SENATE BILL

No. 1107

Introduced by Senator Berryhill

February 17, 2012

An act to add Section 1065 to the Fish and Game Code, relating to entitlements, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

SB 1107, as amended, Berryhill. ~~Entitlements: voluntary release of contact information.~~ *Automated License Data System: nonprofit conservation organizations.*

Under existing law, all licenses, permits, tags, reservations, and other entitlements authorized by the Fish and Game Code are prepared and issued by the Department of Fish and Game or an authorized license agent. Existing law authorizes specified persons to obtain tags or stamps for the taking of specific animals or aquatic species, if certain requirements are met. *Existing law authorizes the Fish and Game Commission to require and prescribe the form of applications for licenses, permits, tags, reservations, and other entitlements and the form of any contrivance to be used in connection therewith. An existing regulation defines the Automated License Data System as an automated system that replaced the department's paper license inventory system.*

~~This bill would require that a person to whom a license, permit, reservation, tag, or other entitlement is issued pursuant to the Automated License Data System (ALDS) have the opportunity at the time of issuance to voluntarily authorize the release of contact information to~~

~~one or more nonprofit conservation organizations, as defined, as specifically selected by the individual through means of a checkoff box, or through other means the department determines to be appropriate. The bill would require the department to annually transmit contact information to the selected nonprofit conservation organizations and would prohibit a nonprofit conservation organization that receives contact information from the department from sharing that information with any other 3rd party without the prior written consent of the individual to whom the contact information applies~~ *require the department, if it determines that a nonprofit conservation organization meets specified eligibility requirements and submits a prescribed letter annually, to include the nonprofit conservation organization's logo in a space with a link to the organization's Internet Web site on the Automated Data License System for a time period agreed upon by the department and the organization.* The bill would authorize the department to impose a charge on a nonprofit conservation organization ~~to recover the direct~~ *for inclusion on the Automated Data License System that would be prohibited from exceeding the* reasonable costs of administering these provisions. The bill would continuously appropriate to the department the moneys generated from the charge, to be used to pay the reasonable costs associated with the direct administration of the bill, including, but not limited to, a reasonable portion of the costs of making changes to the Automated License Data System necessary to implement the bill.
