

Assembly Bill No. 9

CHAPTER 9

An act to amend Sections 95004, 95014, and 95020 of, and to add Section 95021 to, the Government Code, to amend Sections 4648, 4648.1, 4659, 4677, 4685, 4686, 4689, 4784, and 7502.5 of, to amend the heading of Chapter 4 (commencing with Section 4570) of Division 4.5 of, to amend and repeal Sections 4418.1 and 4570 of, and to add Sections 4435, 4571, 4648.35, 4648.5, 4648.6, 4686.2, 4686.5, 4688.1, 4688.2, 4688.3, 4689.05, and 4692 to, the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 28, 2009. Filed with
Secretary of State July 28, 2009.]

LEGISLATIVE COUNSEL'S DIGEST

AB 9, Evans. Developmental services.

Existing law, the California Early Intervention Services Act, provides a statewide system of coordinated, comprehensive, family-centered, multidisciplinary, and interagency programs that are responsible for providing appropriate early intervention services and support to all eligible infants and toddlers, as defined, and their families. The act requires these services to be provided pursuant to the existing regional center system under the Lanterman Developmental Disabilities Service Act, and further requires the regional centers to comply with that act and its implementing regulations, as specified.

This bill additionally would require a family's private insurance for medical services or a health care service plan identified in the individualized family service plan to be used in compliance with applicable state law and regulation, except for specified purposes.

The California Early Intervention Services Act requires an eligible infant or toddler receiving services under the act to have an individualized family service plan (IFSP). The plan is required to be in writing and to address specified issues, including a statement of the specific early intervention services needed to meet the unique needs of the infant or toddler.

This bill would revise the definition of an eligible infant or toddler for purposes of eligibility for services. The bill would also revise the contents of the individualized family service plan, including, commencing July 1, 2009, requiring the development, review, or modification of an individualized family service plan to consider certain group training and preschool activities and would make related changes. The bill would prohibit regional centers from purchasing nonrequired services, as defined, except durable medical equipment.

This bill would, effective July 1, 2009, require any vendor of applied behavioral analysis services or intensive behavioral intervention services, as defined, under either the California Early Intervention Services Act or the Lanterman Developmental Disabilities Services Act to conduct a behavioral assessment of each infant or toddler to whom the vendor provides these services and design an intervention plan for the child. The regional center would be required to purchase these services, subject to prescribed limitations.

This bill would also require the State Department of Developmental Services to establish a prevention program for at-risk babies, as defined, under which intake, assessment, case management, and referral to generic agencies, as defined, would be provided. Each regional center would purchase or provide services under the program pursuant to its allocation from the department.

Under existing law, the Lanterman Developmental Disabilities Services Act, the State Department of Developmental Services is responsible for providing various services and supports to individuals with developmental disabilities, and for ensuring the appropriateness and quality of those services and supports. Existing law requires that life quality assessments be conducted with consumers served by private nonprofit regional centers, pursuant to specified criteria.

This bill would, instead, require the State Department of Developmental Services to implement an improved, unified quality assessment system, on or before January 1, 2010. It would require the department to identify a valid and reliable quality assurance instrument that includes assessments of consumer and family satisfaction, provision of services, and personal outcomes. The bill would require the department to contract with an independent agency or organization for this purpose. Implementation of these provisions would be subject to an annual appropriation of funds in the Budget Act.

Under existing law, the department contracts with the regional centers to provide services and supports to persons with developmental disabilities. The services and supports to be provided to a regional center consumer are contained in an individual program plan (IPP), developed in accordance with prescribed requirements. These services and supports may include transportation services.

This bill, effective July 1, 2009, would impose various requirements relating to the funding of transportation services, at the time of the development, review, or modification of a consumer's IFSP or IPP, as specified.

Existing law permits a regional center to purchase, pursuant to vendorization or contract, services and supports for the consumer from any individual or agency that the regional center and the consumer or, where appropriate, his or her parents, legal guardian, conservator, or authorized representative determine will best accomplish all or any part of the consumer's IPP. Under existing law, the regional center and the consumer or, where appropriate, his or her parents, legal guardian, conservator, or

authorized representative are required, pursuant to the IPP, to consider specified factors when selecting a provider of services and supports, including the cost of providing services and supports of comparable quality by different providers, if available.

This bill would, except as prescribed, require the least costly available provider of comparable services that is able to accomplish all or part of the consumer's IPP, consistent with the particular needs of the consumer and family, as identified in the IPP, to be selected.

The bill would also prohibit, effective July 1, 2009, a regional center from purchasing experimental treatments, therapeutic services, or devices that have not been clinically determined or scientifically proven to be effective or safe or for which risks and complications are unknown. It would delay application of this prohibition for persons receiving these services on July 1, 2009, until August 1, 2009.

The bill would require a regional center to annually provide to the consumer and his or her parents, legal guardian, conservator, or legal representative a statement of services and supports that the regional center purchased, for the purpose of ensuring that they are delivered.

Existing law contains various requirements pertaining to the responsibilities of the department and regional centers concerning the monitoring of consumers in health and residential care facilities.

This bill would, effective July 1, 2009, provide that a regional center shall not be required to perform triennial evaluations of specified community care facilities.

This bill would, effective July 1, 2009, with specified exceptions, prohibit a regional center from newly vrending a 24-hour residential care facility licensed by the State Department of Social Services with a licensed capacity of 16 or more beds.

Existing law requires a regional center to identify and pursue all possible sources of funding for consumers, including governmental or other entities or programs required to provide or pay the costs of providing services.

This bill would require that the department, in consultation with stakeholders, develop an alternative service delivery model that provides an Individual Choice Budget for obtaining quality services and supports that provides choice and flexibility within a finite budget that, in the aggregate, reduces regional center purchase of service expenditures, reduces reliance on the General Fund, and maximizes federal financial participation. The bill would, effective July 1, 2009, prohibit a regional center from purchasing specified services pending implementation of the Individual Choice Budget, except that an exemption from this prohibition may be granted under prescribed circumstances.

The bill would also, effective July 1, 2009, impose restrictions on the amount of respite services that may be purchased for a consumer, except that a regional center may grant an exemption from these restrictions under prescribed circumstances. This respite service provision would be repealed upon the occurrence of prescribed conditions relating to the implementation of the Individual Choice Budget.

This bill would, effective July 1, 2009, and except as prescribed, provide that a regional center shall not purchase any service that would otherwise be available from prescribed publicly funded program, private insurance, or a health care service plan when the consumer or family meets the criteria of that coverage but chooses not to pursue that coverage.

The bill would also, effective July 1, 2009, and except as prescribed, prohibit a regional center from purchasing medical or dental services for a consumer 3 years of age or older from the Medi-Cal program private insurance, or health care service plan unless the regional center is provided documentation of a Medi-Cal, private insurance, or health care service plan denial appeal is being pursued, and the regional center makes a specified determination regarding the appeal.

Existing law requires the Director of Developmental Services to establish, annually review, and adjust as needed, a schedule of parental fees for services received through the regional centers. Under existing law, adjustment of the parental fees by the department is subject to the approval of the State Council on Developmental Disabilities.

This bill would revise the provisions relating to parental fees, by, among other things, exempting the July 1, 2009, parental fee adjustment from approval by the State Council on Developmental Disabilities and providing for additional factors to be used in determining the fee adjustment.

Existing law authorizes an in-home respite worker, as defined, to perform gastrostomy care and feeding of regional center clients, after completing designated training.

This bill would expand these provisions to include colostomy, ileostomy, and urinary catheter care, and would refer to these services collectively as incidental medical services. The bill would revise applicable training requirements, and would provide for specified wage increases for in-home respite agencies and staff providing incidental medical services.

Existing law requires the department and regional centers to ensure that supported living arrangements for adults with developmental disabilities are made available, as specified.

This bill would revise the provisions relating to supported living arrangements by, among other things, setting forth the circumstances under which a regional center would make rent, mortgage, or lease payments or household expenses, as defined, for a consumer.

Existing law provides for the In-Home Supportive Services (IHSS) program, under which qualified aged, blind, and disabled persons receive services enabling them to remain in their own homes.

This bill would prohibit a regional center from purchasing supportive services under the IHSS program for a consumer who meets the criteria for the program, but declines to apply for those services, unless the regional center director waives this provision, as specified, and documents this waiver in an addendum to the consumer's IPP.

This bill would require the department and the State Department of Health Care Services, jointly, to seek a Medi-Cal program state plan amendment from the federal government to expand federal financial participation for

services to persons with developmental disabilities provided by regional centers.

Existing law requires the Director of Developmental Services to establish, maintain, and revise, as necessary, an equitable process for setting rates of state payment for nonresidential services purchased by regional centers, and authorizes the director to promulgate implementing regulations.

This bill, effective July 1, 2009, would prohibit regional centers from compensating designated nonresidential service programs for providing any service to a consumer on any of a list of holidays specified in the bill, with the department authorized to adjust these holidays through a program directive.

Existing law prohibits the total number of developmental center residents in the secure treatment facility at Porterville Developmental Center from exceeding 297.

This bill would include residents receiving services in the center's transition treatment program for purposes of this limit.

This bill would require the department to provide information to the Assembly Committee on Budget and Senate Committee on Budget and Fiscal Review during budget hearings for the 2010–11 fiscal year about the effect on the developmental service system of the specific cost containment measures implemented to achieve designated General Fund reductions for the 2009–10 fiscal year pursuant to a specified item of the Budget Act of 2009.

The bill also would require the department to continue to convene, as appropriate, a stakeholder review process to obtain information and comments about implementation of these cost containment measures and their effect on the developmental service system.

The California Constitution authorizes the Governor to declare a fiscal emergency and to call the Legislature into special session for that purpose. The Governor issued a proclamation declaring a fiscal emergency, and calling a special session for this purpose, on July 1, 2009.

This bill would state that it addresses the fiscal emergency declared by the Governor by proclamation issued on July 1, 2009, pursuant to the California Constitution.

This bill would declare that it is to take effect immediately as an urgency statute.

The people of the State of California do enact as follows:

SECTION 1. Section 95004 of the Government Code, as amended by Section 1 of Chapter 3 of the 3rd Extraordinary Session of the Statutes of 2008, is amended to read:

95004. The early intervention services specified in this title shall be provided as follows:

(a) Direct services for eligible infants and toddlers and their families shall be provided pursuant to the existing regional center system under the

Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code) and the existing local education agency system under appropriate sections of Part 30 (commencing with Section 56000) of the Education Code and regulations adopted pursuant thereto, and Part C of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.).

(b) (1) In providing services under this title, regional centers shall comply with the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code, and its implementing regulations (Division 2 (commencing with Section 50201) of Title 17 of the California Code of Regulations) including, but not limited to, those provisions relating to vendorization and ratesetting, and the Family Cost Participation Program, except where compliance with those provisions would result in any delays in, the provision of early intervention, or otherwise conflict with this title and the regulations implementing this title (Chapter 2 (commencing with Section 52000) of Division 2 of Title 17 of the California Code of Regulations), or Part C of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.), and applicable federal regulations contained in Part 303 (commencing with Section 303.1) of Title 34 of the Code of Federal Regulations. Notwithstanding any other law or regulation to the contrary, a family's private insurance for medical services or a health care service plan identified in the individualized family service plan, other than for evaluation and assessment, shall be used in compliance with applicable federal and state law and regulation.

(2) When compliance with this subdivision would result in any delays in the provision of early intervention services for the provision of any of these services, the department may authorize a regional center to use a special service code that allows immediate procurement of the service.

(c) Services shall be provided by family resource centers that provide, but are not limited to, parent-to-parent support, information dissemination and referral, public awareness, family professional collaboration activities, and transition assistance for families.

(d) Existing obligations of the state to provide these services at state expense shall not be expanded.

(e) It is the intent of the Legislature that services be provided in accordance with Sections 303.124, 303.126, and 303.527 of Title 34 of the Code of Federal Regulations.

SEC. 2. Section 95014 of the Government Code is amended to read:

95014. (a) The term "eligible infant or toddler" for the purposes of this title means infants and toddlers from birth through two years of age, for whom a need for early intervention services, as specified in the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.) and applicable regulations, is documented by means of assessment and evaluation as required in Sections 95016 and 95018 and who meet one of the following criteria:

(1) Infants and toddlers with a developmental delay in one or more of the following five areas: cognitive development; physical and motor

development, including vision and hearing; communication development; social or emotional development; or adaptive development. Developmentally delayed infants and toddlers are those who are determined to have a significant difference between the expected level of development for their age and their current level of functioning. This determination shall be made by qualified personnel who are recognized by, or part of, a multidisciplinary team, including the parents. A significant difference is defined as a 33-percent delay in one developmental area before 24 months of age, or, at 24 months of age or older, either a delay of 50 percent in one developmental area or a 33-percent delay in two or more developmental areas. The age for use in determination of eligibility for the Early Intervention Program shall be the age of the infant or toddler on the date of the initial referral to the Early Intervention Program.

(2) Infants and toddlers with established risk conditions, who are infants and toddlers with conditions of known etiology or conditions with established harmful developmental consequences. The conditions shall be diagnosed by a qualified personnel recognized by, or part of, a multidisciplinary team, including the parents. The condition shall be certified as having a high probability of leading to developmental delay if the delay is not evident at the time of diagnosis.

(b) Regional centers and local educational agencies shall be responsible for ensuring that eligible infants and toddlers are served as follows:

(1) The State Department of Developmental Services and regional centers shall be responsible for the provision of appropriate early intervention services that are required for California's participation in Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.) for all infants eligible under Section 95014, except for those infants with solely a visual, hearing, or severe orthopedic impairment, or any combination of those impairments, who meet the criteria in Sections 56026 and 56026.5 of the Education Code, and in Section 3030(a), (b), (d), or (e) of, and Section 3031 of, Title 5 of the California Code of Regulations.

(2) The State Department of Education and local educational agencies shall be responsible for the provision of appropriate early intervention services in accordance with Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.) for infants with solely a visual, hearing, or severe orthopedic impairment, or any combination of those impairments, who meet the criteria in Sections 56026 and 56026.5 of the Education Code, and in Section 3030(a), (b), (d), or (e) of, and Section 3031 of, Title 5 of the California Code of Regulations, and who are not eligible for services under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code).

(c) For infants and toddlers and their families who are eligible to receive services from both a regional center and a local educational agency, the regional center shall be the agency responsible for providing or purchasing appropriate early intervention services that are beyond the mandated responsibilities of local educational agencies and that are required for

California's participation in Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.). The local educational agency shall provide special education services up to its funded program capacity as established annually by the State Department of Education in consultation with the State Department of Developmental Services and the Department of Finance.

(d) No agency or multidisciplinary team, including any agency listed in Section 95012, shall presume or determine eligibility, including eligibility for medical services, for any other agency. However, regional centers and local educational agencies shall coordinate intake, evaluation, assessment, and individualized family service plans for infants and toddlers and their families who are served by an agency.

(e) Upon termination of the program pursuant to Section 95003, the State Department of Developmental Services shall be responsible for the payment of services pursuant to this title.

SEC. 3. Section 95020 of the Government Code is amended to read:

95020. (a) An eligible infant or toddler shall have an individualized family service plan. The individualized family service plan shall be used in place of an individualized education program required pursuant to Sections 4646 and 4646.5 of the Welfare and Institutions Code, the individualized program plan required pursuant to Section 56340 of the Education Code, or any other applicable service plan.

(b) For an infant or toddler who has been evaluated for the first time, a meeting to share the results of the evaluation, to determine eligibility and, for children who are eligible, to develop the initial individualized family service plan shall be conducted within 45 calendar days of receipt of the written referral. Evaluation results and determination of eligibility may be shared in a meeting with the family prior to the individualized family service plan. Written parent consent to evaluate and assess shall be obtained within the 45-day timeline. A regional center, local educational agency, or the designee of one of those entities shall initiate and conduct this meeting. Families shall be afforded the opportunity to participate in all decisions regarding eligibility and services.

(c) Parents shall be fully informed of their rights, including the right to invite another person, including a family member or an advocate or peer parent, or any or all of them, to accompany them to any or all individualized family service plan meetings. With parental consent, a referral shall be made to the local family resource center or network.

(d) The individualized family service plan shall be in writing and shall address all of the following:

(1) A statement of the infant's or toddler's present levels of physical development including vision, hearing, and health status, cognitive development, communication development, social and emotional development, and adaptive developments.

(2) With the concurrence of the family, a statement of the family's concerns, priorities, and resources related to meeting the special developmental needs of the eligible infant or toddler.

(3) A statement of the major outcomes expected to be achieved for the infant or toddler and family where services for the family are related to meeting the special developmental needs of the eligible infant or toddler.

(4) The criteria, procedures, and timelines used to determine the degree to which progress toward achieving the outcomes is being made and whether modifications or revisions are necessary.

(5) (A) A statement of the specific early intervention services necessary to meet the unique needs of the infant or toddler as identified in paragraph (3), including, but not limited to, the frequency, intensity, location, duration, and method of delivering the services, and ways of providing services in natural generic environments, including group training for parents on behavioral intervention techniques in lieu of some or all of the in-home parent training component of the behavior intervention services, and purchase of neighborhood preschool services and needed qualified personnel in lieu of infant development programs.

(B) Effective July 1, 2009, at the time of development, review, or modification of an infant's or toddler's individualized family service plan, the regional center shall consider both of the following:

(i) The use of group training for parents on behavior intervention techniques, in lieu of some or all of the in-home parent training component of the behavior intervention services.

(ii) The purchase of neighborhood preschool services and needed qualified personnel, in lieu of infant development programs.

(6) A statement of the agency responsible for providing the identified services.

(7) The name of the service coordinator who shall be responsible for facilitating implementation of the plan and coordinating with other agencies and persons.

(8) The steps to be taken to ensure transition of the infant or toddler upon reaching three years of age to other appropriate services. These may include, as appropriate, special education or other services offered in natural environments.

(9) The projected dates for the initiation of services in paragraph (5) and the anticipated duration of those services.

(e) Each service identified on the individualized family service plan shall be designated as one of three types:

(1) An early intervention service, as defined in subsection (4) of Section 1432 of Title 20 of the United States Code, and applicable regulations, that is provided or purchased through the regional center, local educational agency, or other participating agency. The State Department of Health Care Services, State Department of Social Services, State Department of Mental Health, and State Department of Alcohol and Drug Programs shall provide services in accordance with state and federal law and applicable regulations, and up to the level of funding as appropriated by the Legislature. Early intervention services identified on an individualized family service plan that exceed the funding, statutory, and regulatory requirements of these departments shall be provided or purchased by regional centers or local

educational agencies under subdivisions (b) and (c) of Section 95014. The State Department of Health Care Services, State Department of Social Services, State Department of Mental Health, and State Department of Alcohol and Drug Programs shall not be required to provide early intervention services over their existing funding, statutory, and regulatory requirements.

(2) Another service, other than those specified in paragraph (1), which the eligible infant or toddler or his or her family may receive from other state programs, subject to the eligibility standards of those programs.

(3) A referral to a nonrequired service that may be provided to an eligible infant or toddler or his or her family. Nonrequired services are those services that are not defined as early intervention services or do not relate to meeting the special developmental needs of an eligible infant or toddler related to the disability, but that may be helpful to the family. The granting or denial of nonrequired services by a public or private agency is not subject to appeal under this title. Notwithstanding any other provision of law or regulation to the contrary, effective July 1, 2009, with the exception of durable medical equipment, regional centers shall not purchase nonrequired services, but may refer a family to a nonrequired service that may be available to an eligible infant or toddler or his or her family.

(f) An annual review, and other periodic reviews, of the individualized family service plan for an infant or toddler and the infant's or toddler's family shall be conducted to determine the degree of progress that is being made in achieving the outcomes specified in the plan and whether modification or revision of the outcomes or services is necessary. The frequency, participants, purpose, and required processes for annual and periodic reviews shall be consistent with the statutes and regulations under Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431 et seq.) and this title, and shall be specified in regulations adopted pursuant to Section 95028.

SEC. 4. Section 95021 is added to the Government Code, to read:

95021. (a) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, any vendor who provides applied behavioral analysis (ABA) services or intensive behavioral intervention services, or both, as defined in subdivision (d), shall:

(1) Conduct a behavioral assessment of each infant or toddler to whom the vendor provides these services.

(2) Design an intervention plan that shall include the service type, number of hours, and parent participation needed to achieve the goals and objectives of the infant or toddler, as set forth in his or her individualized family service plan (IFSP). The intervention plan shall also set forth the frequency at which the progress of the infant or toddler shall be evaluated and reported.

(3) Provide a copy of the intervention plan to the regional center for review and consideration by the planning team members.

(b) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, regional centers shall:

(1) Only purchase ABA services or intensive behavioral intervention services that reflect evidence-based practices, promote positive social behaviors, and ameliorate behaviors that interfere with learning and social interactions.

(2) Only purchase ABA or intensive behavioral intervention services when the parent or parents of an infant or toddler receiving services participate in the intervention plan for the infant or toddler, given the critical nature of parent participation to the success of the intervention plan.

(3) Not purchase either ABA or intensive behavioral intervention services for purposes of providing respite, day care, or school services.

(4) Discontinue purchasing ABA or intensive behavioral intervention services for an infant or toddler when his or her treatment goals and objectives, as described under subdivision (a), are achieved. ABA or intensive behavioral intervention services shall not be discontinued until the goals and objectives are reviewed and updated as required in paragraph (5) and shall be discontinued only if those updated treatment goals and objectives do not require ABA or intensive behavioral intervention services.

(5) For each infant or toddler, evaluate the vendor's intervention plan and number of service hours for ABA or intensive behavioral intervention no less than every six months, consistent with evidence-based practices. If necessary, the intervention plan's treatment goals and objectives shall be updated and revised.

(6) Not reimburse a parent for participating in a behavioral services treatment program.

(c) For infants and toddlers receiving ABA or behavioral intervention services on July 1, 2009, as part of their IFSP, subdivision (b) shall apply on August 1, 2009.

(d) For purposes of this section the following definitions shall apply:

(1) "Applied behavioral analysis" means the design, implementation, and evaluation of systematic instructional and environmental modifications to promote positive social behaviors and reduce or ameliorate behaviors which interfere with learning and social interaction.

(2) "Intensive behavioral intervention" means any form of applied behavioral analysis that is comprehensive, designed to address all domains of functioning, and provided in multiple settings for no more than 40 hours per week, across all settings, depending on the individual's needs and progress. Interventions can be delivered in a one-to-one ratio or small group format, as appropriate.

(3) "Evidence-based practice" means a decisionmaking process which integrates the best available scientifically rigorous research, clinical expertise, and individual's characteristics. Evidence-based practice is an approach to treatment rather than a specific treatment. Evidence-based practice promotes the collection, interpretation, integration, and continuous evaluation of valid, important, and applicable individual- or family-reported, clinically-observed, and research-supported evidence. The best available evidence, matched to infant or toddler circumstances and preferences, is

applied to ensure the quality of clinical judgments and facilitates the most cost-effective care.

(4) “Parent” has the same meaning as defined in paragraph (15) of subdivision (b) of Section 52000 of Title 17 of the California Code of Regulations.

(5) “Parent participation” shall include, but shall not be limited to, the following meanings:

(A) Completion of group instruction on the basics of behavior intervention.

(B) Implementation of intervention strategies according to the intervention plan.

(C) If needed, collection of data on behavioral strategies and submission of that data to the provider for incorporation into progress reports.

(D) Participation in any needed clinical meetings.

(E) Purchase of suggested behavior modification materials or community involvement if a reward system is used.

SEC. 5. Section 4418.1 of the Welfare and Institutions Code is amended to read:

4418.1. (a) The Legislature recognizes that it has a special obligation to ensure the well-being of persons with developmental disabilities who are moved from state hospitals to the community.

(b) To ensure that persons with developmental disabilities who are moved from state hospitals to the community are receiving necessary services and supports, the department shall contract with an independent agency or organization for the tracking and monitoring of those persons, including all persons moved as a result of the *Coffelt v. State Department of Developmental Services* settlement agreement and any persons moved after the terms of that agreement have been met.

(c) The contractor shall be experienced in all of the following:

(1) Designing valid tracking instruments.

(2) Tracking the quality of community programs, including outcome-based measures such as health and safety, quality of life, integration, choice, and consumer satisfaction.

(3) Tracking the quality and appropriateness of community placements for persons moving from large institutions into community settings.

(4) Developing data systems.

(5) Data analysis and report preparation.

(d) The contractor shall measure consumer and family satisfaction with services provided, including case management and quality of life, including, but not limited to, health and safety, independence, productivity, integration, opportunities for choice, and delivery of needed services.

(e) The information maintained for each person shall include the person’s name, address, nature of disability, medical condition, scope of community-based services and supports, and the annual data collected by the contractor.

(f) The contractor shall meet with each person, and the person’s family, legal guardian, or conservator, when appropriate, no less than once a year

to discuss quality of life and observe the person's services and supports. In cases where the consumer is not capable of communicating his or her responses and where there is no family member, guardian, or conservator involved, the contractor shall meet with no less than two persons familiar with the consumer. Additionally, the contractor shall interview staff and friends who know the consumer best and review records, as appropriate.

(g) If the contractor identifies any suspected violation of the legal, civil, or service rights of an individual, or if the contractor determines that the health and welfare of the individual is at risk, that information shall be provided immediately to the regional center providing case management services, the client rights advocate, and to the department.

(h) The department shall monitor the corrective actions taken by the regional center and maintain a report in the person's file. The consumer and, when appropriate, his or her parents, legal guardian, or conservator, shall be provided with access to the person's file and be provided with copies of all reports filed with the regional center or department relative to them.

(i) The department shall establish a task force, including representatives from stakeholder organizations, to annually review the findings of the contractor and make recommendations regarding additional or differing criteria for information to be gathered by the contractor in future interviews.

(j) As of July 1, 1998, and annually thereafter, the contractor shall provide a report to the Governor, the Legislature, and the department outlining the activities and findings of this process. The reports shall be public and shall contain no personally identifying information about the persons being monitored.

(k) It is the intent of the Legislature to ensure the well-being of consumers, taking into account their informed and expressed choices. It is further the intent of the Legislature to support the satisfaction and success of consumers through the delivery of quality services and supports. Evaluation of the services that consumers receive is a key aspect to the service system. Utilizing the information that consumers, including those who have moved from state developmental centers to the community, and their families provide about those services in a reliable and meaningful way is also critical to enabling the department to assess the performance of the state's developmental services system and to improve services for consumers in the future. To that end, pursuant to Section 4571, the department shall implement, not later than January 1, 2010, an improved unified quality assessment system.

(l) This section shall remain in effect only until July 1, 2009, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2009, deletes or extends that date.

SEC. 6. Section 4435 is added to the Welfare and Institutions Code, to read:

4435. (a) The department shall establish a prevention program for at-risk babies. For purposes of this section, "at-risk baby" means a child under 36 months of age who is otherwise not eligible for the California Early Intervention Program pursuant to Title 14 (commencing with Section 95000)

of the Government Code or services provided under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)) and whose genetic, medical, developmental, or environmental history is predictive of a substantially greater risk for developmental disability than that for the general population, the presence of which is diagnosed by qualified clinicians.

(b) This program shall provide intake, assessment, case management, and referral to generic agencies. For purposes of this section, “generic agency” means any agency that has a legal responsibility to serve the general public and that is receiving public funds for providing these services.

(c) The department shall allocate to each regional center, subject to appropriation, specific funding for this program. A regional center’s total expenditures for purchasing or providing services under the prevention program shall not exceed the funding allocated in its contract for this purpose.

(d) The department shall establish policies and procedures for implementation of the prevention program by regional centers. These policies and procedures shall define other services included in this program and the process for appealing denial of eligibility for the prevention program.

SEC. 7. Section 4570 of the Welfare and Institutions Code is amended to read:

4570. (a) In order to remain informed regarding the quality of services in the area and to protect the legal, civil, and service rights of persons with developmental disabilities, the Legislature finds that it is necessary to conduct life quality assessments with consumers served by the regional centers.

(b) The department shall enter into an interagency agreement with the state council, on behalf of the area boards, to conduct the life quality assessments described in this section. This interagency agreement shall include assurances that the state council shall not direct the area boards in their conduct of these assessments or in the content or format of the annual reports submitted to the council by the area boards.

(c) Consistent with the responsibilities described in this chapter, the area board, with the consent of the consumer and, when appropriate, a family member, shall conduct life quality assessments with consumers living in out-of-home placements, supported living arrangements, or independent living arrangements no less than once every three years or more frequently upon the request of a consumer, or, when appropriate, a family member. If a consumer who is eligible to receive a life quality assessment is a dependent of a juvenile court pursuant to Section 300, 601, or 602, the assessment may be conducted with the consent of the court or social services agency. A regional center or the department shall annually provide the local area board with a list, including, but not limited to, the name, address, and telephone number of each consumer, and, when appropriate, a family member, the consumer’s date of birth, and the consumer’s case manager, for all consumers living in out-of-home placements, supported living arrangements, or independent living arrangements, in order to facilitate area board contact

with consumers and, when appropriate, family members, for the purpose of conducting life quality assessments.

(d) The life quality assessments shall be conducted by utilizing the “Looking at Life Quality Handbook” or subsequent revisions developed by the department.

(e) The assessments shall be conducted by consumers, families, providers, and others, including volunteer surveyors. Each area board shall recruit, train, supervise, and coordinate surveyors. Upon request, and if feasible, the area board shall respect the request of a consumer and, when appropriate, family member, for a specific surveyor to conduct the life quality assessment. An area board may provide stipends to surveyors.

(f) A life quality assessment shall be conducted within 90 days prior to a consumer’s triennial individual program plan meeting, so that the consumer and regional center may use this information as part of the planning process.

(g) Prior to conducting a life quality assessment, the area board shall meet with the regional center to coordinate the exchange of appropriate information necessary to conduct the assessment and ensure timely followup to identified violations of any legal, civil, or service rights.

(h) Following the completion of each life quality assessment, the area board shall develop a report of its findings and provide a copy of the report to the consumer, when appropriate, family members, and the regional center providing case management services to the consumer. A copy of the life quality assessment of a consumer who is a dependent of a juvenile court pursuant to Section 300, 601, or 602 shall be provided, upon request, to the court or social services agency. In the event that a report identifies alleged violations of any legal, civil, or service right, the area board shall notify the regional center and the department of the alleged violation. The department shall monitor the regional center to ensure that violations are addressed and resolved in a timely manner.

(i) Regional centers shall review information from the life quality assessments on a systemic basis in order to identify training and resource development needs.

(j) (1) On an annual basis, each area board shall prepare and submit a report to the state council describing its activities and accomplishments related to the implementation of this section. The report shall include, but not be limited to, the number of life quality assessments conducted, the number of surveyors, including those provided stipends, a description of the surveyor recruitment process and training program, including any barriers to recruitment, the number, nature, and outcome of any identified violations of legal, civil, or service rights reported to regional centers, and recommendations for improvement in the life quality assessment process.

(2) By September 15 of each year, the state council shall compile these reports and forward to the Governor, the Legislature, and the department.

(k) Implementation of this section shall be subject to an annual appropriation of funds in the Budget Act for this purpose.

(l) It is the intent of the Legislature to ensure the well-being of consumers, taking into account their informed and expressed choices. It is further the

intent of the Legislature to support the satisfaction and success of consumers through the delivery of quality services and supports. Evaluation of the services that consumers receive is a key aspect to the service system. Utilizing the information that consumers, including those who have moved from state developmental centers to the community, and their families provide about those services in a reliable and meaningful way is also critical to enabling the department to assess the performance of the state's developmental services system and to improve services for consumers in the future. To that end, pursuant to Section 4571, the department shall implement, not later than January 1, 2010, an improved unified quality assessment system.

(m) This section shall remain in effect only until January 1, 2010, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2010, deletes or extends that date.

SEC. 8. The heading of Chapter 4 (commencing with Section 4570) of Division 4.5 of the Welfare and Institutions Code is amended to read:

CHAPTER 4. QUALITY ASSESSMENTS

SEC. 9. Section 4571 is added to the Welfare and Institutions Code, to read:

4571. (a) It is the intent of the Legislature to ensure the well-being of consumers, taking into account their informed and expressed choices. It is further the intent of the Legislature to support the satisfaction and success of consumers through the delivery of quality services and supports. Evaluation of the services that consumers receive is a key aspect to the service system. Utilizing the information that consumers and their families provide about such services in a reliable and meaningful way is also critical to enable the department to assess the performance of the state's developmental services system and to improve services for consumers in the future. To that end, the State Department of Developmental Services, on or before January 1, 2010, shall implement an improved, unified quality assessment system, in accordance with this section.

(b) The department, in consultation with stakeholders, shall identify a valid and reliable quality assurance instrument that includes assessments of consumer and family satisfaction, provision of services, and personal outcomes. The instrument shall do all of the following:

(1) Provide nationally validated, benchmarked, consistent, reliable, and measurable data for the department's Quality Management System.

(2) Enable the department and regional centers to compare the performance of California's developmental services system against other states' developmental services systems and to assess quality and performance among all of the regional centers.

(3) Include outcome-based measures such as health, safety, well-being, relationships, interactions with people who do not have a disability,

employment, quality of life, integration, choice, service, and consumer satisfaction.

(c) To the extent that funding is available, the instrument identified in subdivision (b) may be expanded to collect additional data requested by the State Council on Developmental Disabilities.

(d) The department shall contract with an independent agency or organization to implement by January 1, 2010, the quality assurance instrument described in subdivision (b). The contractor shall be experienced in all of the following:

(1) Designing valid quality assurance instruments for developmental service systems.

(2) Tracking outcome-based measures such as health, safety, well-being, relationships, interactions with people who do not have a disability, employment, quality of life, integration, choice, service, and consumer satisfaction.

(3) Developing data systems.

(4) Data analysis and report preparation.

(5) Assessments of the services received by consumers who are moved from developmental centers to the community, given the Legislature's historic recognition of a special obligation to ensure the well-being of these persons.

(e) The department, in consultation with the contractor described in subdivision (d), shall establish the methodology by which the quality assurance instrument shall be administered, including, but not limited to, how often and to whom the quality assurance will be administered, and the design of a stratified, random sample among the entire population of consumers served by regional centers. The contractor shall provide aggregate information for all regional centers and the state as a whole. At the request of a consumer or the family member of a consumer, the survey shall be conducted in the primary language of the consumer or family member surveyed.

(f) The department shall contract with the state council to collect data for the quality assurance instrument described in subdivision (b). If, during the data collection process, the state council identifies any suspected violation of the legal, civil, or service rights of a consumer, or if it determines that the health and welfare of a consumer is at risk, that information shall be provided immediately to the regional center providing case management services to the consumer. At the request of the consumer, or family, when appropriate, a copy of the completed survey shall be provided to the regional center providing case management services to improve the consumer's quality of services through the individual planning process.

(g) The department, in consultation with stakeholders, shall annually review the data collected from and the findings of the quality assurance instrument described in subdivision (b) and accept recommendations regarding additional or different criteria for the quality assurance instrument in order to assess the performance of the state's developmental services system and improve services for consumers.

(h) All reports generated pursuant to this section shall be made publicly available, but shall not contain any personal identifying information about any person assessed.

(i) All data collected pursuant to subdivision (c) shall be provided to the state council, but shall contain no personal identifying information about the persons being surveyed.

(j) Implementation of this section shall be subject to an annual appropriation of funds in the Budget Act for this purpose.

SEC. 10. Section 4648 of the Welfare and Institutions Code is amended to read:

4648. In order to achieve the stated objectives of a consumer's individual program plan, the regional center shall conduct activities, including, but not limited to, all of the following:

(a) Securing needed services and supports.

(1) It is the intent of the Legislature that services and supports assist individuals with developmental disabilities in achieving the greatest self-sufficiency possible and in exercising personal choices. The regional center shall secure services and supports that meet the needs of the consumer, as determined in the consumer's individual program plan, and within the context of the individual program plan, the planning team shall give highest preference to those services and supports which would allow minors with developmental disabilities to live with their families, adult persons with developmental disabilities to live as independently as possible in the community, and that allow all consumers to interact with persons without disabilities in positive, meaningful ways.

(2) In implementing individual program plans, regional centers, through the planning team, shall first consider services and supports in natural community, home, work, and recreational settings. Services and supports shall be flexible and individually tailored to the consumer and, where appropriate, his or her family.

(3) A regional center may, pursuant to vendorization or a contract, purchase services or supports for a consumer from any individual or agency which the regional center and consumer or, where appropriate, his or her parents, legal guardian, or conservator, or authorized representatives, determines will best accomplish all or any part of that consumer's program plan.

(A) Vendorization or contracting is the process for identification, selection, and utilization of service vendors or contractors, based on the qualifications and other requirements necessary in order to provide the service.

(B) A regional center may reimburse an individual or agency for services or supports provided to a regional center consumer if the individual or agency has a rate of payment for vendored or contracted services established by the department, pursuant to this division, and is providing services pursuant to an emergency vendorization or has completed the vendorization procedures or has entered into a contract with the regional center and continues to comply with the vendorization or contracting requirements.

The director shall adopt regulations governing the vendorization process to be utilized by the department, regional centers, vendors and the individual or agency requesting vendorization.

(C) Regulations shall include, but not be limited to: the vendor application process, and the basis for accepting or denying an application; the qualification and requirements for each category of services that may be provided to a regional center consumer through a vendor; requirements for emergency vendorization; procedures for termination of vendorization; the procedure for an individual or an agency to appeal any vendorization decision made by the department or regional center.

(D) A regional center may vendorize a licensed facility for exclusive services to persons with developmental disabilities at a capacity equal to or less than the facility's licensed capacity. A facility already licensed on January 1, 1999, shall continue to be vendorized at their full licensed capacity until the facility agrees to vendorization at a reduced capacity.

(E) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, a regional center shall not newly vendor a State Department of Social Services licensed 24-hour residential care facility with a licensed capacity of 16 or more beds, unless the facility qualifies for receipt of federal funds under the Medicaid Program.

(4) Notwithstanding subparagraph (B), a regional center may contract or issue a voucher for services and supports provided to a consumer or family at a cost not to exceed the maximum rate of payment for that service or support established by the department. If a rate has not been established by the department, the regional center may, for an interim period, contract for a specified service or support with, and establish a rate of payment for, any provider of the service or support necessary to implement a consumer's individual program plan. Contracts may be negotiated for a period of up to three years, with annual review and subject to the availability of funds.

(5) In order to ensure the maximum flexibility and availability of appropriate services and supports for persons with developmental disabilities, the department shall establish and maintain an equitable system of payment to providers of services and supports identified as necessary to the implementation of a consumers' individual program plan. The system of payment shall include provision for a rate to ensure that the provider can meet the special needs of consumers and provide quality services and supports in the least restrictive setting as required by law.

(6) The regional center and the consumer, or where appropriate, his or her parents, legal guardian, conservator, or authorized representative, including those appointed pursuant to subdivision (d) of Section 4548 or subdivision (e) of Section 4705, shall, pursuant to the individual program plan, consider all of the following when selecting a provider of consumer services and supports:

(A) A provider's ability to deliver quality services or supports which can accomplish all or part of the consumer's individual program plan.

(B) A provider's success in achieving the objectives set forth in the individual program plan.

(C) Where appropriate, the existence of licensing, accreditation, or professional certification.

(D) The cost of providing services or supports of comparable quality by different providers, if available, shall be reviewed, and the least costly available provider of comparable service, including the cost of transportation, who is able to accomplish all or part of the consumer's individual program plan, consistent with the particular needs of the consumer and family as identified in the individual program plan, shall be selected. In determining the least costly provider, the availability of federal financial participation shall be considered. The consumer shall not be required to use the least costly provider if it will result in the consumer moving from an existing provider of services or supports to more restrictive or less integrated services or supports.

(E) The consumer's or, where appropriate, the parents, legal guardian, or conservator of a consumer's choice of providers.

(7) No service or support provided by any agency or individual shall be continued unless the consumer or, where appropriate, his or her parents, legal guardian, or conservator, or authorized representative, including those appointed pursuant to subdivision (d) of Section 4548 or subdivision (e) of Section 4705, is satisfied and the regional center and the consumer or, when appropriate, the person's parents or legal guardian or conservator agree that planned services and supports have been provided, and reasonable progress toward objectives have been made.

(8) Regional center funds shall not be used to supplant the budget of any agency which has a legal responsibility to serve all members of the general public and is receiving public funds for providing those services.

(9) (A) A regional center may, directly or through an agency acting on behalf of the center, provide placement in, purchase of, or follow-along services to persons with developmental disabilities in, appropriate community living arrangements, including, but not limited to, support service for consumers in homes they own or lease, foster family placements, health care facilities, and licensed community care facilities. In considering appropriate placement alternatives for children with developmental disabilities, approval by the child's parent or guardian shall be obtained before placement is made.

(B) Effective July 1, 2012, notwithstanding any other provision of law or regulation to the contrary, a regional center shall not purchase residential services from a State Department of Social Services licensed 24-hour residential care facility with a licensed capacity of 16 or more beds. This prohibition on regional center purchase of residential services shall not apply to either of the following:

(i) A residential facility with a licensed capacity of 16 or more beds that has been approved to participate in the department's Home and Community Based Services Waiver or another existing waiver program or certified to participate in the Medi-Cal program.

(ii) A residential facility service provider that has a written agreement and specific plan prior to July 1, 2012, with the vendoring regional center

to downsize the existing facility by transitioning its residential services to living arrangements of 15 beds or less or restructure the large facility to meet federal Medicaid eligibility requirements on or before June 30, 2013.

(C) Each person with developmental disabilities placed by the regional center in a community living arrangement shall have the rights specified in this division. These rights shall be brought to the person's attention by any means necessary to reasonably communicate these rights to each resident, provided that, at a minimum, the Director of Developmental Services prepare, provide, and require to be clearly posted in all residential facilities and day programs a poster using simplified language and pictures that is designed to be more understandable by persons with cognitive disabilities and that the rights information shall also be available through the regional center to each residential facility and day program in alternative formats, including, but not limited to, other languages, braille, and audio tapes, when necessary to meet the communication needs of consumers.

(D) Consumers are eligible to receive supplemental services including, but not limited to, additional staffing, pursuant to the process described in subdivision (d) of Section 4646. Necessary additional staffing that is not specifically included in the rates paid to the service provider may be purchased by the regional center if the additional staff are in excess of the amount required by regulation and the individual's planning team determines the additional services are consistent with the provisions of the individual program plan. Additional staff should be periodically reviewed by the planning team for consistency with the individual program plan objectives in order to determine if continued use of the additional staff is necessary and appropriate and if the service is producing outcomes consistent with the individual program plan. Regional centers shall monitor programs to ensure that the additional staff is being provided and utilized appropriately.

(10) Emergency and crisis intervention services including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person's living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person's home community. If dislocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible.

(11) Among other service and support options, planning teams shall consider the use of paid roommates or neighbors, personal assistance, technical and financial assistance, and all other service and support options which would result in greater self-sufficiency for the consumer and cost-effectiveness to the state.

(12) When facilitation as specified in an individual program plan requires the services of an individual, the facilitator shall be of the consumer's choosing.

(13) The community support may be provided to assist individuals with developmental disabilities to fully participate in community and civic life,

including, but not limited to, programs, services, work opportunities, business, and activities available to persons without disabilities. This facilitation shall include, but not be limited to, any of the following:

(A) Outreach and education to programs and services within the community.

(B) Direct support to individuals which would enable them to more fully participate in their community.

(C) Developing unpaid natural supports when possible.

(14) Other services and supports may be provided as set forth in Sections 4685, 4686, 4687, 4688, and 4689, when necessary.

(15) Notwithstanding any other provision of law or regulation to the contrary, effective July 1, 2009, regional centers shall not purchase experimental treatments, therapeutic services, or devices that have not been clinically determined or scientifically proven to be effective or safe or for which risks and complications are unknown. Experimental treatments or therapeutic services include experimental medical or nutritional therapy when the use of the product for that purpose is not a general physician practice. For regional center consumers receiving these services as part of their individual program plan (IPP) or individualized family service plan (IFSP) on July 1, 2009, this prohibition shall apply on August 1, 2009.

(b) (1) Advocacy for, and protection of, the civil, legal, and service rights of persons with developmental disabilities as established in this division.

(2) Whenever the advocacy efforts of a regional center to secure or protect the civil, legal, or service rights of any of its consumers prove ineffective, the regional center or the person with developmental disabilities or his or her parents, legal guardian, or other representative may request the area board to initiate action under the provisions defining area board advocacy functions established in this division.

(c) The regional center may assist consumers and families directly, or through a provider, in identifying and building circles of support within the community.

(d) In order to increase the quality of community services and protect consumers, the regional center shall, when appropriate, take either of the following actions:

(1) Identify services and supports that are ineffective or of poor quality and provide or secure consultation, training, or technical assistance services for any agency or individual provider to assist that agency or individual provider in upgrading the quality of services or supports.

(2) Identify providers of services or supports that may not be in compliance with local, state, and federal statutes and regulations and notify the appropriate licensing or regulatory authority, or request the area board to investigate the possible noncompliance.

(e) When necessary to expand the availability of needed services of good quality, a regional center may take actions that include, but are not limited to, the following:

(1) Soliciting an individual or agency by requests for proposals or other means, to provide needed services or supports not presently available.

(2) Requesting funds from the Program Development Fund, pursuant to Section 4677, or community placement plan funds designated from that fund, to reimburse the startup costs needed to initiate a new program of services and supports.

(3) Using creative and innovative service delivery models, including, but not limited to, natural supports.

(f) Except in emergency situations, a regional center shall not provide direct treatment and therapeutic services, but shall utilize appropriate public and private community agencies and service providers to obtain those services for its consumers.

(g) Where there are identified gaps in the system of services and supports or where there are identified consumers for whom no provider will provide services and supports contained in his or her individual program plan, the department may provide the services and supports directly.

(h) At least annually, regional centers shall provide the consumer, his or her parents, legal guardian, conservator, or authorized representative a statement of services and supports the regional center purchased for the purpose of ensuring that they are delivered. The statement shall include the type, unit, month, and cost of services and supports purchased.

SEC. 11. Section 4648.1 of the Welfare and Institutions Code is amended to read:

4648.1. (a) The State Department of Developmental Services and regional centers may monitor services and supports purchased for regional center consumers with or without prior notice. Not less than two monitoring visits to a licensed long-term health care or community care facility or family home agency home each year shall be unannounced. The department may conduct fiscal reviews and audits of the service providers' records.

(b) Department and regional center staff involved in monitoring or auditing services provided to the regional centers' consumers by a service provider shall have access to the provider's grounds, buildings, and service program, and to all related records, including books, papers, computerized data, accounting records, and related documentation. All persons connected with the service provider's program, including, but not limited to, program administrators, staff, consultants, and accountants, shall provide information and access to facilities as required by the department or regional center.

(c) The department, in cooperation with regional centers, shall ensure that all providers of services and supports purchased by regional centers for their consumers are informed of all of the following:

(1) The provisions of this section.

(2) The responsibility of providers to comply with laws and regulations governing both their service program and the provision of services and supports to people with developmental disabilities.

(3) The responsibility of providers to comply with conditions of any contract or agreement between the regional center and the provider, and between the provider and the department.

(4) The rights of providers established in regulations adopted pursuant to Sections 4648.2, 4748, and 4780.5, to appeal actions taken by regional

centers or the department as a result of their monitoring and auditing findings.

(d) A regional center may terminate payments for services, and may terminate its contract or authorization for the purchase of consumer services if it determines that the provider has not complied with provisions of its contract or authorization with the regional center or with applicable state laws and regulations. When terminating payments for services or its contract or authorization for the purchase of consumer services, a regional center shall make reasonable efforts to avoid unnecessary disruptions of consumer services.

(e) A regional center or the department may recover from the provider funds paid for services when the department or the regional center determines that either of the following has occurred:

(1) The services were not provided in accordance with the regional center's contract or authorization with the provider, or with applicable state laws or regulations.

(2) The rate paid is based on inaccurate data submitted by the provider on a provider cost statement.

Any funds so recovered shall be remitted to the department.

(f) Any evidence of suspected licensing violations found by department or regional center personnel shall be reported immediately to the appropriate state licensing agency.

(g) Regional centers may establish volunteer teams, made up of consumers, parents, other family members, and advocates to conduct the monitoring activities described in this section.

(h) In meeting its responsibility to provide technical assistance to providers of community living arrangements for persons with developmental disabilities, including, but not limited to, licensed residential facilities, family home agencies, and supported or independent living arrangements, a regional center shall utilize the "Looking at Service Quality-Provider's Handbook" developed by the department or subsequent revisions developed by the department.

(i) Effective July 1, 2009, a regional center shall not be required to perform triennial evaluations of community care facilities, as described in Sections 56046, 56049, 56050, 56051, and 56052 of Title 17 of the California Code of Regulations.

SEC. 12. Section 4648.35 is added to the Welfare and Institutions Code, to read:

4648.35. Effective July 1, 2009, at the time of development, review, or modification of a consumer's individual program plan (IPP) or individualized family service plan (IFSP), all of the following shall apply to a regional center:

(a) A regional center shall not fund private specialized transportation services for an adult consumer who can safely access and utilize public transportation, when that transportation is available.

(b) A regional center shall fund the least expensive transportation modality that meets the consumer's needs, as set forth in the consumer's IPP or IFSP.

(c) A regional center shall fund transportation, when required, from the consumer's residence to the lowest-cost vendor that provides the service that meets the consumer's needs, as set forth in the consumer's IPP or IFSP. For purposes of this subdivision, the cost of a vendor shall be determined by combining the vendor's program costs and the costs to transport a consumer from the consumer's residence to the vendor.

(d) A regional center shall fund transportation services for a minor child living in the family residence, only if the family of the child provides sufficient written documentation to the regional center to demonstrate that it is unable to provide transportation for the child.

SEC. 13. Section 4648.5 is added to the Welfare and Institutions Code, to read:

4648.5. (a) Notwithstanding any other provision of law or regulations to the contrary, effective July 1, 2009, a regional centers' authority to purchase the following services shall be suspended pending implementation of the Individual Choice Budget and certification by the Director of Developmental Services that the Individual Choice Budget has been implemented and will result in state budget savings sufficient to offset the costs of providing the following services:

- (1) Camping services and associated travel expenses.
- (2) Social recreation activities, except for those activities vendored as community-based day programs.
- (3) Educational services for children three to 17, inclusive, years of age.
- (4) Nonmedical therapies, including, but not limited to, specialized recreation, art, dance, and music.

(b) For regional center consumers receiving services described in subdivision (a) as part of their individual program plan (IPP) or individualized family service plan (IFSP), the prohibition in subdivision (a) shall take effect on August 1, 2009.

(c) An exemption may be granted on an individual basis in extraordinary circumstances to permit purchase of a service identified in subdivision (a) when the regional center determines that the service is a primary or critical means for ameliorating the physical, cognitive, or psychosocial effects of the consumer's developmental disability, or the service is necessary to enable the consumer to remain in his or her home and no alternative service is available to meet the consumer's needs.

SEC. 14. Section 4648.6 is added to the Welfare and Institutions Code, to read:

4648.6. The department, in consultation with stakeholders, shall develop an alternative service delivery model that provides an Individual Choice Budget for obtaining quality services and supports which provides choice and flexibility within a finite budget that in the aggregate reduces regional center purchase of service expenditures, reduces reliance on the state general fund, and maximizes federal financial participation in the delivery of

services. The individual budget will be determined using a fair, equitable, transparent standardized process.

SEC. 15. Section 4659 of the Welfare and Institutions Code is amended to read:

4659. (a) Except as otherwise provided in subdivision (b) or (e), the regional center shall identify and pursue all possible sources of funding for consumers receiving regional center services. These sources shall include, but not be limited to, both of the following:

(1) Governmental or other entities or programs required to provide or pay the cost of providing services, including Medi-Cal, Medicare, the Civilian Health and Medical Program for Uniform Services, school districts, and federal supplemental security income and the state supplementary program.

(2) Private entities, to the maximum extent they are liable for the cost of services, aid, insurance, or medical assistance to the consumer.

(b) Any revenues collected by a regional center pursuant to this section shall be applied against the cost of services prior to use of regional center funds for those services. This revenue shall not result in a reduction in the regional center's purchase of services budget, except as it relates to federal supplemental security income and the state supplementary program.

(c) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, regional centers shall not purchase any service that would otherwise be available from Medi-Cal, Medicare, the Civilian Health and Medical Program for Uniform Services, In-Home Support Services, California Children's Services, private insurance, or a health care service plan when a consumer or a family meets the criteria of this coverage but chooses not to pursue that coverage. If, on July 1, 2009, a regional center is purchasing that service as part of a consumer's individual program plan (IPP), the prohibition shall take effect on October 1, 2009.

(d) (1) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, a regional center shall not purchase medical or dental services for a consumer three years of age or older unless the regional center is provided with documentation of a Medi-Cal, private insurance, or a health care service plan denial and the regional center determines that an appeal by the consumer or family of the denial does not have merit. If, on July 1, 2009, a regional center is purchasing the service as part of a consumer's IPP, this provision shall take effect on August 1, 2009. Regional centers may pay for medical or dental services during the following periods:

(A) While coverage is being pursued, but before a denial is made.

(B) Pending a final administrative decision on the administrative appeal if the family has provided to the regional center a verification that an administrative appeal is being pursued.

(C) Until the commencement of services by Medi-Cal, private insurance, or a health care service plan.

(2) When necessary, the consumer or family may receive assistance from the regional center, the Clients' Rights Advocate funded by the department, or area boards on developmental disabilities in pursuing these appeals.

(e) This section shall not be construed to impose any additional liability on the parents of children with developmental disabilities, or to restrict eligibility for, or deny services to, any individual who qualifies for regional center services but is unable to pay.

(f) In order to best utilize generic resources, federally funded programs, and private insurance programs for individuals with developmental disabilities, the department and regional centers shall engage in the following activities:

(1) Within existing resources, the department shall provide training to regional centers, no less than once every two years, in the availability and requirements of generic, federally funded and private programs available to persons with developmental disabilities, including, but not limited to, eligibility requirements, the application process and covered services, and the appeal process.

(2) Regional centers shall disseminate information and training to all service coordinators regarding the availability and requirements of generic, federally funded and private insurance programs on the local level.

SEC. 16. Section 4677 of the Welfare and Institutions Code is amended to read:

4677. (a) (1) All parental fees collected by or for regional centers shall be remitted to the State Treasury to be deposited in the Developmental Disabilities Program Development Fund, which is hereby created and hereinafter called the Program Development Fund. The purpose of the Program Development Fund shall be to provide resources needed to initiate new programs, and to expand or convert existing programs. Within the context of, and consistent with, approved priorities for program development in the state plan, program development funds shall promote integrated residential, work, instructional, social, civic, volunteer, and recreational services and supports that increase opportunities for self-determination and maximum independence of persons with developmental disabilities. Notwithstanding any other provision of law or regulation to the contrary, commencing July 1, 2009, parental fees remitted to the State Treasury shall be deposited in accordance with Section 4784.

(2) In no event shall an allocation from the Program Development Fund be granted for more than 24 months.

(b) (1) The State Council on Developmental Disabilities shall, at least once every five years, request from all regional centers information on the types and amounts of services and supports needed, but currently unavailable.

(2) The state council shall work collaboratively with the department and the Association of Regional Center Agencies to develop standardized forms and protocols that shall be used by all regional centers and area boards in collecting and reporting this information. In addition to identifying services and supports that are needed, but currently unavailable, the forms and

protocols shall also solicit input and suggestions on alternative and innovative service delivery models that would address consumer needs.

(3) In addition to the information provided pursuant to paragraph (2), the state council may utilize information from other sources, including, but not limited to, public hearings, quality assurance assessments conducted pursuant to Section 4571, regional center reports on alternative service delivery submitted to the department pursuant to Section 4669.2, and the annual report on self-directed services produced pursuant to Section 4685.7.

(4) The department shall provide additional information, as requested by the state council.

(5) Based on the information provided by the regional centers and other agencies, the state council shall develop an assessment of the need for new, expanded, or converted community services and support, and make that assessment available to the public. The assessment shall include a discussion of the type and amount of services and supports necessary but currently unavailable including the impact on consumers with common characteristics, including, but not limited to, disability, specified geographic regions, age, and ethnicity, face distinct challenges. The assessment shall highlight alternative and innovative service delivery models identified through their assessment process.

(6) This needs assessment shall be conducted at least once every five years and updated annually. The assessment shall be included in the state plan and shall be provided to the department and to the appropriate committees of the Legislature. The assessment and annual updates shall be made available to the public. The State Council on Developmental Disabilities, in consultation with the department, shall make a recommendation to the Department of Finance as to the level of funding for program development to be included in the Governor's Budget, based upon this needs assessment.

(c) Parental fee schedules shall be evaluated pursuant to Section 4784 and adjusted annually, as needed, by the department, with the approval of the state council. The July 1, 2009, parental fee adjustment shall be exempt from this approval requirement. Fees for out-of-home care shall bear an equitable relationship to the cost of the care and the ability of the family to pay.

(d) In addition to parental fees and General Fund appropriations, the Program Development Fund may be augmented by federal funds available to the state for program development purposes, when these funds are allotted to the Program Development Fund in the state plan. The Program Development Fund is hereby appropriated to the department, and subject to any allocations that may be made in the annual Budget Act. In no event shall any of these funds revert to the General Fund.

(e) The department may allocate funds from the Program Development Fund for any legal purpose, provided that requests for proposals and allocations are approved by the state council in consultation with the department, and are consistent with the priorities for program development

in the state plan. Allocations from the Program Development Fund shall take into consideration the following factors:

(1) The future fiscal impact of the allocations on other state supported services and supports for persons with developmental disabilities.

(2) The information on priority services and supports needed, but currently unavailable, submitted by the regional centers.

Consistent with the level of need as determined in the state plan, excess parental fees may be used for purposes other than programs specified in subdivision (a) only when specifically appropriated to the State Department of Developmental Services for those purposes.

(f) Under no circumstances shall the deposit of federal moneys into the Program Development Fund be construed as requiring the State Department of Developmental Services to comply with a definition of “developmental disabilities” and “services for persons with developmental disabilities” other than as specified in subdivisions (a) and (b) of Section 4512 for the purposes of determining eligibility for developmental services or for allocating parental fees and state general funds deposited in the Program Development Fund.

SEC. 17. Section 4685 of the Welfare and Institutions Code is amended to read:

4685. (a) Consistent with state and federal law, the Legislature finds and declares that children with developmental disabilities most often have greater opportunities for educational and social growth when they live with their families. The Legislature further finds and declares that the cost of providing necessary services and supports which enable a child with developmental disabilities to live at home is typically equal to or lower than the cost of providing out-of-home placement. The Legislature places a high priority on providing opportunities for children with developmental disabilities to live with their families, when living at home is the preferred objective in the child’s individual program plan.

(b) It is the intent of the Legislature that regional centers provide or secure family support services that do all of the following:

(1) Respect and support the decisionmaking authority of the family.

(2) Be flexible and creative in meeting the unique and individual needs of families as they evolve over time.

(3) Recognize and build on family strengths, natural supports, and existing community resources.

(4) Be designed to meet the cultural preferences, values, and lifestyles of families.

(5) Focus on the entire family and promote the inclusion of children with disabilities in all aspects of school and community.

(c) In order to provide opportunities for children to live with their families, the following procedures shall be adopted:

(1) The department and regional centers shall give a very high priority to the development and expansion of services and supports designed to assist families that are caring for their children at home, when that is the preferred objective in the individual program plan. This assistance may

include, but is not limited to specialized medical and dental care, special training for parents, infant stimulation programs, respite for parents, homemaker services, camping, day care, short-term out-of-home care, child care, counseling, mental health services, behavior modification programs, special adaptive equipment such as wheelchairs, hospital beds, communication devices, and other necessary appliances and supplies, and advocacy to assist persons in securing income maintenance, educational services, and other benefits to which they are entitled.

(2) When children with developmental disabilities live with their families, the individual program plan shall include a family plan component which describes those services and supports necessary to successfully maintain the child at home. Regional centers shall consider every possible way to assist families in maintaining their children at home, when living at home will be in the best interest of the child, before considering out-of-home placement alternatives. When the regional center first becomes aware that a family may consider an out-of-home placement, or is in need of additional specialized services to assist in caring for the child in the home, the regional center shall meet with the family to discuss the situation and the family's current needs, solicit from the family what supports would be necessary to maintain the child in the home, and utilize creative and innovative ways of meeting the family's needs and providing adequate supports to keep the family together, if possible.

(3) (A) To ensure that these services and supports are provided in the most cost-effective and beneficial manner, regional centers may utilize innovative service-delivery mechanisms, including, but not limited to, vouchers; alternative respite options such as foster families, vacant community facility beds, crisis child care facilities; group training for parents on behavioral intervention techniques in lieu of some or all of the in-home parent training component of the behavioral intervention services; purchase of neighborhood preschool services and needed qualified personnel in lieu of infant development programs; and alternative child care options such as supplemental support to generic child care facilities and parent child care cooperatives.

(B) Effective July 1, 2009, at the time of development, review, or modification of a child's individualized family service plan or individual program plan, the regional center shall consider both of the following:

(i) The use of group training for parents on behavioral intervention techniques in lieu of some or all of the in-home parent training component of the behavioral intervention services.

(ii) The purchase of neighborhood preschool services and needed qualified personnel in lieu of infant development programs.

(4) If the parent of any child receiving services and supports from a regional center believes that the regional center is not offering adequate assistance to enable the family to keep the child at home, the parent may initiate a request for fair hearing as established in this division. A family shall not be required to start a placement process or to commit to placing a child in order to receive requested services.

(5) Nothing in this section shall be construed to encourage the continued residency of adult children in the home of their parents when that residency is not in the best interests of the person.

(6) When purchasing or providing a voucher for day care services for parents who are caring for children at home, the regional center may pay only the cost of the day care service that exceeds the cost of providing day care services to a child without disabilities. The regional center may pay in excess of this amount when a family can demonstrate a financial need and when doing so will enable the child to remain in the family home.

(7) A regional center may purchase or provide a voucher for diapers for children three years of age or older. A regional center may purchase or provide vouchers for diapers under three years of age when a family can demonstrate a financial need and when doing so will enable the child to remain in the family home.

SEC. 18. Section 4686 of the Welfare and Institutions Code is amended to read:

4686. (a) Notwithstanding any other provision of law or regulation to the contrary, an in-home respite worker who is not a licensed health care professional but who is trained by a licensed health care professional may perform incidental medical services for consumers of regional centers with stable conditions, after successful completion of training as provided in this section. Incidental medical services provided by trained in-home respite workers shall be limited to the following:

- (1) Colostomy and ileostomy: changing bags and cleaning stoma.
- (2) Urinary catheter: emptying and changing bags and care of catheter site.
- (3) Gastrostomy: feeding, hydration, cleaning stoma, and adding medication per physician's or nurse practitioner's orders for the routine medication of patients with stable conditions.

(b) In order to be eligible to receive training for purposes of this section, an in-home respite worker shall submit to the trainer proof of successful completion of a first aid course and successful completion of a cardiopulmonary resuscitation course within the preceding year.

(c) The training in incidental medical services required under this section shall be provided by physicians or registered nurses. Training in gastrostomy services shall be provided by a physician or registered nurse, or through a gastroenterology or surgical center in an acute care hospital, as defined in subdivision (a) of Section 1250 of the Health and Safety Code, which meets California Children Services' Program standards for centers for children with congenital gastrointestinal disorders, or comparable standards for adults, or by a physician or registered nurse who has been certified to provide training by the center.

(d) The in-home respite agency providing the training shall develop a training protocol which shall be submitted for approval to the State Department of Developmental Services. The department shall approve those protocols that specifically address both of the following:

(1) A description of the incidental medical services to be provided by trained in-home respite workers.

(2) A description of the protocols by which the training will be provided. Protocols shall include a demonstration of the following skills by the trainee:

(A) Care of the gastrostomy, colostomy, ileostomy, or urinary catheter site.

(B) Performance of gastrostomy tube feeding, changing bags and cleaning stoma of colostomy or ileostomy sites, and emptying and changing urinary catheter bags.

(C) Identification of, and appropriate response to, problems and complications associated with gastrostomy care and feeding, colostomy and ileostomy care, and care of urinary catheter sites.

(D) Continuing education requirements.

(e) Training by the gastroenterology or surgical center, or the certified physician or registered nurse, shall be done in accordance with the approved training protocol. Training of in-home respite workers shall be specific to the individual needs of the regional center consumer receiving the incidental medical service and shall be in accordance with orders from the consumer's treating physician or surgeon.

(f) The treating physician or surgeon shall give assurances to the regional center that the patient's condition is stable prior to the regional center's purchasing incidental medical services for the consumer through an appropriately trained respite worker.

(g) Prior to the purchase of incidental medical services through a trained respite worker, the regional center shall do all of the following:

(1) Ensure that a nursing assessment of the consumer, performed by a registered nurse, is conducted to determine whether an in-home respite worker, licensed vocational nurse, or registered nurse may perform the services.

(2) Ensure that a nursing assessment of the home has been conducted to determine whether incidental medical services can appropriately be provided in that setting.

(h) The agency providing in-home respite services shall do all of the following:

(1) Ensure adequate training of the in-home respite worker.

(2) Ensure that telephone backup and emergency consultation by a registered nurse or physician is available.

(3) Develop a plan for care specific to the incidental medical services provided to be carried out by the respite worker.

(4) Ensure that the in-home respite worker and the incidental medical services provided by the respite worker are adequately supervised by a registered nurse.

(i) Notwithstanding any other provision of law or regulation to the contrary, the hourly rate for an in-home respite agency shall be increased to provide a fifty cent (\$.50) per hour wage increase and an eight-cent (\$.08) per hour benefit increase for the hours the in-home respite agency is providing incidental medical services.

(j) To expand the availability of trained in-home respite agency staff, a regional center may reimburse the in-home respite agency up to two hundred dollars (\$200) semiannually, for the provision of training pursuant to subdivision (c).

(k) For purposes of this section, “in-home respite worker” means an individual employed by an agency which is vendored by a regional center to provide in-home respite services. These agencies include, but are not limited to, in-home respite services agencies, home health agencies, or other agencies providing these services.

SEC. 19. Section 4686.2 is added to the Welfare and Institutions Code, to read:

4686.2. (a) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, any vendor who provides applied behavioral analysis (ABA) services, or intensive behavioral intervention services or both, as defined in subdivision (d), shall:

(1) Conduct a behavioral assessment of each consumer to whom the vendor provides these services.

(2) Design an intervention plan that shall include the service type, number of hours and parent participation needed to achieve the consumer’s goals and objectives, as set forth in the consumer’s individual program plan (IPP) or individualized family service plan (IFSP). The intervention plan shall also set forth the frequency at which the consumer’s progress shall be evaluated and reported.

(3) Provide a copy of the intervention plan to the regional center for review and consideration by the planning team members.

(b) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, regional centers shall:

(1) Only purchase ABA services or intensive behavioral intervention services that reflect evidence-based practices, promote positive social behaviors, and ameliorate behaviors that interfere with learning and social interactions.

(2) Only purchase ABA or intensive behavioral intervention services when the parent or parents of minor consumers receiving services participate in the intervention plan for the consumers, given the critical nature of parent participation to the success of the intervention plan.

(3) Not purchase either ABA or intensive behavioral intervention services for purposes of providing respite, day care, or school services.

(4) Discontinue purchasing ABA or intensive behavioral intervention services for a consumer when the consumer’s treatment goals and objectives, as described under subdivision (a), are achieved. ABA or intensive behavioral intervention services shall not be discontinued until the goals and objectives are reviewed and updated as required in paragraph (5) and shall be discontinued only if those updated treatment goals and objectives do not require ABA or intensive behavioral intervention services.

(5) For each consumer, evaluate the vendor’s intervention plan and number of service hours for ABA or intensive behavioral intervention no less than every six months, consistent with evidence-based practices. If

necessary, the intervention plan's treatment goals and objectives shall be updated and revised.

(6) Not reimburse a parent for participating in a behavioral services treatment program.

(c) For consumers receiving ABA or behavioral intervention services on July 1, 2009, as part of their IPP or IFSP, subdivision (b) shall apply on August 1, 2009.

(d) For purposes of this section the following definitions shall apply:

(1) "Applied behavioral analysis" means the design, implementation, and evaluation of systematic instructional and environmental modifications to promote positive social behaviors and reduce or ameliorate behaviors which interfere with learning and social interaction.

(2) "Intensive behavioral intervention" means any form of applied behavioral analysis that is comprehensive, designed to address all domains of functioning, and provided in multiple settings for no more than 40 hours per week, across all settings, depending on the individual's needs and progress. Interventions can be delivered in a one-to-one ratio or small group format, as appropriate.

(3) "Evidence-based practice" means a decisionmaking process that integrates the best available scientifically rigorous research, clinical expertise, and individual's characteristics. Evidence-based practice is an approach to treatment rather than a specific treatment. Evidence-based practice promotes the collection, interpretation, integration, and continuous evaluation of valid, important, and applicable individual- or family-reported, clinically-observed, and research-supported evidence. The best available evidence, matched to consumer circumstances and preferences, is applied to ensure the quality of clinical judgments and facilitates the most cost-effective care.

(4) "Parent participation" shall include, but shall not be limited to, the following meanings:

(A) Completion of group instruction on the basics of behavior intervention.

(B) Implementation of intervention strategies, according to the intervention plan.

(C) If needed, collection of data on behavioral strategies and submission of that data to the provider for incorporation into progress reports.

(D) Participation in any needed clinical meetings.

(E) Purchase of suggested behavior modification materials or community involvement if a reward system is used.

SEC. 20. Section 4686.5 is added to the Welfare and Institutions Code, to read:

4686.5. (a) Effective July 1, 2009, notwithstanding any other provision of law or regulation to the contrary, all of the following shall apply:

(1) A regional center may only purchase respite services when the care and supervision needs of a consumer exceed that of an individual of the same age without developmental disabilities.

(2) A regional center shall not purchase more than 21 days of out-of-home respite services in a fiscal year nor more than 90 hours of in-home respite services in a quarter, for a consumer.

(3) (A) A regional center may grant an exemption to the requirements set forth in paragraphs (1) and (2) if it is demonstrated that the intensity of the consumer's care and supervision needs are such that additional respite is necessary to maintain the consumer in the family home, or there is an extraordinary event that impacts the family member's ability to meet the care and supervision needs of the consumer.

(B) For purposes of this section, "family member" means an individual who:

(i) Has a consumer residing with him or her.

(ii) Is responsible for the 24-hour care and supervision of the consumer.

(iii) Is not a licensed or certified residential care facility or foster family home receiving funds from any public agency or regional center for the care and supervision provided. Notwithstanding this provision, a relative who receives foster care funds shall not be precluded from receiving respite.

(4) A regional center shall not purchase day care services to replace or supplant respite services. For purposes of this section, "day care" is defined as regularly provided care, protection, and supervision of a consumer living in the home of his or her parents, for periods of less than 24 hours per day, while the parents are engaged in employment outside of the home or educational activities leading to employment, or both.

(5) A regional center shall only consider in-home supportive services a generic resource when the approved in-home supportive services meets the respite need as identified in the consumer's individual program plan (IPP) or individualized family service plan (IFSP).

(b) For consumers receiving respite services on July 1, 2009, as part of their IPP or IFSP, subdivision (a) shall apply on August 1, 2009.

(c) This section shall remain in effect until implementation of the individual choice budget pursuant to Section 4648.6 and certification by the Director of the Department of Developmental Services that the individual choice budget has been implemented and will result in state budget savings sufficient to offset the costs associated with the repeal of this section. This section shall be repealed on the date of certification.

SEC. 21. Section 4688.1 is added to the Welfare and Institutions Code, to read:

4688.1. (a) Notwithstanding any other provision of law or regulation to the contrary, vendors of behavior management, activity center, and adult development center day programs, social recreation programs, socialization training programs, community integration training programs, community activities support programs, creative art programs, and work activity programs shall offer an alternative senior program component focused on the needs of individuals with developmental disabilities who are over 50 years of age, at a rate not to exceed the lesser of thirty-five dollars (\$35) per day or the vendor's existing daily rate.

(1) The alternative senior program component shall be provided at a ratio of no more than eight consumers to one staff member.

(2) Consistent with the intent of the Lanterman Developmental Disabilities Services Act, the alternative senior program component shall be offered within the provider's existing vendored capacity as reflected in its program design or licensed capacity.

(b) Effective July 1, 2009, at the time of development, review, or modification of an eligible consumer's individual program plan, regional centers, as appropriate, shall provide information about and offer an alternative senior program. The alternative senior program shall be offered to eligible consumers who want to transition to a program component focused on the needs and interests of seniors.

SEC. 22. Section 4688.2 is added to the Welfare and Institutions Code, to read:

4688.2. (a) Notwithstanding any other provision of law or regulation to the contrary, vendors of behavior management, activity center, and adult development center adult day programs, community integration training programs, and community activities support services programs shall offer an alternative customized program component with an appropriate staffing component to meet individualized consumer needs.

(1) The alternative customized program component shall be offered within the provider's existing vendored capacity, as reflected in its program design or licensed capacity.

(2) The regional center shall fund customized programs based on the vendor's existing rate and only fund those hours provided.

(b) Effective July 1, 2009, at the time of development, review, or modification of a consumer's individual program plan, regional centers, as appropriate, shall provide information about and make available the customized program option.

(1) The alternative customized program component shall be offered to individuals with developmental disabilities who want a program focused on their individualized needs and interests to develop or maintain employment or volunteer activities in lieu of their current program.

(2) Total hours of service for this alternative customized program shall range between 20 and 80 hours per month, per person, depending on the support needs of the individual.

SEC. 23. Section 4688.3 is added to the Welfare and Institutions Code, to read:

4688.3. (a) The State Department of Health Care Services and the department shall jointly seek a federal Centers for Medicare and Medicaid Services' (CMS) approved 1915(i) state plan amendment to expand federal financial participation for services to persons with developmental disabilities provided by regional centers pursuant to Division 4.5 (commencing with Section 4500).

(b) Services provided pursuant to this section shall be rendered under the administrative direction of the department. The department may issue

program directives to regional centers for implementing the approved state plan amendment.

(c) If CMS approves the state plan amendment pursuant to Section 1915(i) of the Social Security Act, the Director of Health Care Services shall execute a declaration stating that this approval has been granted. The director shall retain the declaration and this section shall be implemented commencing on the date that the director executes a declaration pursuant to this subdivision.

(d) The department may adopt regulations to implement this section and any sections in Division 4.5 (commencing with Section 4500) necessary to implement the terms of the 1915(i) state plan amendment. The adoption, amendment, repeal, or readoption of a regulation authorized by this section is deemed to be necessary for the immediate preservation of the public peace, health and safety, or general welfare, for purposes of Sections 11346.1 and 11349.9 of the Government Code, and the department is hereby exempted from that requirement. For purposes of subdivision (e) of Section 11346.1 of the Government Code, the 120-day period, as applicable to the effective period of an emergency regulatory action and submission of specified materials to the Office of Administrative Law, is hereby extended to 180 days.

(e) The department shall adopt regulations to implement the terms of the 1915(i) state plan amendment through the regular rulemaking process pursuant to Sections 11346 and 11349.1 of the Government Code within 18 months of the adoption of emergency regulations pursuant to subdivision (d).

(f) The department shall consult with stakeholders, as defined in subdivision (k) of Section 4512.

(g) The State Department of Health Care Services shall post a copy of, or a link to, the approved state plan amendment and any State Department of Developmental Services regulations or program directives, or both, issued pursuant to this section on its Internet Web site.

SEC. 24. Section 4689 of the Welfare and Institutions Code is amended to read:

4689. Consistent with state and federal law, the Legislature places a high priority on providing opportunities for adults with developmental disabilities, regardless of the degree of disability, to live in homes that they own or lease with support available as often and for as long as it is needed, when that is the preferred objective in the individual program plan. In order to provide opportunities for adults to live in their own homes, the following procedures shall be adopted:

(a) The department and regional centers shall ensure that supported living arrangements adhere to the following principles:

(1) Consumers shall be supported in living arrangements which are typical of those in which persons without disabilities reside.

(2) The services or supports that a consumer receives shall change as his or her needs change without the consumer having to move elsewhere.

(3) The consumer's preference shall guide decisions concerning where and with whom he or she lives.

(4) Consumers shall have control over the environment within their own home.

(5) The purpose of furnishing services and supports to a consumer shall be to assist that individual to exercise choice in his or her life while building critical and durable relationships with other individuals.

(6) The services or supports shall be flexible and tailored to a consumer's needs and preferences.

(7) Services and supports are most effective when furnished where a person lives and within the context of his or her day-to-day activities.

(8) Consumers shall not be excluded from supported living arrangements based solely on the nature and severity of their disabilities.

(b) Regional centers may contract with agencies or individuals to assist consumers in securing their own homes and to provide consumers with the supports needed to live in their own homes.

(c) The range of supported living services and supports available include, but are not limited to, assessment of consumer needs; assistance in finding, modifying and maintaining a home; facilitating circles of support to encourage the development of unpaid and natural supports in the community; advocacy and self-advocacy facilitation; development of employment goals; social, behavioral, and daily living skills training and support; development and provision of 24-hour emergency response systems; securing and maintaining adaptive equipment and supplies; recruiting, training, and hiring individuals to provide personal care and other assistance, including in-home supportive services workers, paid neighbors, and paid roommates; providing respite and emergency relief for personal care attendants; and facilitating community participation. Assessment of consumer needs may begin before 18 years of age to enable the consumer to move to his or her own home when he or she reaches 18 years of age.

(d) Regional centers shall provide information and education to consumers and their families about supported living principles and services.

(e) Regional centers shall monitor and ensure the quality of services and supports provided to individuals living in homes that they own or lease. Monitoring shall take into account all of the following:

(1) Adherence to the principles set forth in this section.

(2) Whether the services and supports outlined in the consumer's individual program plan are congruent with the choices and needs of the individual.

(3) Whether services and supports described in the consumer's individual program plan are being delivered.

(4) Whether services and supports are having the desired effects.

(5) Whether the consumer is satisfied with the services and supports.

(f) The planning team, established pursuant to subdivision (j) of Section 4512, for a consumer receiving supported living services shall confirm that all appropriate and available sources of natural and generic supports have been utilized to the fullest extent possible for that consumer.

(g) Regional centers shall utilize the same supported living provider for consumers who reside in the same domicile, provided that each individual consumer's particular needs can still be met pursuant to his or her individual program plans.

(h) Rent, mortgage, and lease payments of a supported living home and household expenses shall be the responsibility of the consumer and any roommate who resides with the consumer.

(i) A regional center shall not make rent, mortgage, or lease payments on a supported living home, or pay for household expenses of consumers receiving supported living services, except under the following circumstances:

(1) If all of the following conditions are met, a regional center may make rent, mortgage, or lease payments as follows:

(A) The regional center executive director verifies in writing that making the rent, mortgage, or lease payments or paying for household expenses is required to meet the specific care needs unique to the individual consumer as set forth in an addendum to the consumer's individual program plan, and is required when a consumer's demonstrated medical, behavioral, or psychiatric condition presents a health and safety risk to himself or herself, or another.

(B) During the time period that a regional center is making rent, mortgage, or lease payments, or paying for household expenses, the supported living services vendor shall assist the consumer in accessing all sources of generic and natural supports consistent with the needs of the consumer.

(C) The regional center shall not make rent, mortgage, or lease payments on a supported living home or pay for household expenses for more than six months, unless the regional center finds that it is necessary to meet the individual consumer's particular needs pursuant to the consumer's individual program plan. The regional center shall review a finding of necessity on a quarterly basis and the regional center executive director shall annually verify in an addendum to the consumer's individual program plan that the requirements set forth in subparagraph (A) continue to be met.

(2) A regional center that has been contributing to rent, mortgage, or lease payments or paying for household expenses prior to July 1, 2009, shall at the time of development, review, or modification of a consumer's individual program plan determine if the conditions in paragraph (1) are met. If the planning team determines that these contributions are no longer appropriate under this section, a reasonable time for transition, not to exceed six months, shall be permitted.

(j) All paid roommates and live-in support staff in supported living arrangements in which regional centers have made rent, mortgage, or lease payments, or have paid for household expenses pursuant to subdivision (i) shall pay their share of the rent, mortgage, or lease payments or household expenses for the supported living home, subject to the requirements of Industrial Welfare Commission Order No. 15-2001 and the Housing Choice Voucher Program, as set forth in Section 1437f of Title 42 of the United States Code.

(k) Regional centers shall ensure that the supported living services vendors' administrative costs are necessary and reasonable, given the particular services that they are providing and the number of consumers to whom the vendor provides services. Administrative costs shall be limited to allowable costs for community-based day programs, as defined in Section 57434 of Title 17 of the California Code of Regulations, or its successor.

(l) Regional centers shall ensure that the most cost-effective of the rate methodologies is utilized to determine the negotiated rate for vendors of supported living services, consistent with Section 4689.8 and Title 17 of the California Code of Regulations.

(m) For purposes of this section, "household expenses" means general living expenses and includes, but is not limited to, utilities paid and food consumed within the home.

(n) A supported living services provider shall provide assistance to a consumer who is a Medi-Cal beneficiary in applying for in-home supportive services, as set forth in Section 12300, within five days of the consumer moving into a supported living services arrangement.

SEC. 25. Section 4689.05 is added to the Welfare and Institutions Code, to read:

4689.05. (a) A regional center shall not purchase supportive services, as defined in Section 12300, for a consumer who meets the criteria to receive, but declines to apply for, in-home supportive services (IHSS) benefits, as set forth in Section 12300, except as set forth in subdivision (d).

(b) Consistent with Section 4648, a regional center shall not purchase supported living services for a consumer to supplant IHSS.

(c) Between the date that a consumer applies for IHSS and the date that a consumer's application for IHSS is approved, a regional center shall not purchase supportive services for the consumer at a rate that exceeds the IHSS hourly rate, which includes the IHSS provider hourly wage, the provider's hourly payroll taxes, and the hourly administrative costs, for the county in which the consumer resides.

(d) A regional center executive director may waive the requirements set forth in subdivision (a) if the executive director finds that extraordinary circumstances warrant the waiver, and that a finding is documented in an addendum to the consumer's individual program plan.

SEC. 26. Section 4692 is added to the Welfare and Institutions Code, to read:

4692. (a) Effective August 1, 2009, subject to subdivisions (c) and (e), regional centers shall not compensate a work activity program, activity center, adult development center, behavior management program, social recreation program, adaptive skills trainer, infant development program, program support group (day service), socialization training program, client/parent support behavior intervention training program, community integration training program, community activities support service, or creative arts program, as defined in Title 17 of the California Code of Regulations, for providing any service to a consumer on any of the following holidays:

- (1) January 1.
- (2) The third Monday in January.
- (3) The third Monday in February.
- (4) March 31.
- (5) The last Monday in May.
- (6) July 4.
- (7) The first Monday in September.
- (8) November 11.
- (9) Thanksgiving Day.
- (10) December 25.
- (11) The four business days between December 25 and January 1.

(b) Effective August 1, 2009, subject to subdivisions (c) and (e), regional centers shall not compensate a transportation vendor/family member, transportation company, transportation/additional component vendor, transportation broker, transportation assistant/vendor, transportation vendor/auto driver, or transportation vendor/public or rental car agency or taxi, in accordance with Title 17 of the California Code of Regulations, for transporting any consumer to receive services from any of the vendors specified in subdivision (a) for any of the holidays set forth in paragraphs (1) to (11), inclusive, of subdivision (a).

(c) If a holiday listed in this section falls on a Saturday or a Sunday, the following Monday shall be deemed to be the holiday in lieu of the day observed.

(d) Contracts between the vendors described in this section and regional centers shall reflect the holiday closures set forth in this section and shall be renegotiated accordingly, as necessary.

(e) The department may adjust the holidays set forth in subdivision (a) through a program directive. This directive shall be provided to the regional centers and posted on the department's Internet Web site at least 60 days prior to the effective date of the change in holiday.

SEC. 27. Section 4784 of the Welfare and Institutions Code is amended to read:

4784. (a) The Director of Developmental Services shall establish, annually review, and adjust as needed, a schedule of parental fees for services received through the regional centers. Effective July 1, 2009, this schedule shall be revised to reflect changes in economic conditions that affect parents' ability to pay the fee, but not to exceed an inflationary factor as determined by the department.

(b) The parental fee schedule established pursuant to this section shall be exempt from Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) In establishing the amount parents shall pay, the director shall take into account all of the following factors:

(1) The current cost of caring for a child at home, as determined by the most recent data available from the United States Department of Agriculture's survey on the cost of raising a child in California, adjusted

for the Consumer Price Index (CPI) from the survey date to the date of payment adjustment.

(2) Medical expenses incurred prior to regional center care.

(3) Whether the child is living at home.

(4) Parental payments for medical expenses, clothing, incidentals, and other items considered necessary for the normal rearing of a child.

(5) Transportation expenses incurred in visiting a child.

(d) The parental fee schedule shall exempt families with an income below the federal poverty level from assessment and payment of the parental fee.

(e) (1) The adjusted fee shall be assessed in full for children, when the out-of-home placement commences on or after July 1, 2009.

(2) For children placed out-of-home prior to July 1, 2009, the department shall determine the increase in the parental fee above the amount assessed using the fee schedule in effect on June 30, 2009. This fee increase shall be implemented over three years, with one-third of the increase added to the fee on July 1, 2009, one-third of the increase added to the fee on July 1, 2010, and the final third added to the fee on July 1, 2011.

(f) Notwithstanding any other provision of law or regulation to the contrary, commencing July 1, 2009, all fees collected shall be remitted to the State Treasury to be deposited as follows:

(1) Fees collected up to the amount that would be assessed using the fee schedule in effect on June 30, 2009, shall be deposited into the Program Development Fund established in Chapter 6 (commencing with Section 4670) to provide resources needed to initiate new programs, consistent with approved priorities for program development in the state plan.

(2) Fees collected using the July 1, 2009, schedule that are greater than the amount that would have been assessed using the fee schedule in effect on June 30, 2009, shall be deposited into the Program Development Fund and shall be available for expenditure by the department to offset General Fund costs.

SEC. 28. Section 7502.5 of the Welfare and Institutions Code is amended to read:

7502.5. The total number of developmental center residents in the secure treatment facility at Porterville Developmental Center, including those residents receiving services in the Porterville Developmental Center transition treatment program, shall not exceed 297.

SEC. 29. (a) The State Department of Developmental Services shall provide information to the Assembly Committee on Budget and the Senate Committee on Budget and Fiscal Review during budget hearings for the 2010–11 fiscal year regarding the effect on the developmental service system of the specific cost containment measures implemented to achieve up to three hundred thirty-four million dollars (\$334,000,000) in General Fund reductions for the 2009–10 fiscal year pursuant to Item 4300-101-0001 of Section 2.00 of the Budget Act of 2009.

(b) The department shall continue to convene, as appropriate, a stakeholder review process to obtain information and comments about implementation of the cost containment measures and their effect on the

developmental service system. The stakeholder review process shall include statewide organizations representing the interests of consumers, family members, service providers, and statewide advocacy organizations, as well as policy and fiscal staff of the Legislature.

SEC. 30. This act addresses the fiscal emergency declared by the Governor by proclamation on July 1, 2009, pursuant to subdivision (f) of Section 10 of Article IV of the California Constitution.

SEC. 31. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the necessary statutory changes to implement the Budget Act of 2009 at the earliest possible time, it is necessary that this act take effect immediately.
