

Assembly Bill No. 366

CHAPTER 654

An act to amend, repeal, and add Section 1370 of the Penal Code, relating to defendants.

[Approved by Governor October 9, 2011. Filed with
Secretary of State October 9, 2011.]

LEGISLATIVE COUNSEL'S DIGEST

AB 366, Allen. Defendants: involuntary antipsychotic medication.

Existing law provides that if a defendant becomes mentally incompetent, a trial or judgment related to that defendant shall be suspended until he or she becomes mentally competent. Existing law establishes procedures whereby the court determines the appropriate facility where an incompetent defendant shall be delivered for treatment, and determines whether the defendant consents to the administration of antipsychotic medication, or determines whether involuntary administration of antipsychotic medication is appropriate, as specified.

This bill would require, as of July 1, 2012, the court to determine if the defendant lacks capacity to make decisions regarding antipsychotic medication before seeking consent from the defendant for those medications. The bill would provide that when, under specified conditions and in the opinion of the treating psychiatrist, involuntary administration of antipsychotic medication becomes necessary, that medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of certifying that involuntary antipsychotic medication has become medically necessary and appropriate, an administrative law judge conducts a hearing and reviews the treating psychiatrist's determination to administer the medication and concurs in that determination. The bill would require the defendant to be represented at the hearing by an attorney or patients' rights advocate and would prescribe other rights of the defendant with respect to the hearing.

The bill would provide that if the administrative law judge concurs in the treating psychiatrist's certification, antipsychotic medication would be authorized to continue to be administered for the 21-day certification period and if the administrative law judge disagrees with the certification, the medication would not be administered until a court so ordered. The bill would require the treating psychiatrist to file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period, as specified, and would waive fees for the filing of the petition or other document or paper related to the petition.

The bill would require the court to determine, prior to the expiration of the 21-day certification period, whether the medication should be administered beyond the 21-day certification period, as specified. The bill would provide that an order for the involuntary administration of antipsychotic medication beyond the 21-day certification period would be valid for no more than one year, and would require the court to review the order 6 months after the order was made, as specified, to determine if the grounds for involuntary medication remain. The bill would require reports at 6-month intervals, or until the defendant becomes mentally competent, and would require certain items to be addressed in the report, including, among other things, whether or not the defendant has the capacity to make decisions concerning antipsychotic medication. After reviewing the reports, a court would be required to determine whether the need for continued administration of antipsychotic medication exists, as specified. The bill would also provide that its terms do not preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing the involuntary administration of antipsychotic medication.

The people of the State of California do enact as follows:

SECTION 1. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial or judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, or to any other available public or private treatment facility approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court must serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be confined in a state hospital or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or committed to a state hospital or to any other treatment facility. No person shall be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee.

(B) The court shall hear and determine whether the defendant, with advice of his or her counsel, consents to the administration of antipsychotic medication, and shall proceed as follows:

(i) If the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with this subdivision regarding whether antipsychotic medication shall be administered involuntarily.

(ii) If the defendant does not consent to the administration of medication, the court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(iii) If the court finds any of the conditions described in clause (ii) to be true, the court shall issue an order authorizing the treatment facility to involuntarily administer antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist. The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (ii) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (ii) and does not meet the criteria under subclause (II) of clause (ii).

(iv) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(v) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the Patients' Rights Advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (i) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (ii) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication as specified in subclause (I) of clause (ii) of subparagraph (B), or that the defendant is a danger to others as specified in subclause (II) of clause (ii) of subparagraph (B), the committing court shall be notified of this, including an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate. The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant and shall set a hearing to determine whether involuntary antipsychotic medication should be ordered in the manner described in subparagraph (B).

(3) When the court orders that the defendant be confined in a state hospital or other public or private treatment facility, the court shall provide copies of the following documents which shall be taken with the defendant to the

state hospital or other treatment facility where the defendant is to be confined:

- (A) The commitment order, including a specification of the charges.
- (B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).
- (C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.
- (D) State summary criminal history information.
- (E) Any arrest reports prepared by the police department or other law enforcement agency.
- (F) Any court-ordered psychiatric examination or evaluation reports.
- (G) The community program director's placement recommendation report.
- (H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall select the hospital in accordance with the policies established by the State Department of Mental Health.

(6) (A) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to a state hospital or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). Where either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the

same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, where the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the community program director or a designee.

(2) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to

the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(4) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination.

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (2) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which criminal charges are pending.

(4) Where the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) The criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act, Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(f) As used in this chapter, “community program director” means the person, agency, or entity designated by the State Department of Mental Health pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, “secure treatment facility” shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) This section shall remain in effect only until July 1, 2012, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2012, deletes or extends that date.

SEC. 2. Section 1370 is added to the Penal Code, to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial or judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, or to any other available public or private treatment facility approved by the community program director that will promote the defendant’s speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of

Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court must serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be confined in a state hospital or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or committed to a state hospital or to any other treatment facility. No person shall be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing the treatment facility to involuntarily administer antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist. The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) Any report made pursuant to paragraph (1) of subdivision (b) shall include a description of any antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a state hospital or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the state hospital or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The defendant shall also have the following rights with respect to the medication review hearing:

- (I) To being given timely access to the defendant's records.
- (II) To be present at the hearing, unless the defendant waives that right.
- (III) To present evidence at the hearing.
- (IV) To question persons presenting evidence supporting involuntary medication.
- (V) To make reasonable requests for attendance of witnesses on the defendant's behalf.
- (VI) To a hearing conducted in an impartial and informal manner.

(ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.

(iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.

(iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.

(v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.

(vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in any event, no later than the expiration of the 21-day certification period.

(3) When the court orders that the defendant be confined in a state hospital or other public or private treatment facility, the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other treatment facility where the defendant is to be confined:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall select the hospital in accordance with the policies established by the State Department of Mental Health.

(6) (A) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to a state hospital or to another public or private treatment facility approved

by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). Where either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order six months after the order was made to determine if the grounds for the authorization remain. In the review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist or psychiatrists and the patients' rights advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals

or until the defendant becomes mentally competent, where the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the community program director or a designee.

(2) Where the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made at six-month intervals concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic

medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the state hospital or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall

notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which criminal charges are pending.

(4) Where the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) The criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act, Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(f) As used in this chapter, "community program director" means the person, agency, or entity designated by the State Department of Mental Health pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) Nothing in this section shall preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

(i) This section shall become operative on July 1, 2012.
