An act to repeal Section 20909 of the Government Code, relating to public employees' retirement.

LEGISLATIVE COUNSEL'S DIGEST

SB 522, as introduced, Walters. Public employees' retirement: additional service credit.

The Public Employees' Retirement Law calculates service retirement allowances, in part, based on years of credited service. Members of the Public Employees' Retirement System may receive service credit for public service not otherwise subject to credit, upon payment of specified additional contributions. Existing law authorizes specified members of that system, including employees or officers of the state, the university, a school employer, or a contracting agency and certain legislative employees, to elect to make additional contributions and receive up to 5 years of additional retirement service credit, as defined, subject to specified limitations.

This bill would repeal that provision.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.
