CHAPTER _____

An act to amend Section 47605 of the Education Code, relating to charter schools.

LEGISLATIVE COUNSEL'S DIGEST

AB 1034, Gatto. Charter schools.

(1) The Charter Schools Act of 1992 permits teachers and parents to petition the governing board of a school district to approve a charter school to operate independently from the existing school district structure as a method of accomplishing, among other things, improved pupil learning.

Existing law prohibits the governing board of a school district from denying a petition for the establishment of a charter school unless the governing board finds that the petition does not contain specified information, including admission requirements, as applicable, and the governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.

This bill would revise the provision relating to admission requirements so that admission policies and procedures, as specified, are to be included in a petition. The bill would authorize a charter school to encourage parental involvement, but would require the charter school to notify parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance or continued enrollment at the school. To the extent that this notification requirement would create additional duties for charter schools, it would impose a state-mandated local program.

(2) Existing law requires, if the number of pupils who wish to attend a charter school exceeds its capacity, preference to be extended to pupils currently attending the charter school and pupils who reside in the school district.

This bill would additionally require preference for siblings of pupils attending the charter school and children of employees at the charter school.

Existing law authorizes other preferences to be extended, on an individual school basis, if consistent with the law.

This bill would delete the authorization for other preferences to be extended, and would instead authorize preference to be extended, on an individual school basis, provided that the type of preference is approved at a public hearing, as specified, the preferences are consistent with federal law and the California Constitution, and the preferences ensure access for pupils with disabilities, academically low-achieving pupils, English learners, and low-income pupils, as specified.

(3) This bill would incorporate additional changes to Section 47605 of the Education Code proposed by AB 86 that would become operative if this bill and AB 86 are enacted, and this bill is enacted last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 47605 of the Education Code is amended to read:

47605. (a) (1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within a school district may be circulated by one or more persons seeking to establish the charter school. A petition for the establishment of a charter school shall identify a single charter school that will operate within the geographic boundaries of that school district. A charter school may propose to operate at multiple sites within the school district, as long as each location is identified in the charter school petition. The petition may be submitted to the governing board of the school district for review after either of the following conditions is met:

(A) The petition has been signed by a number of parents or legal guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation.

(B) The petition has been signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.

(2) A petition that proposes to convert an existing public school to a charter school that would not be eligible for a loan pursuant to subdivision (b) of Section 41365 may be circulated by one or more persons seeking to establish the charter school. The petition may be submitted to the governing board of the school district for review after the petition has been signed by not less than 50 percent of the permanent status teachers currently employed at the public school to be converted.

(3) A petition shall include a prominent statement that a signature on the petition means that the parent or legal guardian is meaningfully interested in having his or her child or ward attend the charter school, or in the case of a teacher's signature, means that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition.

(4) After receiving approval of its petition, a charter school that proposes to establish operations at one or more additional sites shall request a material revision to its charter, and shall notify the authority that granted its charter of those additional locations. The authority that granted its charter shall consider whether to approve those additional locations at an open, public meeting. If the additional locations are approved, they shall be a material revision to the charter school's charter.

(5) A charter school that is unable to locate within the jurisdiction of the chartering school district may establish one site outside the boundaries of the school district, but within the county in which that school district is located, if the school district within the jurisdiction of which the charter school proposes to operate is notified in advance of the charter petition approval, the county superintendent of schools and the Superintendent are notified of the location of the charter school before it commences operations, and either of the following circumstances exists:

(A) The school has attempted to locate a single site or facility to house the entire program, but a site or facility is unavailable in the area in which the school chooses to locate.

(B) The site is needed for temporary use during a construction or expansion project.

(6) Commencing January 1, 2003, a petition to establish a charter school may not be approved to serve pupils in a grade level that is not served by the school district of the governing board considering the petition, unless the petition proposes to serve pupils in all of the grade levels served by that school district.

(b) No later than 30 days after receiving a petition, in accordance with subdivision (a), the governing board of the school district shall hold a public hearing on the provisions of the charter, at which time the governing board of the school district shall consider the level of support for the petition by teachers employed by the district, other employees of the district, and parents. Following review of the petition and the public hearing, the governing board of the school district shall either grant or deny the charter within 60 days of receipt of the petition, provided, however, that the date may be extended by an additional 30 days if both parties agree to the extension. In reviewing petitions for the establishment of charter schools pursuant to this section, the chartering authority shall be guided by the intent of the Legislature that charter schools are and should become an integral part of the California educational system and that the establishment of charter schools should be encouraged. The governing board of the school district shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one or more of the following findings:

(1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

(2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

(3) The petition does not contain the number of signatures required by subdivision (a).

(4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).

(5) The petition does not contain reasonably comprehensive descriptions of all of the following:

(A) (i) A description of the educational program of the school, designed, among other things, to identify those whom the school

is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.

(ii) If the proposed school will serve high school pupils, a description of the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A” to “G” admissions criteria may be considered to meet college entrance requirements.

(B) The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program.

(C) The method by which pupil progress in meeting those pupil outcomes is to be measured.

(D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement, subject to the restrictions specified in subdivision (n).

(E) The qualifications to be met by individuals to be employed by the school.

(F) The procedures that the school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the school furnish the school with a criminal record summary as described in Section 44237.

(G) The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.

(H) Admission policies and procedures, consistent with subdivision (d).

(I) The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions

and deficiencies shall be resolved to the satisfaction of the chartering authority.

(J) The procedures by which pupils can be suspended or expelled.

(K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

(L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.

(M) A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.

(N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.

(O) A declaration whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code.

(P) A description of the procedures to be used if the charter school closes. The procedures shall ensure a final audit of the school to determine the disposition of all assets and liabilities of the charter school, including plans for disposing of any net assets and for the maintenance and transfer of pupil records.

(c) (1) Charter schools shall meet all statewide standards and conduct the pupil assessments required pursuant to Sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools.

(2) Charter schools shall, on a regular basis, consult with their parents, legal guardians, and teachers regarding the school's educational programs.

(d) (1) In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of the characteristics listed in Section 220. Except as provided in paragraph (2), admission to a charter school shall

not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school.

(2) (A) A charter school shall admit all pupils who wish to attend the school.

(B) However, if the number of pupils who wish to attend the charter school exceeds the school's capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school, siblings of pupils currently attending the charter school, children of employees at the charter school, and pupils who reside in the district except as provided for in Section 47614.5. Additionally, preference may be extended, on an individual school basis, in accordance with the following:

(i) Each type of preference shall be approved in a public hearing.

(ii) Preferences shall be consistent with federal law and the California Constitution.

(iii) Preferences shall ensure access for pupils with disabilities, academically low-achieving pupils, English learners, and low-income pupils, as determined by eligibility in any free or reduced-price meal program.

(iv) Clause (i) shall not apply to dropout recovery high schools in partnership with the entities listed in subdivision (g) of Section 47605.1.

(C) In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the charter school and in no event shall take any action to impede the charter school from expanding enrollment to meet pupil demand.

(3) If a pupil is expelled or leaves the charter school without graduating or completing the school year for any reason, the charter school shall notify the superintendent of the school district of the pupil's last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card, and health information. This paragraph applies only to pupils subject to compulsory full-time education pursuant to Section 48200.

(e) The governing board of a school district shall not require any employee of the school district to be employed in a charter school.

(f) The governing board of a school district shall not require any pupil enrolled in the school district to attend a charter school.

(g) The governing board of a school district shall require that the petitioner or petitioners provide information regarding the proposed operation and potential effects of the school, including, but not limited to, the facilities to be utilized by the school, the manner in which administrative services of the school are to be provided, and potential civil liability effects, if any, upon the school and upon the school district. The description of the facilities to be used by the charter school shall specify where the school intends to locate. The petitioner or petitioners shall also be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cashflow and financial projections for the first three years of operation.

(h) In reviewing petitions for the establishment of charter schools within the school district, the governing board of the school district shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences to pupils identified by the petitioner or petitioners as academically low achieving pursuant to the standards established by the department under Section 54032, as it read prior to July 19, 2006.

(i) Upon the approval of the petition by the governing board of the school district, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the applicable county superintendent of schools, the department, and the state board.

(j) (1) If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to the county board of education. The county board of education shall review the petition pursuant to subdivision (b). If the petitioner elects to submit a petition for establishment of a charter school to the county board of education and the county board of education denies the petition, the petitioner may file a petition for establishment of a charter school with the state board, and the state board may approve the petition, in accordance with subdivision (b). A charter school that receives approval of its petition from a county board of education or from

the state board on appeal shall be subject to the same requirements concerning geographic location to which it would otherwise be subject if it received approval from the entity to which it originally submitted its petition. A charter petition that is submitted to either a county board of education or to the state board shall meet all otherwise applicable petition requirements, including the identification of the proposed site or sites where the charter school will operate.

(2) In assuming its role as a chartering agency, the state board shall develop criteria to be used for the review and approval of charter school petitions presented to the state board. The criteria shall address all elements required for charter approval, as identified in subdivision (b), and shall define “reasonably comprehensive” as used in paragraph (5) of subdivision (b) in a way that is consistent with the intent of this part. Upon satisfactory completion of the criteria, the state board shall adopt the criteria on or before June 30, 2001.

(3) A charter school for which a charter is granted by either the county board of education or the state board based on an appeal pursuant to this subdivision shall qualify fully as a charter school for all funding and other purposes of this part.

(4) If either the county board of education or the state board fails to act on a petition within 120 days of receipt, the decision of the governing board of the school district to deny a petition shall, thereafter, be subject to judicial review.

(5) The state board shall adopt regulations implementing this subdivision.

(6) Upon the approval of the petition by the county board of education, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the department and the state board.

(k) (1) The state board may, by mutual agreement, designate its supervisory and oversight responsibilities for a charter school approved by the state board to any local educational agency in the county in which the charter school is located or to the governing board of the school district that first denied the petition.

(2) The designated local educational agency shall have all monitoring and supervising authority of a chartering agency, including, but not limited to, powers and duties set forth in Section

47607, except the power of revocation, which shall remain with the state board.

(3) A charter school that has been granted its charter through an appeal to the state board and elects to seek renewal of its charter shall, prior to expiration of the charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the school's petition for renewal, the school may petition the state board for renewal of its charter.

(l) Teachers in charter schools shall hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold. These documents shall be maintained on file at the charter school and are subject to periodic inspection by the chartering authority. It is the intent of the Legislature that charter schools be given flexibility with regard to noncore, noncollege preparatory courses.

(m) A charter school shall transmit a copy of its annual, independent financial audit report for the preceding fiscal year, as described in subparagraph (I) of paragraph (5) of subdivision (b), to its chartering entity, the Controller, the county superintendent of schools of the county in which the charter school is sited, unless the county board of education of the county in which the charter school is sited is the chartering entity, and the department by December 15 of each year. This subdivision does not apply if the audit of the charter school is encompassed in the audit of the chartering entity pursuant to Section 41020.

(n) A charter school may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance or continued enrollment at the school.

SEC. 1.5. Section 47605 of the Education Code is amended to read:

(4) If either the county board of education or the state board fails to act on a petition within 120 days of receipt, the decision of the governing board of the school district to deny a petition shall, thereafter, be subject to judicial review.

(5) The state board shall adopt regulations implementing this subdivision.

(6) Upon the approval of the petition by the county board of education, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the department and the state board.

(k) (1) The state board may, by mutual agreement, designate its supervisory and oversight responsibilities for a charter school approved by the state board to any local educational agency in the county in which the charter school is located or to the governing board of the school district that first denied the petition.

(2) The designated local educational agency shall have all monitoring and supervising authority of a chartering agency, including, but not limited to, powers and duties set forth in Section 47607, except the power of revocation, which shall remain with the state board.

(3) A charter school that has been granted its charter through an appeal to the state board and elects to seek renewal of its charter shall, prior to expiration of the charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the school's petition for renewal, the school may petition the state board for renewal of its charter.

(l) Teachers in charter schools shall hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold. These documents shall be maintained on file at the charter school and are subject to periodic inspection by the chartering authority. It is the intent of the Legislature that charter schools be given flexibility with regard to noncore, noncollege preparatory courses.

(m) A charter school shall transmit a copy of its annual, independent financial audit report for the preceding fiscal year, as described in subparagraph (I) of paragraph (5) of subdivision (b), to its chartering entity, the Controller, the county superintendent of schools of the county in which the charter school is sited, unless

the county board of education of the county in which the charter school is sited is the chartering entity, and the department by December 15 of each year. This subdivision does not apply if the audit of the charter school is encompassed in the audit of the chartering entity pursuant to Section 41020.

(n) A charter school may encourage parental involvement, but shall notify the parents and guardians of applicant pupils and currently enrolled pupils that parental involvement is not a requirement for acceptance or continued enrollment at the school.

It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2012, (2) each bill amends Section 47605 of the Education Code, and (3) this bill is enacted after Assembly Bill 86, in which case Section 1 of this bill shall not become operative.

SEC. 2. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.
