

Assembly Bill No. 24

Passed the Assembly September 9, 2009

Chief Clerk of the Assembly

Passed the Senate September 3, 2009

Secretary of the Senate

This bill was received by the Governor this _____ day
of _____, 2009, at _____ o'clock ____M.

Private Secretary of the Governor

CHAPTER _____

An act to add Section 89013 to the Education Code, relating to the California State University.

LEGISLATIVE COUNSEL'S DIGEST

AB 24, Block. California State University: feasibility study: Chula Vista.

Existing law establishes the various segments of the public higher education system in the state. These segments include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

This bill would require the Chancellor of the California State University to complete and submit to the trustees a study about the feasibility of a California State University satellite program, and ultimately, an independent California State University campus, at Chula Vista, within 18 months after the date that the trustees certify that sufficient funds are available to conduct the study. The bill would require funding for the study to be derived solely from nonstate sources. If the trustees decide that a new campus or off-campus center is needed at Chula Vista, the trustees would be required to submit a formal needs study to the California Postsecondary Education Commission.

The people of the State of California do enact as follows:

SECTION 1. Section 89013 is added to the Education Code, to read:

89013. (a) The Chancellor of the California State University shall conduct a study about the feasibility of a California State University satellite program, and ultimately, an independent California State University campus, at Chula Vista. The study shall include all of the following:

(1) Ten-year enrollment projections and physical capacity analysis.

- (2) Regional workforce needs.
 - (3) Prospective economic impact and job creation in the region.
 - (4) Infrastructure availability.
 - (5) The potential alleviation of overcrowding and traffic at the San Diego State University campus.
 - (6) Considerations of plausible alternatives.
 - (7) Academic planning and program justification.
 - (8) A description of proposed student services and student outreach programs.
 - (9) Support and capital outlay budget projections.
 - (10) Geographic and physical accessibility.
 - (11) Environmental and social impacts.
 - (12) Effects on other educational institutions.
- (b) Funding for the study required by subdivision (a) shall be derived solely from nonstate sources. The chancellor shall complete and submit the study to the trustees within 18 months after the date that the trustees certify that sufficient funds are available to conduct the study.
- (c) If the trustees determine there is a need for a new campus or off-campus center at Chula Vista, the trustees shall submit a formal needs study to the California Postsecondary Education Commission pursuant to Section 66904.

Approved _____, 2009

Governor
