

AMENDED IN ASSEMBLY MARCH 30, 2011

CALIFORNIA LEGISLATURE—2011–12 REGULAR SESSION

ASSEMBLY BILL

No. 396

Introduced by Assembly Member Mitchell

February 14, 2011

An act to add Section 14053.8 to the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

AB 396, as amended, Mitchell. Medi-Cal: juvenile detention facilities.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions. Existing federal law, with certain exceptions, ~~does not provide for payments with respect to care or services for~~ *excludes federal financial participation for medical care provided to any individual who is an inmate in a public institution. In conformity with that federal provision, and* existing state law suspends Medi-Cal benefits, *for a specified period of time,* to an individual under 21 years of age who is an inmate of a public institution.

Existing law authorizes the Department of Corrections and Rehabilitation and the State Department of Health Care Services, to the extent that federal participation is not jeopardized and federal approval is obtained, to develop a process for the provision of inpatient hospital services to inmates who would otherwise be eligible for Medi-Cal, but for their institutional status as inmates. Existing law also ~~permits~~ *authorizes,* to the extent federal financial participation is available, the

State Department of Health Care Services to provide Medi-Cal eligibility and reimbursement for inpatient hospital services to inmates, as defined.

This bill would additionally require the State Department of Health Care Services to develop a process to ~~maximize federal financial participation for the health care services provided by counties to juveniles in their custody who would otherwise be eligible for Medi-Cal~~ *allow counties to receive any available federal financial participation for health care services provided to juvenile detainees who are admitted as inpatients in a medical institution.* The bill would require the department to consult with counties in the development of this process, and would require the department to seek ~~all~~ *any* federal approvals necessary to implement the process. The bill would also limit application of this process to counties that elect to voluntarily provide the nonfederal share of expenditures for health care services, and would require that the federal financial participation associated with services provided pursuant to the process be paid to the participating counties. *The bill would provide that these provisions shall be implemented only to the extent that any necessary federal approval is obtained and existing levels of federal financial participation are not jeopardized.* The bill would make related findings and declarations.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.

4 process developed pursuant to this section, the department may
5 exempt the juvenile detainees from enrollment into new or existing
6 managed care health plans.

7 ~~(d)~~

8 (f) The process developed pursuant to this section shall be
9 implemented in only those counties that elect to voluntarily provide
