LEGISLATIVE COUNSEL'S DIGEST

AB 2446, as introduced, Perea. Parks and recreation: grants: water conservation measures.

Existing law requires criteria and procedures adopted by the department for evaluating applications for certain grants made available relating to the development of neighborhood, community, and regional parks and recreation lands and facilities in urban and rural areas, to include recommendations that the grant applicant consider water conservation measures in their proposed project.

This bill would make technical, nonsubstantive changes to that law.
