AMENDED IN ASSEMBLY APRIL 25, 2007

CALIFORNIA LEGISLATURE—2007—08 REGULAR SESSION

ASSEMBLY BILL

No. 1575

Introduced by Assembly Member Richardson

February 23, 2007

An act to amend Section 3068 of the Civil Code, relating to vehicle liens.

LEGISLATIVE COUNSEL'S DIGEST

AB 1575, as amended, Richardson. Vehicle liens.

Existing law provides that every person has a lien dependent upon possession for the compensation to which the person is legally entitled for making repairs or performing labor upon, and furnishing supplies or materials for, and for the storage, repair, or safekeeping of, and the rental of parking space for, any vehicle subject to registration, as specified. A lienholder must obtain authorization to conduct a lien sale for a vehicle with a value determined to be over \$4,000. Existing law provides that the portion of the lien in excess of \$750 for any work or services, or the amount in excess of \$400 for any storage, safekeeping, or rental of parking space, or in excess of \$500 for storage or safekeeping if an application for authorization to conduct a lien sale has been filed, rendered or performed at the request of any person other than the legal owner or lessor is invalid unless prior to commencing any work, services, storage, safekeeping, or rental of parking space, the person claiming the lien gives actual notice in writing, as specified, to the legal owner named in the registration certificate and the written

consent of the legal owner is obtained before those services are performed.

This bill would increase those amounts from \$750 to ~~\$1,950~~ \$1,500, from \$400 to \$1,025, and from \$500 to \$1,250, respectively, subject to specified limitations on parking and storage fees. ~~The bill would further limit the creation of a lien pursuant to these provisions to persons with a valid registration as an automotive repair dealer.~~ The bill would prohibit the lienholder, upon completion of the work or services, from dismantling, disengaging, removing, or stripping from the vehicle the parts used to complete the work or services. The bill would provide that a vehicle lien shall be extinguished, and no lien sale shall be conducted, if the lienholder, after written demand by the legal owner or the lessor to receive a written copy of the work order or invoice reflecting the services or repairs performed and the authorization to perform the services or repairs, fails to provide that copy to the legal owner or lessor, or his or her agent, within 10 days.
