

AMENDED IN SENATE APRIL 9, 2008

SENATE BILL

No. 1643

Introduced by Senator Torlakson

February 22, 2008

~~An act to amend Section 51870 of the Education Code, relating to education technology. An act to add Section 44262.1 to the Education Code, relating to teacher credentialing.~~

LEGISLATIVE COUNSEL'S DIGEST

SB 1643, as amended, Torlakson. ~~Education technology: California Technology Assistance Project~~ *Teacher credentialing: eminence teaching credential.*

Existing law authorizes the Commission on Teacher Credentialing, upon the recommendation of the governing board of a school district, to issue an eminence credential to a person who has achieved eminence in a field of endeavor taught or service practiced in the public schools of California. The eminence credential authorizes teaching in the public schools in the subject or subject area or the performance of services in the public schools at the level approved by the commission, as designated on the credential. An eminence credential is issued initially for a 2-year period and may be renewed for a 3-year period by the commission upon the request of the governing board of the school district. Upon completion of the 3-year renewal period, the holder of an eminence credential is eligible upon application for a professional clear teaching credential.

This bill would, in addition, authorize a county superintendent of schools, upon the recommendation of the governing board of a school district, to issue an eminence credential to a person who has demonstrated subject matter competence through an examination,

college degree, or work experience and if the subject or service in which the person demonstrates eminence is one that the governing board wishes to have taught or practiced in the schools of the district. The decision to issue an eminence credential would be required to be based on a recommendation from the governing board of the school district, a statement of employment, and a verification of the eminence qualifications of the individual. The county board of education would be required to provide notice to the public of those individuals for whom it is considering issuing eminence credentials and would be authorized to charge a fee to recover costs incurred in processing eminence credential application. The eminence credential would authorize teaching in the public schools in the subject or subject area and at the level approved by the county superintendent of schools and would be issued initially for a 2-year period and renewable for a 3-year period. The holder of an eminence credential would be eligible to apply to the commission for a professional clear teaching credential upon completion of the 3-year renewal period.

By increasing the duties of the county board of education, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

~~Under existing law, the State Department of Education administers the California Technology Assistance Project (CTAP) to, among other things, provide a regionalized network of technical assistance to schools and districts on the implementation of education technology. Existing law establishes regional consortia that work with school districts and county offices of education to meet educational needs that can be met with the use of technology, and specifies a list of areas of educational needs. Existing law defines “technology,” for purposes of the CTAP as “technology-based materials, equipment, systems, and networks.”~~

~~This bill would modify the definition of technology for purposes of the CTAP, as specified.~~
