ASSEMBLY BILL

An act to add Section 2775.7 to the Public Utilities Code, relating to distributed generation.

LEGISLATIVE COUNSEL'S DIGEST

AB 2590, as amended, Blumenfield. Distributed generation: interconnection.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations. Existing law authorizes the commission to establish rules for all public utilities, subject to control by the Legislature.

This bill would require investor-owned electric utilities to post on their Internet Web sites any report required by a revision to the commission's Electric Rule 21, if that revision is adopted after January 1, 2012. *The bill would prohibit a report posted on Internet Web sites from including information proprietary to a developer applying for interconnection.*

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
