

AMENDED IN SENATE MAY 6, 2009
AMENDED IN SENATE APRIL 13, 2009

SENATE BILL

No. 183

Introduced by Senator Lowenthal

February 17, 2009

An act to amend Sections 1102.6 and 1102.6d of the Civil Code, and to add Sections 17926, 17926.1, and ~~17926.3~~ 17926.2 to, and to add Chapter 8 (commencing with Section 13260) to Part 2 of Division 12 of, the Health and Safety Code, relating to residential building safety.

LEGISLATIVE COUNSEL'S DIGEST

SB 183, as amended, Lowenthal. Residential building safety.

(1) Existing law requires certain transferors of real property improved with 1 to 4, ~~inclusive~~, dwelling units, as well as transferors of mobilehomes and manufactured homes, to make specified disclosures to prospective transferees regarding the characteristics of the property and prescribes forms for the purpose of making these disclosures. Existing law requires the transferor of real property containing a single-family dwelling to provide transferees written notice of compliance with specified requirements for the installation of smoke detectors. Existing law requires the seller of any real property containing a water heater to certify in writing to a prospective purchaser compliance with specified safety requirements related to those water heaters.

This bill would revise the disclosure forms, described above, to provide a seller certification that the property, at the close of escrow, will be in compliance with the requirements for smoke detectors and water heaters, described above, and to remove these provisions from elsewhere in the forms. The bill would also revise the disclosure forms to add a disclosure regarding carbon monoxide devices and a statement

specifying that installation of a listed appliance, device, or amenity is not a precondition to sale or transfer.

Existing law requires the State Fire Marshal to adopt regulations and standards regarding the quality and installation of burglar bars and safety release mechanisms for emergency escape and rescue windows, the approval and installation of smoke detectors, and the approval of portable fire extinguishers for marketing, distribution, and sale in this state. Existing law requires a smoke detector approved and listed by the State Fire Marshal to be installed in a dwelling unit intended for human occupancy. The State Housing Law creates standards for buildings used for human habitation. A violation of that law is a misdemeanor.

This bill would enact the Carbon Monoxide Poisoning Prevention Act of 2009. This bill would require the State Fire Marshal to certify and approve carbon monoxide devices for the use in dwelling units intended for human occupancy, as defined. The bill would require the State Fire Marshal to charge an appropriate fee to the manufacturer of a carbon monoxide device to cover the costs associated with the approval and listing of carbon monoxide devices and the costs of the Department of Housing and Community Development for the development and proposal of building standards. The bill would prohibit the marketing, distribution, or sale of devices that do not meet these standards. The bill would require a carbon monoxide device to be installed in a dwelling unit intended for human occupancy, as specified, and would generally provide that a violation of these provisions is an infraction punishable by a maximum fine of \$200 for each offense, but the bill would require that a property owner receive a 30-day notice to correct prior to the imposition of the fine. By creating a new crime, this bill would create a state-mandated local program. The bill would provide that a transfer of title is not invalidated on the basis of a failure to comply with these requirements, and that the exclusive remedy for the failure to comply is an award of actual damages not to exceed \$100, exclusive of any court costs and attorney's fees.

This bill would require an owner or the owner's agent of a dwelling unit intended for human occupancy who rents or leases ~~space~~ *the dwelling unit* to a tenant to maintain carbon monoxide devices in that dwelling unit. The bill would permit the owner or the owner's agent to enter that dwelling unit to install, repair, test, and maintain carbon monoxide devices, as specified. The bill would permit the Department of Housing and Community Development, after consultation with the

State Fire Marshal, to develop and propose building standards ~~consistent with the bill's provisions~~ *to require installation of carbon monoxide devices in dwellings intended for human occupancy.* The bill would permit the Department of Housing and Community Development to suspend enforcement of certain requirements on property owners if the department, in consultation with the State Fire Marshal, determines that a sufficient amount of tested and approved carbon monoxide devices are not available, and would require the department to publicize this decision, as specified. The bill would also make a statement of legislative findings.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 1102.6 of the Civil Code is amended to
2 read:

3 1102.6. The disclosures required by this article pertaining to
4 the property proposed to be transferred are set forth in, and shall

1 SEC. 3. Chapter 8 (commencing with Section 13260) is added
2 to Part 2 of Division 12 of the Health and Safety Code, to read:

3
4 CHAPTER 8. CARBON MONOXIDE POISONING PREVENTION ACT
5 OF 2009
6

7 13260. This chapter shall be known and may be cited as the
8 Carbon Monoxide Poisoning Prevention Act of 2009.

9 13261. The Legislature finds and declares all of the following:

10 (a) According to the American Medical Association, carbon
11 monoxide is the leading cause of accidental poisoning deaths in
12 the United States. The federal Centers for Disease Control and
13 Prevention estimate that carbon monoxide kills approximately 500
14 people each year and injures another 20,000 people nationwide.

15 (b) According to the United States Environmental Protection
16 Agency, a person cannot see or smell carbon monoxide. At high
17 levels carbon monoxide can kill a person in minutes. Carbon
18 monoxide is produced whenever any fuel, such as gas, oil,
19 kerosene, wood, or charcoal, is burned.

20 (c) The State Air Resources Board estimates that every year
21 carbon monoxide accounts for between 30 and 40 avoidable deaths,
22 possibly thousands of avoidable illnesses, and between 175 and
23 700 avoidable emergency room and hospital visits.

24 (d) There are well-documented chronic health effects of acute
25 carbon monoxide poisoning or prolonged exposure to carbon
26 monoxide, including, but not limited to, lethargy, headaches,
27 concentration problems, amnesia, psychosis, Parkinson's disease,
28 memory impairment, and personality alterations.

29 (e) Experts estimate that equipping every home with a carbon
30 monoxide device would cut accident-related costs by 93 percent.
31 Eighteen states and a number of large cities have laws mandating
32 the use of carbon monoxide devices.

33 (f) Carbon monoxide devices provide a vital, highly effective,
34 and low-cost protection against carbon monoxide poisoning and
35 these devices should be made available to every home in California.

36 (g) *The Homeowners' Guide to Environmental Hazards*
37 *prepared pursuant to Section 10084 of the Business and*
38 *Professions Code is an important educational tool and should*
39 *include information regarding carbon monoxide. It is the intent*
40 *of the Legislature that when the booklet is next updated as existing*

1 *resources permit, or as private resources are made available, it*
2 *be updated to include a section on carbon monoxide.*

3 13262. For purposes of this chapter, the following definitions
4 shall apply:

5 (a) “Carbon monoxide device” means a device that meets all of
6 the following requirements:

7 (1) A device designed to detect carbon monoxide and produce
8 a distinct, audible alarm.

9 (2) A device that is battery powered, a plug-in device with
10 battery backup, or a device installed as recommended by Standard
11 720 of the National Fire Protection Association that is either wired
12 into the alternating current power line of the dwelling unit with a
13 secondary battery backup or connected to a system via a panel.

14 (3) If the device is combined with a smoke detector, the
15 combined device shall comply with all of the following:

16 (A) The standards that apply to carbon monoxide alarms as
17 described in this chapter.

18 (B) The standards that apply to smoke detectors, as described
19 in Section 13113.7.

20 (C) The combined device emits an alarm or voice warning in a
21 manner that clearly differentiates between a carbon monoxide
22 alarm warning and a smoke detector warning.

23 (4) The device has been tested and certified, pursuant to the
24 requirements of the American National Standards Institute (ANSI)
25 and Underwriters’ Laboratories Inc. (UL) as set forth in either
26 ANSI/UL 2034 or ANSI/UL 2075, *or successor standards*, by a
27 nationally recognized testing laboratory listed in the directory of
28 approved testing laboratories established by the Building Materials
29 Listing Program of the Fire Engineering Division of the Office of
30 the State Fire Marshal of the Department of Forestry and Fire
31 Protection.

32 (b) “Dwelling unit intended for human occupancy” includes a
33 single-family dwelling, factory-built home as defined in Section
34 19971, duplex, lodging house, dormitory, hotel, motel,
35 condominium, stock cooperative, time-share project, or dwelling
36 unit in a multiple-unit dwelling unit building or buildings.
37 “Dwelling unit intended for human occupancy” does not include
38 a property owned or leased by the state, the Regents of the
39 University of California, or a local governmental agency.

1 (c) “Fossil fuel” means coal, kerosene, oil, wood, fuel gases,
2 and other petroleum or hydrocarbon products, which emit carbon
3 monoxide as a byproduct of combustion.

4 13263. (a) (1) The State Fire Marshal shall develop a
5 certification and decertification process to approve and list carbon
6 monoxide devices and to disapprove and delist previously approved
7 devices, if necessary. The certification and decertification process
8 shall include consideration of effectiveness and reliability of the
9 devices, including, but not limited to, their propensity to record
10 false alarms.

11 (2) The State Fire Marshal shall charge an appropriate fee to
12 the manufacturer of a carbon monoxide device to cover his or her
13 costs associated with the approval and listing of carbon monoxide
14 devices and the costs of the Department of Housing and
15 Community Development for the development and proposal of
16 building standards pursuant to Section ~~17926.3~~ 17926.2.

17 (b) A person shall not market, distribute, offer for sale, or sell
18 any carbon monoxide device in this state unless the device has
19 been approved and listed by the State Fire Marshal.

20 SEC. 4. Section 17926 is added to the Health and Safety Code,
21 to read:

22 17926. (a) An owner of a dwelling unit intended for human
23 occupancy shall install a carbon monoxide device, approved and
24 listed by the State Fire Marshal pursuant to Section 13263, ~~in~~
25 ~~accordance with the manufacturer’s instructions~~ in each existing
26 dwelling unit having a fossil fuel burning heater or appliance,
27 fireplace, or an attached garage, within the earliest applicable time
28 period as follows:

29 (1) For all existing single-family dwelling units intended for
30 human occupancy on or before January 1, 2011.

31 (2) For all other existing dwelling units intended for human
32 occupancy on or before January 1, 2012.

33 (b) *With respect to the number and placement of carbon*
34 *monoxide devices, an owner shall install the devices in a manner*
35 *consistent with building standards applicable to new construction*
36 *for the relevant type of occupancy or with the manufacturer’s*
37 *instructions, if it is technically feasible to do so.*

38 ~~(b)~~

39 (c) (1) Notwithstanding Section 17995, and except as provided
40 in paragraph (2), a violation of this section is an infraction

1 punishable by a maximum fine of two hundred dollars (\$200) for
2 each offense.

3 (2) Notwithstanding paragraph (1), a property owner shall
4 receive a 30-day notice to correct. If an owner receiving notice
5 fails to correct within that time period, the owner may be assessed
6 the fine pursuant to paragraph (2).

7 ~~(e)~~

8 (d) No transfer of title shall be invalidated on the basis of a
9 failure to comply with this section, and the exclusive remedy for
10 the failure to comply with this section is an award of actual
11 damages not to exceed one hundred dollars (\$100), exclusive of
12 any court costs and attorney's fees.

13 ~~(d)~~

14 (e) A local ordinance requiring carbon monoxide devices may
15 be enacted or amended if the ordinance is consistent with this
16 chapter. *This section is not intended to affect any duties, rights, or*
17 *remedies otherwise available at law.*

18 SEC. 5. Section 17926.1 is added to the Health and Safety
19 Code, to read:

20 17926.1. (a) An owner or owner's agent of a dwelling unit
21 intended for human occupancy who rents or leases ~~space~~ *the*
22 *dwelling unit* to a tenant shall maintain carbon monoxide devices
23 in that dwelling unit consistent with this section and Section 17926.

24 (b) An owner or the owner's agent may enter any dwelling ~~unit,~~
25 ~~efficiency dwelling unit, guest room, and suite unit intended for~~
26 *human occupancy* owned by the owner for the purpose of installing,
27 repairing, testing, and maintaining ~~single station~~ carbon monoxide
28 devices required by this section, pursuant to the authority and
29 requirements of Section 1954 of the Civil Code.

30 (c) The carbon monoxide device shall be operable at the time
31 that the tenant takes possession. A tenant shall be responsible for
32 notifying the owner or owner's agent if the tenant becomes aware
33 of an inoperable or deficient carbon monoxide device within his
34 or her unit. The owner or owner's agent shall correct any reported
35 deficiencies or inoperabilities in the carbon monoxide device and
36 shall not be in violation of this section for a deficient or inoperable
37 carbon monoxide device when he or she has not received notice
38 of the deficiency or inoperability.

1 (d) This section shall not affect any rights which the parties may
2 have under any other provision of law because of the presence or
3 absence of a carbon monoxide device.

4 (e) For purposes of this section, with respect to a time-share
5 project, “owner” means the homeowners’ association of the
6 time-share project.

7 SEC. 6. Section ~~17926.3~~17926.2 is added to the Health and
8 Safety Code, to read:

9 ~~17926.3.~~

10 17926.2. (a) (1) The department may, after consultation with
11 the State Fire Marshal, develop and propose building standards
12 ~~consistent with the intent of the Carbon Monoxide Poisoning~~
13 ~~Prevention Act of 2009.~~ *to require installation of carbon monoxide*
14 *devices in dwellings intended for human occupancy.*

15 (2) If the department, in consultation with the State Fire Marshal,
16 determines that a sufficient amount of tested and approved carbon
17 monoxide devices are not available to property owners to meet the
18 requirements of the Carbon Monoxide Poisoning Prevention Act
19 of 2009 and Sections 17926 and 17926.1, the department may
20 suspend enforcement of the requirements of Sections 17926 and
21 17926.1 for up to six months. If the department elects to suspend
22 enforcement of these requirements, the department shall notify the
23 Secretary of State of its decision and shall post a public notice that
24 describes its findings and decision on the departmental Internet
25 Web site.

26 ~~(b) If the Department of Housing and Community Development~~
27 ~~or the California Building Standards Commission adopts~~
28 ~~regulations or standards after July 1, 2010, that modify or revise~~
29 ~~the regulations of building standards in a manner that modifies the~~
30 ~~original requirements imposed by this section, the owner or~~

31 *(b) If the California Building Standards Commission adopts or*
32 *updates building standards relating to carbon monoxide devices,*
33 *the owner or owner’s agent, who has installed a carbon monoxide*
34 *device as required by Section 17926 or 17926.1, shall not be*
35 *required to install a new device meeting the requirements of those*
36 ~~regulations or building standards within an individual dwelling~~
37 ~~unit until the owner makes application for a permit for alterations,~~
38 ~~repairs, or additions to that dwelling unit, the cost of which will~~
39 ~~exceed one thousand dollars (\$1,000).~~

1 SEC. 7. No reimbursement is required by this act pursuant to
 2 Section 6 of Article XIII B of the California Constitution because
 3 the only costs that may be incurred by a local agency or school
 4 district will be incurred because this act creates a new crime or
 5 infraction, eliminates a crime or infraction, or changes the penalty
 6 for a crime or infraction, within the meaning of Section 17556 of
 7 the Government Code, or changes the definition of a crime within
 8 the meaning of Section 6 of Article XIII B of the California
 9 Constitution.
