

**ASSEMBLY BILL**

**No. 509**

---

---

**Introduced by Assembly Member Skinner**

February 15, 2011

---

---

An act relating to taxation.

LEGISLATIVE COUNSEL'S DIGEST

AB 509, as introduced, Skinner. Personal income taxes: earned income tax credit: notification.

The Personal Income Tax Law authorizes various credits against the taxes imposed by that law. The federal income tax laws authorize a refundable earned income tax credit for certain low-income individuals who have earned income and who meet certain other requirements.

This bill would declare the Legislature's intent to enact legislation that would create a pilot project requiring local community-based coalitions, utilities, and schools to provide the public with eligibility information regarding the earned income tax credit.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. The Legislature hereby declares its intent to
- 2 enact legislation that would create a pilot project requiring local
- 3 community-based coalitions, utilities, and schools to provide the
- 4 public with eligibility information regarding the earned income
- 5 tax credit.
