

Introduced by Senator YeeFebruary 16, 2011

An act to add and repeal Chapter 2.7 (commencing with Section 2198) of Division 2 of the Elections Code, relating to online voter registration.

LEGISLATIVE COUNSEL'S DIGEST

SB 397, as introduced, Yee. Online voter registration.

Existing law prohibits any person from being registered as a voter except by affidavit of registration and requires that the affidavit be mailed or delivered to the county elections official. The Secretary of State has certain administrative duties under existing law in providing voter registration materials. The federal National Voter Registration Act of 1993 provides for state departments of motor vehicles to make voter registration information and materials available to an applicant for a driver's license and other vehicular documents. Existing state law requires licensed persons to provide to the Department of Motor Vehicles a signature and the Department of Motor Vehicles is required to digitize that signature and forward the digitized signature to the Secretary of State if a person wishes to register to vote. Under existing law, operative when the Secretary of State certifies that the state has a statewide voter registration database that complies with the requirements of the federal Help America Vote Act of 2002, a person who is qualified to register to vote and who has a valid California driver's license or state identification card is authorized to submit an affidavit of voter registration electronically on the Internet Web site of the Secretary of State.

This bill would authorize counties to develop and use an electronic voter registration system for the electronic submission of an affidavit

of voter registration from a person who is qualified to register to vote, who has a valid California driver’s license or state identification card, and who resides in that county. This bill would also authorize a person who is qualified to register to vote and who has a valid California driver’s license or state identification card to submit an affidavit of voter registration electronically on the Internet Web site of the county elections official of the county in which the person resides if that county has opted to comply with the provisions of this chapter. This bill would specify certain conditions that must be met before the electronic submission of an affidavit of voter registration to a county elections official could become effective. The provisions of this bill would remain in effect only until the Secretary of State certifies that the state has a statewide voter registration database that complies with the requirements of the federal Help America Vote Act of 2002.

Vote: majority. Appropriation: no. Fiscal committee: no.
 State-mandated local program: no.
