An act to add Sections 1279.4, 1279.5, and 1371.6 to the Health and Safety Code, to add Sections 10133.57 and 12693.55 to the Insurance Code, and to add Section 14110.25 to the Welfare and Institutions Code, relating to health coverage.

LEGISLATIVE COUNSEL’S DIGEST

AB 2146, as amended, Feuer. Health care providers: billing.
Existing law provides for the licensure and regulation of health facilities including hospitals by the State Department of Public Health. Violations of these provisions is a misdemeanor. Existing law provides for the licensure and regulation of health care providers.
Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the regulation of health care service plans by the Department of Managed Health Care. Existing law requires a health care service plan to provide specified coverage to its enrollees and subscribers. Existing law provides that a willful violation of the act is a crime.
Existing law provides for the regulation of health insurers by the Department of Insurance. Existing law requires a health insurance policy to provide specified coverage to insured persons.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits.

Existing law establishes the Healthy Families Program, administered by the Managed Risk Medical Insurance Board, to arrange for the provision of health services to an eligible person.

This bill would require the development and implementation of policies governing the payment of health care providers for hospital-acquired conditions by the Healthy Families Program and the Medi-Cal program, and to the extent feasible, all other state public health programs, consistent with the policies developed by the federal Centers for Medicare and Medicaid Services. The bill would prohibit a contract between a contracting health care provider and a health care service plan or an insurer from prohibiting the adoption, implementation, or exercise of nonpayment policies and practices for hospital-acquired conditions. The bill would preclude a patient from being charged by a contracting health care provider for care and services for which payment has been denied by a the Healthy Families Program, the Medi-Cal program, a health care service plan, or an insurer according to the nonpayment policies and practices established pursuant to the bill.

This bill would require the medical director and the director of nursing of a hospital to report annually to the facility’s board of directors regarding hospital-acquired conditions, as provided. The bill would require the Secretary of California Health and Human Services to report to the Governor and the Legislature, on or before January 1, 2011, and biennially thereafter, specified information relating to the nonpayment policies for the Healthy Families Program and the Medi-Cal program, and the prevention of hospital-acquired conditions.

By changing the definition of existing crimes, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Section 1279.4 is added to the Health and Safety Code, to read:

1279.4. (a) The medical director and the director of nursing of each health facility, as defined by subdivision (a), (b), or (f) of Section 1250, shall report annually to the board of directors or other similar governing body the following:

(A) The number of hospital-acquired conditions that occurred in the facility in the most recent 12-month period.

(B) The outcomes for each patient involved.

(C) Comparison to comparable institutions of rates of hospital-acquired conditions, if this data exists and is publicly available.

(2) The report prepared pursuant to paragraph (1) shall be made available by the health facility to the department or to any member of the public upon request.
