Article 1.4. Bullying

7 32204. It is the intent of the Legislature to encourage school
8 districts to establish programs, to be implemented throughout the
9 year and integrated either into the regular curriculum or through
10 separate instruction, to reduce bullying through training and best
11 practice methodologies involving collaboration among pupils,
12 parents, and school staff, in accordance with all of the following:

13 (a) Training should educate pupils to increase their awareness
14 of bullying and to create a school environment that empowers
15 parents, school staff and administration, and pupils to prevent and
16 manage bullying at their schools. This training should have three
17 main goals:

18 (1) To help pupils identify different forms of bullying behavior,
19 which include physical, verbal, psychological, and electronic
20 bullying.

21 (2) To create a school environment where pupils know that
22 reports of bullying will be properly handled, so that pupils who
23 are either targets of bullying or bystanders will freely report
24 incidents of bullying when it is necessary.

25 (3) To build trust so that pupils will feel that the confidentiality
26 of statements they intend to keep private will be respected.

27 (b) Training should include school administrators and teachers,
28 parents, and pupils, and anyone else who is in frequent contact
29 with children. The training should promote awareness of bullying,
30 as well as kindness, communication, cooperation, and friendship

1 while stressing empathy for all pupils. Each school district may
2 develop a training curriculum that fits its specific needs.
3 (c) Training should essentially foster key educational building
4 blocks to build a positive school climate, address and prevent
5 bullying behavior in California schools, create an awareness and
6 encourage discussion of the bullying problem as a school
7 community, and cultivate the positive behaviors that can create a
8 bully-free learning community in each school.
