An act relating to developmental disabilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 812, as introduced, Ashburn. Developmental services: housing.

Under existing law, the State Department of Developmental Services contracts with private nonprofit, entities, known as regional centers, to provide or purchase services and supports for persons with developmental disabilities, including, among others, autism spectrum disorders. Existing law requires regional centers to create an individual program plan that lays out the services and supports, including housing, if applicable, to be provided to each consumer that takes into account the needs and preferences of the individual and the family and that promotes community integration, independent, productive, and normal lives, and stable and healthy environments.

This bill would state the intent of the Legislature to enact legislation that would seek federal funding to promote and implement housing for individuals with an autism spectrum disorder, a pervasive developmental disorder, or other special needs in a multipurpose community that provides an environmentally effective, integrated, affordable, and productive way of life.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. It is the intent of the Legislature to enact
- 2 legislation that would seek federal funding to promote and

1 implement housing for individuals with an autism spectrum  
2 disorder, a pervasive developmental disorder, or other special  
3 needs in a multipurpose community that provides an  
4 environmentally effective, integrated, affordable, and productive  
5 way of life.
