

## Assembly Bill No. 1368

### CHAPTER 528

An act to amend Section 1596.866 of the Health and Safety Code, relating to child day care.

[Approved by Governor October 11, 2009. Filed with  
Secretary of State October 11, 2009.]

#### LEGISLATIVE COUNSEL'S DIGEST

AB 1368, Adams. Child day care: safety.

Under existing law, the State Department of Public Health licenses and regulates child day care centers and family day care homes. Existing law requires day care center directors and licensees of large family day care homes to ensure that at least one staff member who has a current course completion in pediatric first aid and pediatric CPR, as specified, is onsite when children are present and is present with the children when they are offsite for facility activities. Willful or repeated violation of these provisions is a misdemeanor.

This bill would make the above provision applicable to all family day care homes. By enlarging the scope of an existing crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

*The people of the State of California do enact as follows:*

SECTION 1. Section 1596.866 of the Health and Safety Code is amended to read:

1596.866. (a) (1) In addition to other required training, at least one director or teacher at each day care center, and each family day care home licensee who provides care, shall have at least 15 hours of health and safety training.

(2) The training shall include the following components:

(A) Pediatric first aid.

(B) Pediatric cardiopulmonary resuscitation (CPR).

(C) A preventative health practices course or courses that include instruction in the recognition, management, and prevention of infectious diseases, including immunizations, and prevention of childhood injuries.

(3) The training may include instruction in sanitary food handling, child nutrition, emergency preparedness and evacuation, caring for children with special needs, and identification and reporting of signs and symptoms of child abuse.

(b) Day care center directors and licensees of family day care homes shall ensure that at least one staff member who has a current course completion card in pediatric first aid and pediatric CPR issued by the American Red Cross, the American Heart Association, or by a training program that has been approved by the Emergency Medical Services Authority pursuant to this section and Section 1797.191, shall be onsite at all times when children are present at the facility, and shall be present with the children when children are offsite from the facility for facility activities. Nothing in this subdivision shall be construed to require, in the event of an emergency, additional staff members, who are onsite when children are present at the facility, to have a current course completion card in pediatric first aid and pediatric CPR.

(c) (1) The completion of health and safety training by all personnel and licensees described in subdivision (a) shall be a condition of licensure.

(2) Training in pediatric first aid and pediatric CPR by persons described in subdivisions (a) and (b) shall be current at all times. Training in preventive health practices as described in subparagraph (C) of paragraph (2) of subdivision (a) is a one-time-only requirement for persons described in subdivision (a).

(3) The department shall issue a provisional license for otherwise qualified applicants who are not in compliance with this section. This provisional license shall expire 90 days after the date of issuance and shall not be extended.

(4) A notice of deficiency shall be issued by the department at the time of a site visit to any licensee who is not in compliance with this section. The licensee shall, at the time the notice is issued, develop a plan of correction to correct the deficiency within 90 days of receiving the notice. The facility's license may be revoked if it fails to correct the deficiency within the 90-day period. Section 1596.890 shall not apply to this paragraph.

(d) Completion of the training required pursuant to subdivisions (a) and (b) shall be demonstrated, upon request of the licensing agency, by the following:

(1) Current pediatric first aid and pediatric CPR course completion cards issued by the American Red Cross, the American Heart Association, or by a training program approved by the Emergency Medical Services Authority pursuant to Section 1797.191.

(2) (A) A course completion card for a preventive health practices course or courses as described in subparagraph (C) of paragraph (2) of subdivision (a) issued by a training program approved by the Emergency Medical Services Authority pursuant to Section 1797.191.

(B) Persons who, prior to the date on which the amendments to this section enacted in 1998 become operative, have completed a course or courses in preventive health practices as described in subparagraph (C) of

paragraph (2) of subdivision (a), and have a certificate of completion of a course or courses in preventive health practices, or certified copies of transcripts that identify the number of hours and the specific course or courses taken for training in preventive health practices, shall be deemed to have met the training in preventive health practices.

(3) In addition to training programs specified in paragraphs (1) and (2), training programs or courses in pediatric first aid, pediatric CPR, and preventive health practices offered or approved by an accredited college or university are considered to be approved sources of training that may be used to satisfy the training requirements of paragraph (2) of subdivision (a). Completion of this training shall be demonstrated to the licensing agency by a certificate of course completion, course completion cards, or certified copies of transcripts that identify the number of hours and the specified course or courses taken for the training as defined in paragraph (2) of subdivision (a).

(e) The training required under subdivision (a) shall not be provided by a home study course. This training may be provided through in-service training, workshops, or classes.

(f) All personnel and licensees described in subdivisions (a) and (b) shall maintain current course completion cards for pediatric first aid and pediatric CPR issued by the American Red Cross, the American Heart Association, or by a training program approved by the Emergency Medical Services Authority pursuant to Section 1797.191, or shall have current certification in pediatric first aid and pediatric CPR from an accredited college or university in accordance with paragraph (3) of subdivision (d).

(g) The department shall have the authority to grant exceptions to the requirements imposed by this section in order to meet the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.).

(h) The department shall adopt regulations to implement this section.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.
