February 23, 2007

An act to add Sections 1798.88 and 1798.89 to the Civil Code, to amend Sections 9516 and 9521 of, and to add Section 9526.5 to, the Commercial Code, to add Section 66018.55 to the Education Code, and to amend Section 27361 of, to add Sections 6254.27 and 15705 to, and to add Article 3.5 (commencing with Section 27300) to Chapter 6 of Part 3 of Division 2 of Title 3 of, the Government Code, relating to social security numbers.

LEGISLATIVE COUNSEL'S DIGEST

AB 1168, as amended, Jones. Social security numbers.

(1) Existing law establishes the University of California, under the administration of the Regents of the University of California, the California State University, under the administration of the Trustees of the California State University, and the California Community Colleges, under the administration of the Board of Governors of the California

Community Colleges, and private, independent institutions of higher education as the 4 segments of postsecondary education in this state.

This bill would require the Office of Privacy Protection in the Department of Consumer Affairs to establish a task force, with specified members, to conduct a review of the use by all public and private colleges and universities in this state of social security numbers in order to recommend practices to minimize the collection, use, storage, and retention of social security numbers. It would require the task force to commence meetings no later than 60 days after the effective date of these provisions and, on or before July 1, 2009, to submit a report of its findings and recommendations to the Office of Privacy Protection and to the Assembly Committee on Judiciary and the Senate Committee on ~~Judiciary~~. *Judiciary*.

(2) Existing law prohibits any person or entity from publicly posting or displaying in any manner an individual's social security number, printing an individual's social security number on any card required to access products or services, requiring an individual to transmit his or her social security number over the Internet, requiring an individual to use his or her social security number to access an Internet Web site, or printing an individual's social security number on any materials that are mailed to the individual, with specified exceptions. Existing law provides that these prohibitions do not apply to documents that are recorded or required to be open to the public pursuant to the California Public Records Act.

The California Public Records Act requires state and local agencies to make their records available for public inspection unless a record is exempt from disclosure. The act exempts from disclosure, among others, any record that is a personnel, medical, or similar file the disclosure of which would constitute an unwarranted invasion of personal privacy.

This bill would provide that, notwithstanding these provisions, a local agency, before disclosing to the public any record that is required to be open to the public by any provision of law, shall ~~truncate~~ *redact all of the digits of* any social security number on the record ~~by redacting the first 5 digits of that number~~. The bill would provide exceptions to this requirement for a county recorder *and for disclosure of death records*. By creating a new standard for disclosure of records by local agencies, this bill would impose a state-mandated local program.

This bill also would provide that, unless required to do so by state or federal law, no person, entity, or government agency shall ~~record or file~~ *present for recording or filing* with a local agency a document that

displays more than the last 4 digits of a social security number, as specified.

(3) Existing law establishes in state government the Franchise Tax Board to, among other duties, administer the Personal Income Tax Law and the Corporation Tax Law.

This bill would provide that, notwithstanding any other provision of law, unless prohibited by federal law, the board shall truncate social security numbers on lien abstracts and any other records created by the board that are disclosable under the California Public Records Act before disclosing the record to the public.

(4) Existing law specifies requirements for the filing of various documents with the Secretary of State and other filing offices.

This bill would apply requirements to ~~truncate~~ *redact* social security numbers on specified filings.

(5) Existing law requires the recorder of each county, upon payment of proper fees and taxes, to accept for recordation any instrument, paper, or notice that is authorized or required by law to be recorded, as specified, and specifies that these recorded documents shall be called “official records.”

This bill would require the recorder of each county to establish a social security number truncation program in order to create a “public record” version of each “official record” so that the “public record” is in an electronic format and is an exact copy of the “official record” except that any social security number contained in the “official record” shall be truncated by redacting the first 5 digits of that number. These provisions would apply to any document recorded since January 1, ~~1935~~ 1962, as specified. It would provide that when a “public record” version of an “official record” exists, and upon request of any person to inspect, for a copy of, or to otherwise publicly disclose that record, the recorder shall make available only the “public record” version of that record, and publicly disclose the “official record” only in response to a subpoena or court order. By creating new duties for county recorders, this bill would impose a state-mandated local program.

Existing law establishes a fee for recording documents with the county recorder at \$4 for the first page and \$3 for each additional page and authorizes a county recorder to assess additional specified fees.

This bill would authorize a county recorder, upon authorization of the board of supervisors, to charge an additional fee of ~~up to~~ \$1 for recording the first page ~~and \$1 for each additional page of each document~~, to be used only by the county recorder collecting the fee to

implement a social security number truncation program pursuant to these provisions. *It would provide that a board shall not authorize this fee unless the board requires the county auditor to audit the county's use of funds generated by this fee, as specified.* It would require each county recorder, no later than June 1, 2008, to petition the board of supervisors for the authority to levy the this fee.

The bill also would ~~request~~ *require* that the County Recorders Association of California, no later than January 1, 2009, and annually thereafter, submit to the Assembly Committee on Judiciary, Senate Committee on Judiciary, and the Office of Privacy Protection a report on the progress each county recorder has made in complying with these provisions. It would require the Office of Privacy Protection, on or before January 1, ~~2013~~ 2018, to report to these committees on whether counties need to continue to levy the fee authorized by these provisions.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

36
37 27300. As used in this article, the following terms have the
38 following meanings:

1 (a) “Official record” means the permanent archival record of
2 all instruments, papers, and notices as accepted for recording by
3 a county recorder.

4 (b) “Public record” means a record that is in an electronic format
5 and is an exact copy of an official record except that any social

7 *record shall have the same legal force and effect as the official*
8 *record.*

9 (c) “Truncate” means to redact the first five digits of a social
10 security number.

11 (d) “Truncated social security number” means a social security
12 number that displays only the last four digits of the number.

13 27301. The county recorder of each county shall establish a
14 social security number truncation program in order to create a
15 public record version of each official record. The program shall

17 implement concurrently:

18 (a) For each official record recorded between January 1, ~~1935~~
19 *1962*, and December 31, 2008, the recorder shall create in an
20 electronic format an exact copy of the record except that any social
21 security number contained in the record shall be truncated. The
22 recorder shall first truncate the social security numbers in all
23 records that already exist in an electronic format and then create
24 an electronic version of all other records and truncate social
25 security numbers contained in those records. Each group of records
26 shall be handled in descending chronological order.

27 (b) For each official record recorded on or after January 1, 2009,
28 the recorder shall create a copy of that record in an electronic
29 format and truncate any social security number contained in that
30 record.

36 number.

40 compliance with Section 27301 pursuant to subdivision (a), a

1 county recorder that receives a request that identifies the exact
2 location of an untruncated social security number within a
3 specifically identified public record, shall truncate that number
4 within 10 business days of receiving the request. *The public record*
5 *with the truncated social security number shall replace the record*

20 county shall petition the board of supervisors in that county for
21 the authority to levy the fee authorized by subdivision (d) of

25 of Californians, counties be permitted to seek revenue anticipation
26 loans or other outside funding sources for the implementation of
27 a social security number truncation program to be secured by the
28 anticipated revenue from the fee authorized by subdivision (d) of
29 Section 27361.
