

ASSEMBLY BILL

No. 83

Introduced by Assembly Member Jeffries

January 5, 2011

An act to amend Section 21080.21 of the Public Resources Code, relating to the environment.

LEGISLATIVE COUNSEL'S DIGEST

AB 83, as introduced, Jeffries. Environment: CEQA exemption: recycled water pipeline.

(1) The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA exempts specified pipeline projects from the above requirements.

This bill would additionally exempt a project for the installation of a new pipeline, not exceeding a specified length, for the distribution of recycled water within an improved public street, highway, or right-of-way. Because a lead agency, which may include a local agency, is required to determine whether a project qualifies for those exemptions, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

The people of the State of California do enact as follows:
