An act to amend Sections ~~1274, 5200~~, 1266, 1274, 1510, 5200, 15235, 35331, 35534, and 35542 of the Education Code, relating to education.

LEGISLATIVE COUNSEL'S DIGEST

AB 2081, as amended, Committee on Education. Education.

(1) Existing law *requires the county superintendent of schools, upon the request of the governing board of a school district within his or her jurisdiction that elects to take advantage of specified provisions of law, to transfer a specified sum from the general fund of the school district to the school maintenance and repair fund.*

*This bill would delete obsolete cross-references relating to these provisions and would make technical changes.*

(2) Existing law authorizes a county superintendent of schools to establish a fund or funds for losses and payments, including, but not limited to, property of the superintendent, any liability, and workers' compensation, in the county treasury for the purpose of covering the deductible amount under deductible types of insurance policies, losses or payments arising from self-insurance programs, or losses or payments due to noninsured perils. Existing law specifies that these provisions do not preclude a county superintendent from providing protection

against those losses and liability partly by means of insurance written by acceptable insurers.

This bill would delete an obsolete cross-reference relating to insurance and would make technical changes.

*(3) Existing law requires that all expenses necessary for the county board of education, the county committee on school district organization, and the county superintendent of schools, to comply with certain provisions of law, are payable from the county general fund, except as specified.*

*This bill would delete an obsolete cross-reference relating to these provisions.*

~~(2)~~

*(4) Existing law requires a unified school district that is coterminous with or includes within its boundaries a chartered city or city and county to be governed by the board of education provided for in the charter of the city or city and county. Existing law exempts such a unified school district from certain provisions of law, except as specified.*

This bill would delete an obsolete cross-reference relating to these provisions and would make technical changes.

*(5) Existing law requires that certain school funds be transferred to the special reserve fund of a school district, or designated building fund of a community college district, and be used only for specified purposes.*

*This bill would delete obsolete cross-references relating to these provisions.*

*(6) Existing law authorizes the governing board of a school district or the county superintendent of schools of a county to, among other things, conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or school band activities.*

*This bill would delete an obsolete cross-reference relating to these provisions.*

~~(3)~~

*(7) Existing law provides that any action to reorganize a school district shall be effective for all purposes on July 1 of the calendar year following the calendar year in which the action is completed, except as specified.*

This bill would correct an erroneous cross-reference relating to these provisions.

~~(4)~~

(8) Existing law provides that whenever the boundaries of an elementary school district and a high school district become coterminous, the districts are merged into a new unified district. Existing law authorizes an elementary school district that has boundaries within a high school district to be excluded from an action to unify those districts if the governing board receives approval from the State Board of Education.

This bill would instead authorize an elementary school district that has boundaries within a high school district to be excluded from an action to unify those districts if the governing board receives approval from the county committee, if specified conditions are met, or from the state board if these conditions are not met.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

*The people of the State of California do enact as follows:*

1     SECTION 1. Section 1266 of the Education Code is amended  
2 to read:

3     1266. Whenever the county superintendent of schools of any  
4 county provides for the maintenance and repair of the property of  
5 ~~such~~ any school districts under his or her jurisdiction ~~as~~ that elect  
6 to take advantage of the provisions of Sections ~~1264~~ 1267 to 1270,  
7 inclusive, he or she shall, upon the request of the governing board  
8 of ~~any such~~ that district, transfer from the general fund of the  
9 district to the “school maintenance and repair fund” a sum not to  
10 exceed 1 percent of the amount apportioned from the State School  
11 Fund to the district during the fiscal year in which the governing  
12 board of the district notifies him or her of its election to take  
13 advantage of the provisions of Sections ~~1264~~ 1267 to 1270,  
14 inclusive.

15     SECTION 1.

16     SEC. 2. Section 1274 of the Education Code is amended to  
17 read:

18     1274. The county superintendent of schools may establish a  
19 fund or funds for losses, and payments, including, but not limited  
20 to, property of the county superintendent of schools, any liability,  
21 and workers’ compensation, in the county treasury for the purpose  
22 of covering the deductible amount under deductible types of  
23 insurance policies, losses or payments arising from self-insurance

1 programs, or losses or payments due to noninsured perils. In the  
2 fund or funds shall be placed such sums, to be provided in the  
3 budget of the county superintendent of schools, as will create an  
4 amount which, together with investments made from the fund or  
5 funds, will be sufficient in the judgment of the county  
6 superintendent of schools to protect the county superintendent of  
7 schools from those losses or to provide for payments on the  
8 deductible amount under deductible types of insurance policies,  
9 losses or payments arising from self-insurance programs, or losses  
10 or payments due to noninsured perils. Nothing in this section shall  
11 be construed as prohibiting the county superintendent of schools  
12 from providing protection against those losses or liability for the  
13 payment of claims partly by means of the fund or funds and partly  
14 by means of insurance written by acceptable insurers.

15 The fund or funds shall be considered as separate and apart from  
16 all other funds of the county superintendent of schools, and the  
17 balance therein shall not be considered as being part of the working  
18 cash of the county superintendent of schools in compiling annual  
19 budgets.

20 Warrants may be drawn on, or transfers made from, the fund or  
21 funds so created only to reimburse or indemnify the county  
22 superintendent of schools for losses as herein specified, and for  
23 the payment of claims, administrative costs, related services, and  
24 to provide for deductible insurance amounts and purchase of excess  
25 insurance. The warrants or transfers shall be within the purpose  
26 of the fund or funds as established by the county superintendent  
27 of schools.

28 The cash placed in the fund or funds may be invested and  
29 reinvested by the county treasurer, with the advice and consent of  
30 the county superintendent of schools, in securities which are legal  
31 investments for surplus county funds in this state. The income  
32 derived from the investments, together with interest earned on  
33 uninvested funds, shall be considered revenue of and be deposited  
34 in the fund. The cost of contracts or services authorized by this  
35 section are appropriate charges against the respective fund.

36 The county superintendent of schools may contract for  
37 investigative, administrative, and claims adjustment services  
38 relating to claims. The contract may provide that the contracting  
39 firm may reject, settle, compromise, and approve claims against  
40 the county superintendent of schools, its officers or employees,

1 within those limits and for those amounts as the county  
2 superintendent of schools may specify, and may provide that the  
3 contracting firm may execute and issue checks in payment of those  
4 claims, which checks shall be payable only from a trust account  
5 which may be established by the county superintendent of schools.  
6 Funds in the trust account established by the county superintendent  
7 of schools pursuant to the provisions of this section shall not exceed  
8 a sum sufficient as determined by the superintendent to provide  
9 for the settlement of claims for a 30-day period. The rejection or  
10 settlement and approval of a claim by the contracting firm in  
11 accordance with the terms of the contract shall have the same effect  
12 as would the rejection or settlement and approval of the claim by  
13 the county superintendent of schools. The contract may also  
14 provide that the contracting firm may employ legal counsel, subject  
15 to those terms and limitations as the county superintendent of  
16 schools may prescribe, to advise the contracting firm concerning  
17 the legality and advisability of rejecting, settling, compromising,  
18 and paying claims referred to the contracting firm by the county  
19 superintendent of schools for investigation and adjustment, or to  
20 represent the superintendent in litigation concerning the claims.  
21 The compensation and expenses of the attorney for services  
22 rendered to the county superintendent of schools shall be an  
23 appropriate charge against the appropriate fund.

24 The contract provided for in this section may contain any other  
25 terms and conditions the county superintendent of schools may  
26 consider necessary or desirable to effectuate the superintendent's  
27 self-insured programs.

28 In lieu of, or in addition to, contracting for the services described  
29 in this section, the county superintendent of schools may authorize  
30 an employee or employees to perform any or all of the services  
31 and functions which the county superintendent of schools may  
32 contract for under the provisions of this section.

33 As used in this section, "firm" includes a person, corporation,  
34 or other legal entity.

35 A county superintendent of schools may participate in, or  
36 administer, insurance for one or more school or community college  
37 districts pursuant to this section, and Section 81602.
