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
