[Approved by Governor October 11, 2009. Filed with
Secretary of State October 11, 2009.]

LEGISLATIVE COUNSEL'S DIGEST

SB 19, Simitian. Education data.
(1) Existing law establishes the California Education Information System, which consists of the California Longitudinal Pupil Achievement Data System (CALPADS) and the California Longitudinal Teacher Integrated Data Education System (CALTIDES). Existing law requires that data elements and codes included in the California Education Information System be maintained in compliance with specified provisions of law.

This bill would additionally require that data elements and codes included in the California Education Information System be maintained in compliance with any other applicable federal or state law that can be interpreted as protecting the privacy and confidentiality of individual pupils or certificated personnel.

(2) Existing law prohibits data in CALTIDES from being used either solely or in conjunction with data from CALPADS for purposes of pay, promotion, sanction, or personnel evaluation of an individual teacher or groups of teachers, or any other employment decisions related to individual teachers.

This bill would delete this prohibition. The bill would prohibit data in CALTIDES from being used in violation of any federal or state law that is intended to protect an individual’s right to privacy or the confidentiality of an individual’s personal information.

(3) Existing law requires the State Chief Information Officer to convene a working group representing specified entities to create a strategic plan to link education data systems and to accomplish specified objectives relating to the accessibility of education data. The State Chief Information Officer is required to deliver this strategic plan to the Legislature and the Governor no later than September 1, 2009.

This bill would require the plan to identify specific procedures and policies that would facilitate the sharing and transfer of data, and would change the date the plan is required to be delivered to the Legislature and the Governor to January 1, 2010. The bill additionally would authorize these provisions to be implemented using federal grant funds received pursuant to the American Recovery and Reinvestment Act of 2009 through that act's
provision of funds for statewide data systems under the federal Education
Technical Assistance Act.
(4) Existing law requires the State Department of Education under
CALPADS to contract for the development of proposals that will provide
for the retention and analysis of longitudinal pupil achievement data. Existing
law requires local educational agencies to retain individual pupil records
for each test taker, including other data elements deemed necessary by the
Superintendent, with approval of the State Board of Education, to comply
with federal reporting requirements delineated in the federal No Child Left

This bill would, prior to the implementation of these provisions with
respect to adding data elements to CALPADS for the purpose of complying
with the American Recovery and Reinvestment Act of 2009, require the
department to submit an expenditure plan to the Department of Finance, as
specified. The bill would require the Department of Finance to provide to
the Joint Legislative Budget Committee a copy of the plan within 10 days
of receipt.

The bill also would make technical and clarifying changes.

The people of the State of California do enact as follows:

include linkages to workforce data.

(c) The strategic plan shall be delivered by the State Chief Information
Officer to the Legislature and the Governor on or before January 1, 2010.
