An act to amend Section 25143.6 of the Health and Safety Code, relating to hazardous waste.

LEGISLATIVE COUNSEL'S DIGEST

AB 2457, as introduced, Valadao. Hazardous waste: shredder waste. The California Integrated Waste Management Act of 1989 requires materials that require special handling, as defined, to be removed from major appliances and vehicles in which they are contained prior to crushing for transport or transferring to a baler or shredder for recycling. Recycling residue used as solid waste landfill daily cover is required to meet certain performance standards and requirements specified in the regulations adopted by the Department of Resources Recycling and Recovery. The hazardous waste control laws require specified California regional water quality control boards to prepare, by February 15, 1988, a list of class III landfills authorized to accept and dispose of shredder waste.

This bill would delete and correct obsolete references in these provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
