AMENDED IN ASSEMBLY MARCH 25, 2011

CALIFORNIA LEGISLATURE—2011–12 REGULAR SESSION

ASSEMBLY BILL

No. 969

Introduced by Assembly Member Atkins

February 18, 2011

An act to add Section 14105.221 to the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

AB 969, as amended, Atkins. Medi-Cal: clinical laboratory and laboratory services.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid Program provisions. Existing law provides that reimbursement for clinical laboratory or laboratory services, as defined, may not exceed 80% of the lowest maximum allowance established by the federal Medicare program for the same or similar services.

~~This bill would require commercial clinical reference laboratory providers, as defined, to submit their usual and customary charges, as defined, when billing the Medi-Cal program for clinical laboratory tests or examinations or laboratory services. This bill would provide that payment to commercial clinical reference laboratory providers shall be the lower of the usual and customary charge or the reimbursement rate specified for clinical laboratory or laboratory services. This bill would require commercial clinical reference laboratory providers to keep and~~

~~maintain records of their usual and customary charges for a period of 3 years from the date the clinical laboratory test or examination or laboratory service is rendered.~~

This bill would prohibit consideration of the donation of, or the granting of discounts for, clinical laboratory tests or examinations or laboratory services to a federally qualified health center, as defined, as a basis for the reduction of Medi-Cal payments below that reimbursement rate.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
