CHAPTER ________

An act to amend Section 4663 of the Labor Code, relating to workers’ compensation.

LEGISLATIVE COUNSEL’S DIGEST

Existing workers’ compensation law generally requires employers to secure the payment of workers’ compensation, including medical treatment, for injuries incurred by their employees that arise out of, or in the course of, employment. Existing law requires any physician who prepares a report addressing the issue of permanent disability due to a claimed industrial injury to address the issue of causation of the permanent disability, and requires that such a report include an apportionment determination to be considered complete on the issue of permanent disability.

This bill would provide that race, religious creed, color, national origin, age, gender, marital status, sex, or genetic predisposition shall not be considered to be a cause or other factor considered in any determination made pursuant to those provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 4663 of the Labor Code is amended to read:

4663. (a) Apportionment of permanent disability shall be based on causation.

(b) Any physician who prepares a report addressing the issue of permanent disability due to a claimed industrial injury shall in that report address the issue of causation of the permanent disability.

(c) In order for a physician’s report to be considered complete on the issue of permanent disability, the report must include an apportionment determination. A physician shall make an apportionment determination by finding what approximate percentage of the permanent disability is caused by the direct result
of injury arising out of and occurring in the course of employment and what approximate percentage of the permanent disability is caused by other factors both before and subsequent to the industrial injury, including prior industrial injuries. If the physician is unable to include an apportionment determination in his or her report, the physician shall state the specific reasons why the physician cannot make a determination of the effect of that prior condition on the permanent disability arising from the injury. The physician shall then consult with other physicians or refer the employee to another physician from whom the employee is authorized to seek treatment or evaluation in accordance with this division in order to make the final determination. Race, religious creed, color, national origin, age, gender, marital status, sex, or genetic predisposition shall not be considered a cause or other factor of disability with regard to any determination made under this section.

(d) An employee who claims an industrial injury shall, upon request, disclose all previous permanent disabilities or physical impairments.

(e) Subdivisions (a), (b), and (c) shall not apply to injuries or illnesses covered under Sections 3212, 3212.1, 3212.2, 3212.3, 3212.4, 3212.5, 3212.6, 3212.7, 3212.8, 3212.85, 3212.9, 3212.10, 3212.11, 3212.12, 3213, and 3213.2.
Approved ________________________, 2008
