An act to amend Section 49073.5 of the Education Code, relating to pupil records.

LEGISLATIVE COUNSEL'S DIGEST

AB 2994, as amended, Lieber. Pupil records: release of information.

Existing law allows the governing board of a school district to require the parent or guardian of a pupil to provide current emergency information, as specified, to the pupil's school of attendance. Existing law states the intent of the Legislature that a school district, in adopting a policy governing the release of pupil directory information, as specified, not purposefully exclude any military service representative from access to that information. Existing law further states the intent of the Legislature, in the interest of pupil confidentiality, that school districts minimize the release of pupil telephone numbers in the absence of express parental consent.

This bill would require a school district, that requires the parent or guardian of a secondary school pupil to provide current emergency information to the pupil's school of attendance, to include a notice in the emergency information request form that informs the parent or guardian and pupil of his or her right under federal law to request that the pupil's name, address, and telephone number not be released to

military recruiters or institutions of higher education, as specified, without the prior written consent of the parent or guardian and that allows the parent, guardian, or pupil to indicate on the emergency information request form that he or she chooses to separately prohibit the release of the pupil’s name, address, and telephone number listing, as specified. The bill would provide that a request by a pupil would prevail over the request of a parent or guardian. The bill would require a school district to provide the notice in English and all other languages that the school district uses for its emergency information request form.

The bill also would authorize a secondary school to administer the Armed Services Vocational Aptitude Battery (ASVAB) test to pupils only if pupil information obtained in conjunction with the test will not be used by the Armed Forces for recruiting purposes. A school would be required to notify the local ASVAB representative responsible for coordinating the ASVAB test of that condition at the time the school makes a request to the representative to administer the test.

Vote: majority. Appropriation: no. Fiscal committee: no.  
 State-mandated local program: no.
