SENATE BILL

No. 1475

Introduced by Senator Torlakson
(Principal coauthor: Senator Steinberg)
(Coauthor: Senator Alquist)
(Coauthor: Assembly Member Huffman)

February 21, 2008

An act to add and repeal Article 8 (commencing with Section 4698) ~~to~~ of Chapter 6 of Division 4.5 of the Welfare and Institutions Code, relating to autism.

LEGISLATIVE COUNSEL'S DIGEST

SB 1475, as amended, Torlakson. Autism pilot ~~program~~. *project*.

Under existing law, the State Department of Developmental Services, the State Department of Education, the State Department of Health Care Services, the State Department of Mental Health, and the State Department of Social Services collaborate to provide early intervention for children with disabilities or at risk of having disabilities. Under existing law, the State Department of Developmental Services contracts with private nonprofit regional centers to provide or purchase services and supports for persons with developmental disabilities, including Autism Spectrum Disorders (ASD). The State Department of Education

and school districts also provide services in the schools for children with ASD.

This bill would require the State Department of Developmental Services to establish a 2-year pilot project to, among other things, provide methods, instruments, and systems of care between regional centers and school districts for the early identification and assessment of children with ASD from birth to 5 years of age. This bill would also require the department, no later than June 1, 2012, to report to the Legislature and the Governor on the pilot project containing specified information. This bill would require the department to apply to the California Children and Families Commission for funding for the pilot program and would condition the reestablishment of the pilot program upon the department obtaining those funds from the commission or other sources. This bill would make its provisions inoperative on July 1, 2012, and repeal them on January 1, 2013.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) The number of children diagnosed with Autism Spectrum
- 4 Disorders (ASD) has grown dramatically in recent years and is a
- 5 serious public health crisis that must be addressed.
- 6 (b) Currently, children with ASD receive services from regional
- 7 centers through the Early Start Program, but must transition to
- 8 services provided by school districts when they are between three
- 9 to five years of age.
- 10 (c) This transition currently presents a severe crisis to many
- 11 families because it disrupts the continuity of programs and
- 12 interventions that have already been implemented and are proving
- 13 efficient in overcoming ASD and improving developmental
- 14 outcomes.
- 15 (d) The transition is often inefficient and not cost effective
- 16 because the regional centers and the school districts are not
- 17 coordinated with regard to programs, services, and interventions.
- 18 (e) In many cases this transition is also disruptive because the
- 19 programs, professionals, and providers who contract to provide
- 20 services to regional centers and school districts are different.

1 (f) The transition is not cost effective because the school
2 districts, despite lacking the resources and administrative supports,
3 must duplicate complex assessments that have already been
4 performed by the regional centers.

5 (g) Crucial services and interventions for children with ASD
6 are often delayed while regional centers and school districts quarrel
7 over the financial responsibilities of implementing the services.

8 (h) The California Legislative Blue Ribbon Commission on
9 Autism noted that there are models of voluntary collaboration
10 between regional centers and school districts that provide
11 comprehensive, integrated, and seamless services to children with
12 ASD and that these models have increased family and consumer
13 satisfaction and have produced more effective outcomes than the
14 traditional model.

15 SEC. 2. Article 8 (commencing with Section 4698) is added
16 to Chapter 6 of Division 4.5 of the Welfare and Institutions Code,
17 to read:

18
19 Article 8. Early Autism Intervention and Transition Pilot
20 Program
21

22 4698. (a) As used in this article “ASD” means Autism
23 Spectrum Disorders.

24 (b) It is the intent of the Legislature to implement a two-year
25 pilot project in key geographic areas around the state that will
26 ~~identify solutions to significantly improve the transition of children~~
27 ~~with Autism Spectrum Disorders from receiving services from~~
28 ~~regional centers to the school system and, thereby, improve the~~
29 ~~quality of early intervention and educational programs for children~~
30 ~~with ASD from birth to five years of age. *identify solutions to*~~
31 *improve collaboration between regional centers and school*
32 *districts for children with ASD who are deemed eligible for services*
33 *and supports by regional centers and enhances the quality of early*
34 *intervention and education programs for children from birth to 5*
35 *years of age.*

36 (c) The intent of the pilot program is to identify and implement
37 existing models of excellence and best practices and to identify
38 and reduce barriers to effective collaboration in order to establish
39 a seamless, comprehensive, and integrated service delivery model
40 between regional centers and school districts for children with

1 ASD and their families, particularly in culturally, linguistically,
2 and geographically diverse or underserved populations.

3 4698.1. (a) The department, in partnership with one or more
4 regional centers, shall establish and administer a pilot project which
5 shall be called The Centers of Excellence for Early Autism
6 Intervention and Transitional Services (*hereafter pilot project*).

7 (b) *The intent of the pilot project is to provide integrated and*
8 *seamless services and systems of care for children with ASD who*
9 *are deemed eligible for services and supports by regional centers.*

10 ~~(b)~~

11 (c) At least three pilot locations shall be established for a period
12 of two years. Each location shall require a collaborative, integrated
13 proposal between at least one regional center and at least one school
14 district or local educational agency.

15 ~~(e)~~

16 (d) Pilot project proposals may include the participation of other
17 agencies, organizations, foundations, stakeholder groups, or other
18 providers as long as the participation is approved by the
19 department.

20 ~~(d)~~

21 (e) The pilot project shall do all of the following:

22 (1) Establish innovative, collaborative, integrated, and seamless
23 methods, instruments, and systems of care between regional centers
24 and school districts for the early identification and assessment of
25 children with ASD from birth to five years of age.

26 (2) Establish innovative fiscal models using pooled funding and
27 resources that have demonstrated cost-effective benefits and
28 outcomes.

29 (3) Determine how the use of telehealth, telemedicine, and other
30 innovative web-based technology strategies may improve the
31 professional development, outreach, and training of families,
32 consumers, professionals, and staff who are affiliated with, or
33 served by, regional centers, school districts, or local educational
34 agencies.

35 4698.2. No later than June 1, 2012, the department shall provide
36 the Legislature and the Governor with a report on the pilot program.
37 The report shall make legislative, regulatory, and fiscal
38 recommendations that would further the goal of providing a
39 seamless, integrated, and coordinated system of care for the early

1 identification and treatment of ASD between the regional centers
2 and school districts and local educational agencies.

3 4698.3. The Legislature recognizes that the regional center
4 system serves individuals who are deemed eligible in accordance
5 with subdivisions (a) of Section 95014 of the Government Code
6 and subdivisions (a) and (l) of Section 4512. Nothing in this article
7 is intended to change the existing eligibility criteria for receiving
8 regional center services.

9 4698.4. No state general funds shall be used to fund the pilot
10 program *in any state fiscal year*. The department shall apply to the
11 California Children and Families Commission for funding to cover
12 the costs of the pilot program, *including any and all costs that are*
13 *incurred by the department*. The pilot program shall be established
14 only after the department applies to and obtains funds from the
15 California Children and Families Commission or other sources.

16 4698.5. This article shall become inoperative on July 1, 2012,
17 and, as of January 1, 2013, is repealed unless a later enacted statute,
18 that is enacted before January 1, 2013, deletes or extends the dates
19 on which it becomes inoperative and is repealed.
