ASSEMBLY BILL

No. 70

Introduced by Assembly Member Jones

December 4, 2006

An act to add Section 8307 to the Water Code, relating to flood liability.

LEGISLATIVE COUNSEL'S DIGEST

AB 70, as amended, Jones. Flood liability.

Existing law, under various circumstances, subjects a public entity or an employee of a public entity to liability for property damage or personal injury caused by or from floods or floodwaters.

This bill would provide that a city or county may be required to contribute its fair and reasonable share of the property damage caused by a flood to the extent that ~~the local public entity increases~~ *it has increased* the state's exposure to liability for property damage by unreasonably approving, *as defined*, new development in a previously undeveloped area, as defined, that is protected by a state flood control project ~~and if it is determined that the city or county failed to comply with other applicable provisions of existing law,~~ *unless the city or county meets specified requirements.*

The bill would become operative only if SB 5 is enacted and becomes effective on or before January 1, 2008.

Vote: majority. Appropriation: no. Fiscal committee: no.
 State-mandated local program: no.

The people of the State of California do enact as follows:
