

AMENDED IN ASSEMBLY MARCH 31, 2011

CALIFORNIA LEGISLATURE—2011–12 REGULAR SESSION

ASSEMBLY BILL

No. 1060

Introduced by Assembly Member Roger Hernández

February 18, 2011

~~An act relating to crimes.~~ *An act to add Title 2.3 (commencing with Section 745) to Part 2 of the Penal Code, relating to special maritime criminal jurisdiction.*

LEGISLATIVE COUNSEL'S DIGEST

AB 1060, as amended, Roger Hernández. Crimes of violence: crimes at sea: ~~reporting~~. *sea.*

Existing law regulates harbors and navigable waters. Existing law provides that those provisions, in so far as they are not in conflict with the admiralty and maritime jurisdiction and laws of the United States, apply to navigable waters of the United States. Existing law regards as navigable and public ways the coast line of the state from the boundary between it and Mexico on the south, to the boundary line between it and Oregon on the north, as defined and determined by the United States Coast and Geodetic Survey.

This bill would establish special maritime jurisdiction for criminal acts to extend to acts or omission on board a ship outside of the state under specified circumstances including when there is a suspect on board a ship who is a citizen or resident of this state or a state which consents to the jurisdiction of this state, when the master of the ship or an official of the flag state, as defined, commits a suspect on board the ship to the custody of a law enforcement officer acting under the authority of this state, when the state where the act or omission occurred requests the exercise of jurisdiction by this state, when the act or

omission occurs during a voyage on which over 1/2 of the revenue passengers on board the ship originally embarked and plan to finally disembark in this state, or where the victim is a California law enforcement officer on board the ship in connection with his or her official duties. The bill would provide that an act or omission against the person or property of another that is punishable by law when committed in this state shall be punishable in the same manner when committed within the special maritime criminal jurisdiction of this state, as specified. Because this bill would expand the application of crimes to a new category of people, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

~~Under existing law a cruise ship or an oceangoing ship is prohibited from conducting onboard incineration while operating within 3 miles of the California coast.~~

~~This bill would state the intent of the Legislature to enact legislation to require the reporting of violent crimes that occur at sea.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes. State-mandated local program: ~~no~~-yes.
