AMENDED IN ASSEMBLY MARCH 18, 2010

No. 1713

Introduced by Assembly Member Furutani

February 2, 2010

An act to amend Sections 48800, 66725.3, 76002, and 84760.5 of, and to repeal ~~Sections~~ *Section* 10701 and ~~89343~~ of, the Education Code, relating to public education.

LEGISLATIVE COUNSEL'S DIGEST

AB 1713, as amended, Furutani. Public education: reporting requirements.

(1) The California Constitution provides for the election of the Superintendent of Public Instruction, and existing statutory law prescribes the Superintendent's powers and duties. Existing law also establishes the segments of the public postsecondary education system in the state, which include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

Existing law requires the Chancellor of the California Community Colleges and the Superintendent to convene a working group of adult education and data experts to review adult education and noncredit instruction data systems and to report on the feasibility, design, and cost of a common data set in adult education.

This bill would delete ~~these requirements~~ *that requirement*.

(2) Existing law authorizes a school district to authorize pupils to attend a community college as special part-time or full-time students, and authorizes the principal of a school to recommend a pupil for a community college summer session only if the pupil meets prescribed criteria. Existing law, until January 1, 2014, requires the Chancellor of the California Community Colleges to report, on or before November 1, 2007, and by January 1 of each year thereafter, to the Department of Finance the number of pupils recommended for a summer session that enroll in summer session courses and receive a passing grade.

This bill instead, would, require the chancellor to provide the report by March 1 of each year and would authorize the information in that report to be consolidated with another specified report.

(3) Existing law requires the board of governors and the trustees, and requests the regents, by June 30, 2006, to *adopt a common course numbering system for the 20 highest demand majors in the respective segments, and to report on the status of activities in their respective segments* relating to the adoption of a common course numbering system by June 30, 2006. Existing law requires each campus of a public postsecondary educational institution to incorporate the common course numbering system in its catalog at the next adoption of a campus catalog after June 1, 2006.

This bill would delete ~~that requirement and request~~ *extend the due date for adopting and incorporating a common course numbering system to June 1, 2011, and to June 30, 2011, for the status report*.

(4) Existing law requires the Chancellor of the Community Colleges to prepare and submit to the Department of Finance and the Legislature, on or before March 1, 2004, and March 1 of each year thereafter, a report on the amount of full-time equivalent students claimed by each community college district for special part-time and special full-time students for the preceding academic year in specified class categories.

This bill would authorize information required by another specified report to be consolidated with this report.

~~(4)~~

(5) Existing law requires the Chancellor of the California Community Colleges to prepare and submit to the Department of Finance and the Legislature, by May 1 of each year, a specified report on career development and college preparation classes that are eligible for apportionment funding.

This bill would change the due date of that report from May 1 of each year to July 1 of each year.

~~(5) Existing law requires the trustees and the board of governors to evaluate the extent to which their current programs are meeting the needs of foster youth and how outreach and retention services can be improved.~~

~~This bill would delete that requirement.~~
