### LEGISLATIVE COUNSEL'S DIGEST

AB 1011, as amended, Jones. Office of Health Information Integrity: report.

Existing federal law, the Health Insurance Portability and Accountability Act of 1996 (HIPAA), extends health coverage benefits to workers after they terminate coverage plans. Existing state law, to become inoperative on July 1, 2010, establishes the Office of HIPAA Implementation to, among other things, assume statewide leadership, coordination, direction, and oversight responsibilities for determining which provisions of state law concerning medical information are preempted by HIPAA.

Existing law establishes the Office of Health Information Integrity within the California Health and Human Services Agency to ensure the enforcement of state law mandating confidentiality of medical information and to impose administrative fines for the unauthorized use of medical information.

This bill would require the Office of Health Information Integrity, by April 1, 2010, to report to the *appropriate policy and fiscal committees of the* Legislature on the impact of federal changes related

to health care technology and the privacy of health and medical information, ~~including recommendations for statutory changes~~ information.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.
