An act to add Section 1367.005 to the Health and Safety Code, and to add Section 10112.27 to the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL’S DIGEST

AB 1453, as amended, Monning. Essential health benefits.

Commencing January 1, 2014, existing law, the federal Patient Protection and Affordable Care Act (PPACA), requires a health insurance issuer that offers coverage in the small group or individual market to ensure that such coverage includes the essential health benefits package, as defined. PPACA requires each state to, by January 1, 2014, establish an American Health Benefit Exchange that facilitates the purchase of qualified health plans by qualified individuals and qualified small employers. PPACA defines a qualified health plan as a plan that, among other requirements, provides the essential health benefits package. Existing state law creates the California Health Benefit Exchange (the Exchange) to facilitate the purchase of qualified health plans by qualified individuals and qualified small employers by January 1, 2014.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful
violation of the act a crime. Existing law also provides for the regulation of health insurers by the Department of Insurance. Existing law requires health care service plan contracts and health insurance policies to cover various benefits.

This bill would require an individual or small group health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2014, to cover essential health benefits, which would be defined to include the benefits and services covered by particular plans. The bill would specify that this provision applies regardless of whether the contract or policy is offered inside or outside the Exchange but would provide that it does not apply to grandfathered plans or plans that offer excepted benefits, as specified. The bill would prohibit a health care service plan or health insurer, when offering, issuing, selling, or marketing a plan contract or policy, from indicating or implying that the contract or policy covers essential health benefits unless the contract or policy covers essential health benefits as provided in the bill.

Because a willful violation of the bill’s provisions with respect to health care service plans would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares the following:
(a) Commencing January 1, 2014, the federal Patient Protection and Affordable Care Act (PPACA) requires a health insurance issuer that offers coverage to small employers or individuals, both inside and outside of an American Health Benefit Exchange, with the exception of grandfathered plans, to provide minimum coverage that includes essential health benefits, as defined.
(b) It is the intent of the Legislature to comply with federal law and consistently implement the essential health benefits provisions
of PPACA and related federal guidance and regulations, by
adopting the uniform minimum essential benefits requirement in
state-regulated health care coverage regardless of whether the
policy or contract is regulated by the Department of Managed
Health Care or the Department of Insurance and regardless of
whether the policy or contract is offered to individuals or small
employers inside or outside of the California Health Benefit
Exchange.
