SENATE BILL

No. 183

Introduced by Senator Lowenthal
(Coauthor: Senator Wiggins)
(Coauthors: Assembly Members Ma and Saldana)

February 17, 2009

An act to amend Sections 1102.6 and 1102.6d of the Civil Code, and to add Sections 17926, 17926.1, and 17926.2 to, and to add Chapter 8 (commencing with Section 13260) to Part 2 of Division 12 of, the Health and Safety Code, relating to residential building safety.

LEGISLATIVE COUNSEL'S DIGEST

SB 183, as amended, Lowenthal. Residential building safety.

(1) Existing law requires certain transferors of real property improved with 1 to 4 dwelling units, as well as transferors of mobilehomes and manufactured homes, to make specified disclosures to prospective transferees regarding the characteristics of the property and prescribes forms for the purpose of making these disclosures. Existing law requires the transferor of real property containing a single-family dwelling to provide transferees written notice of compliance with specified

requirements for the installation of smoke detectors. Existing law requires the seller of any real property containing a water heater to certify in writing to a prospective purchaser compliance with specified safety requirements related to those water heaters.

This bill would revise the disclosure forms, described above, to provide a seller certification that the property, at the close of escrow, will be in compliance with the requirements for smoke detectors and water heaters, described above, and to remove these provisions from elsewhere in the forms. The bill would also revise the disclosure forms to add a disclosure regarding carbon monoxide devices and a statement specifying that installation of a listed appliance, device, or amenity is not a precondition to sale or transfer.

Existing law requires the State Fire Marshal to adopt regulations and standards regarding the quality and installation of burglar bars and safety release mechanisms for emergency escape and rescue windows, the approval and installation of smoke detectors, and the approval of portable fire extinguishers for marketing, distribution, and sale in this state. Existing law requires a smoke detector approved and listed by the State Fire Marshal to be installed in a dwelling unit intended for human occupancy. The State Housing Law creates standards for buildings used for human habitation. A violation of that law is a misdemeanor.

This bill would enact the Carbon Monoxide Poisoning Prevention Act of 2009, ~~the provisions of which would apply to dwelling units that are completed or occupied by January 1, 2010.~~ This bill would require the State Fire Marshal to certify and approve carbon monoxide devices and their instructions, as specified, for the use in dwelling units intended for human occupancy, as defined. The bill would require the State Fire Marshal to charge an appropriate fee to the manufacturer of a carbon monoxide device to cover the costs associated with the approval and listing of carbon monoxide devices. The bill would prohibit the marketing, distribution, or sale of devices unless they and their instructions have been approved and listed by the State Fire Marshal. The bill would require a carbon monoxide device to be installed in a dwelling unit intended for human occupancy, as specified, and would generally provide that a violation of these provisions is an infraction punishable by a maximum fine of \$200 for each offense, but the bill would require that a property owner receive a 30-day notice to correct prior to the imposition of the fine. By creating a new crime, this bill would create a state-mandated local program. The bill would provide

that a transfer of title is not invalidated on the basis of a failure to comply with these requirements, and that the exclusive remedy for the failure to comply is an award of actual damages not to exceed \$100, exclusive of any court costs and attorney's fees.

This bill would require an owner or the owner's agent of a dwelling unit intended for human occupancy who rents or leases the dwelling unit to a tenant to maintain carbon monoxide devices in that dwelling unit. The bill would permit the owner or the owner's agent to enter that dwelling unit to install, repair, test, and maintain carbon monoxide devices, as specified. The bill would permit the Department of Housing and Community Development to suspend enforcement of certain requirements on property owners if the department, in consultation with the State Fire Marshal, determines that a sufficient amount of tested and approved carbon monoxide devices are not available, and would require the department to publicize this decision, as specified. The bill would also make a statement of legislative findings.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 1102.6 of the Civil Code is amended to
2 read:
3 1102.6. The disclosures required by this article pertaining to
4 the property proposed to be transferred are set forth in, and shall

1 SEC. 3. Chapter 8 (commencing with Section 13260) is added
2 to Part 2 of Division 12 of the Health and Safety Code, to read:

3
4 CHAPTER 8. CARBON MONOXIDE POISONING PREVENTION ACT
5 OF ~~2009~~ 2010
6

7 13260. This chapter shall be known and may be cited as the
8 Carbon Monoxide Poisoning Prevention Act of ~~2009~~ 2010.

9 13261. The Legislature finds and declares all of the following:

10 (a) According to the American Medical Association, carbon
11 monoxide is the leading cause of accidental poisoning deaths in
12 the United States. The federal Centers for Disease Control and
13 Prevention estimate that carbon monoxide kills approximately 500
14 people each year and injures another 20,000 people nationwide.

15 (b) According to the United States Environmental Protection
16 Agency, a person cannot see or smell carbon monoxide. At high
17 levels carbon monoxide can kill a person in minutes. Carbon
18 monoxide is produced whenever any fuel, such as gas, oil,
19 kerosene, wood, or charcoal, is burned.

20 (c) The State Air Resources Board estimates that every year
21 carbon monoxide accounts for between 30 and 40 avoidable deaths,
22 possibly thousands of avoidable illnesses, and between 175 and
23 700 avoidable emergency room and hospital visits.

24 (d) There are well-documented chronic health effects of acute
25 carbon monoxide poisoning or prolonged exposure to carbon
26 monoxide, including, but not limited to, lethargy, headaches,
27 concentration problems, amnesia, psychosis, Parkinson's disease,
28 memory impairment, and personality alterations.

29 (e) Experts estimate that equipping every home with a carbon
30 monoxide device would cut accident-related costs by 93 percent.
31 Eighteen states and a number of large cities have laws mandating
32 the use of carbon monoxide devices.

33 (f) Carbon monoxide devices provide a vital, highly effective,
34 and low-cost protection against carbon monoxide poisoning and
35 these devices should be made available to every home in California.

36 (g) The Homeowners' Guide to Environmental Hazards prepared
37 pursuant to Section 10084 of the Business and Professions Code
38 is an important educational tool and should include information
39 regarding carbon monoxide. It is the intent of the Legislature that
40 when the booklet is next updated as existing resources permit, or

1 as private resources are made available, it be updated to include a
2 section on carbon monoxide.

3 ~~13261.5. This chapter shall apply only to dwelling units that~~
4 ~~are completed or occupied by January 1, 2010.~~

5 13262. For purposes of this chapter, the following definitions
6 shall apply:

7 (a) “Carbon monoxide device” means a device that meets all of
8 the following requirements:

9 (1) A device designed to detect carbon monoxide and produce
10 a distinct, audible alarm.

11 (2) A device that is battery powered, a plug-in device with
12 battery backup, or a device installed as recommended by Standard
13 720 of the National Fire Protection Association that is either wired
14 into the alternating current power line of the dwelling unit with a
15 secondary battery backup or connected to a system via a panel.

16 (3) If the device is combined with a smoke detector, the
17 combined device shall comply with all of the following:

18 (A) The standards that apply to carbon monoxide alarms as
19 described in this chapter.

20 (B) The standards that apply to smoke detectors, as described
21 in Section 13113.7.

22 (C) The combined device emits an alarm or voice warning in a
23 manner that clearly differentiates between a carbon monoxide
24 alarm warning and a smoke detector warning.

25 (4) The device has been tested and certified, pursuant to the
26 requirements of the American National Standards Institute (ANSI)
27 and Underwriters Laboratories Inc. (UL) as set forth in either
28 ANSI/UL 2034 or ANSI/UL 2075, or successor standards, by a
29 nationally recognized testing laboratory listed in the directory of
30 approved testing laboratories established by the Building Materials
31 Listing Program of the Fire Engineering Division of the Office of
32 the State Fire Marshal of the Department of Forestry and Fire
33 Protection.

34 (b) “Dwelling unit intended for human occupancy” means a
35 single-family dwelling, factory-built home as defined in Section
36 19971, duplex, lodging house, dormitory, hotel, motel,
37 condominium, stock cooperative, time-share project, or dwelling
38 unit in a multiple-unit dwelling unit building or buildings.
39 “Dwelling unit intended for human occupancy” does not mean a

1 property owned or leased by the state, the Regents of the University
2 of California, or a local governmental agency.

3 (c) “Fossil fuel” means coal, kerosene, oil, wood, fuel gases,
4 and other petroleum or hydrocarbon products, which emit carbon
5 monoxide as a byproduct of combustion.

6 13263. (a) (1) The State Fire Marshal shall develop a
7 certification and decertification process to approve and list carbon
8 monoxide devices and to disapprove and delist previously approved
9 devices, if necessary. The certification and decertification process
10 shall include consideration of effectiveness and reliability of the
11 devices, including, but not limited to, their propensity to record
12 false alarms. The certification and decertification process shall
13 include a review of the manufacturer’s instructions and shall ensure
14 their consistency with building standards applicable to new
15 construction for the relevant type of occupancy with respect to
16 number and placement.

17 (2) The State Fire Marshal shall charge an appropriate fee to
18 the manufacturer of a carbon monoxide device to cover his or her
19 costs associated with the approval and listing of carbon monoxide
20 devices.

21 (b) A person shall not market, distribute, offer for sale, or sell
22 any carbon monoxide device in this state unless the device and the
23 instructions have been approved and listed by the State Fire
24 Marshal.

25 SEC. 4. Section 17926 is added to the Health and Safety Code,
26 to read:

27 17926. (a) An owner of a dwelling unit intended for human
28 occupancy shall install a carbon monoxide device, approved and
29 listed by the State Fire Marshal pursuant to Section 13263, in each
30 existing dwelling unit having a fossil fuel burning heater or
31 appliance, fireplace, or an attached garage, within the earliest
32 applicable time period as follows:

33 (1) For all existing single-family dwelling units intended for
34 human occupancy on or before ~~January 1, 2011~~ *July 1, 2011*.

35 (2) For all other existing dwelling units intended for human
36 occupancy on or before ~~July 1, 2012~~ *January 1, 2013*.

37 (b) With respect to the number and placement of carbon
38 monoxide devices, an owner shall install the devices in a manner
39 consistent with building standards applicable to new construction

1 for the relevant type of occupancy or with the manufacturer's
2 instructions, if it is technically feasible to do so.

3 (c) (1) Notwithstanding Section 17995, and except as provided
4 in paragraph (2), a violation of this section is an infraction
5 punishable by a maximum fine of two hundred dollars (\$200) for
6 each offense.

7 (2) Notwithstanding paragraph (1), a property owner shall
8 receive a 30-day notice to correct. If an owner receiving notice
9 fails to correct within that time period, the owner may be assessed
10 the fine pursuant to paragraph (2).

11 (d) No transfer of title shall be invalidated on the basis of a
12 failure to comply with this section, and the exclusive remedy for
13 the failure to comply with this section is an award of actual
14 damages not to exceed one hundred dollars (\$100), exclusive of
15 any court costs and attorney's fees. This subdivision is not intended
16 to affect any duties, rights, or remedies otherwise available at law.

17 (e) A local ordinance requiring carbon monoxide devices may
18 be enacted or amended if the ordinance is consistent with this
19 chapter.

20 SEC. 5. Section 17926.1 is added to the Health and Safety
21 Code, to read:

22 17926.1. (a) An owner or owner's agent of a dwelling unit
23 intended for human occupancy who rents or leases the dwelling
24 unit to a tenant shall maintain carbon monoxide devices in that
25 dwelling unit consistent with this section and Section 17926.

26 (b) An owner or the owner's agent may enter any dwelling unit
27 intended for human occupancy owned by the owner for the purpose
28 of installing, repairing, testing, and maintaining carbon monoxide
29 devices required by this section, pursuant to the authority and
30 requirements of Section 1954 of the Civil Code.

31 (c) The carbon monoxide device shall be operable at the time
32 that the tenant takes possession. A tenant shall be responsible for
33 notifying the owner or owner's agent if the tenant becomes aware
34 of an inoperable or deficient carbon monoxide device within his
35 or her unit. The owner or owner's agent shall correct any reported
36 deficiencies or inoperabilities in the carbon monoxide device and
37 shall not be in violation of this section for a deficient or inoperable
38 carbon monoxide device when he or she has not received notice
39 of the deficiency or inoperability.

1 (d) This section shall not affect any rights which the parties may
2 have under any other provision of law because of the presence or
3 absence of a carbon monoxide device.

4 (e) For purposes of this section, with respect to a time-share
5 project, “owner” means the homeowners’ association of the
6 time-share project.

7 SEC. 6. Section 17926.2 is added to the Health and Safety
8 Code, to read:

9 17926.2. (a) If the department, in consultation with the State
10 Fire Marshal, determines that a sufficient amount of tested and
11 approved carbon monoxide devices are not available to property
12 owners to meet the requirements of the Carbon Monoxide
13 Poisoning Prevention Act of 2009 and Sections 17926 and 17926.1,
14 the department may suspend enforcement of the requirements of
15 Sections 17926 and 17926.1 for up to six months. If the department
16 elects to suspend enforcement of these requirements, the
17 department shall notify the Secretary of State of its decision and
18 shall post a public notice that describes its findings and decision
19 on the departmental Internet Web site.

20 (b) If the California Building Standards Commission adopts or
21 updates building standards relating to carbon monoxide devices,
22 the owner or owner’s agent, who has installed a carbon monoxide
23 device as required by Section 17926 or 17926.1, shall not be
24 required to install a new device meeting the requirements of those
25 building standards within an individual dwelling unit until the
26 owner makes application for a permit for alterations, repairs, or
27 additions to that dwelling unit, the cost of which will exceed one
28 thousand dollars (\$1,000).

29 SEC. 7. No reimbursement is required by this act pursuant to
30 Section 6 of Article XIII B of the California Constitution because
31 the only costs that may be incurred by a local agency or school
32 district will be incurred because this act creates a new crime or
33 infraction, eliminates a crime or infraction, or changes the penalty
34 for a crime or infraction, within the meaning of Section 17556 of
35 the Government Code, or changes the definition of a crime within
36 the meaning of Section 6 of Article XIII B of the California
37 Constitution.
