AMENDED IN SENATE APRIL 9, 2012

SENATE BILL

No. 1249

Introduced by Senator Wolk

(Principal coauthor: Assembly Member Huffman)

February 23, 2012

An act to amend Section 13100 of, and to add Chapter 7.4 (commencing with Section 1745) to Division 2 of, the Fish and Game Code, relating to fish and wildlife resources.

LEGISLATIVE COUNSEL'S DIGEST

SB 1249, as amended, Wolk. Department of Fish and Game: lands: expenditures.

(1) Existing law requires the Department of Fish and Game to operate lands, or lands and water, acquired for public shooting grounds, state marine recreational management areas, or wildlife management areas on a nonprofit basis (collectively, department-operated lands). Existing law states that multiple recreational use of wildlife management areas is desirable and requires the Fish and Game Commission to encourage multiple recreational use. Existing law authorizes the commission to determine and fix the amount of, and authorizes the department to collect, fees for any use privileges. Existing law restricts shooting

permits for department-operated lands to persons holding valid hunting licenses. Existing law, except as expressly provided, makes any violation of the Fish and Game Code, or any rule, regulation, or order made or adopted under that code, a misdemeanor.

This bill would authorize the department to enter into contracts or other agreements with nonprofit conservation groups, as specified, for the management and operation of department-managed lands, defined to include public shooting grounds, state marine recreational management areas, ecological reserves, and wildlife management areas. The bill would state that hunting, fishing, wildlife viewing, wildlife photography, conservation education, and fish and wildlife research are the priority uses compatible with department-managed lands, and would allow the department to authorize by regulation other public uses. The bill would authorize the department to require the purchase of a special use permit for those other public uses. The bill, *commencing January 1, 2015*, would require the purchase of an entry permit if the department makes certain findings, as specified, for nonconsumptive uses of department-managed lands, except as provided. The bill would make the failure to obtain a permit an infraction, as specified, and provide that a person in possession of a valid hunting license, sport fishing license, or trapping license is exempt from a requirement to obtain a permit. The bill would require moneys generated by these provisions to be deposited in the Native Species Conservation and Enhancement Account of the Fish and Game Preservation Fund, and those funds would be available, upon appropriation by the Legislature, to the department to use for the management and operation of its lands. The bill would require, to the extent that the department is able to identify the source of the fee revenue collected, the department to provide no less than 35% of the funds generated by these provisions to the department-managed lands from which the fee revenues were collected.

(2) Existing law requires specified fines and penalties paid to and retained in the county treasury to be deposited in a county fish and wildlife propagation fund and expended for the protection, conservation, propagation, and preservation of fish and wildlife, under the direction of the county board of supervisors. Existing law limits expenditures from the fish and wildlife propagation fund of a county for specified purposes.

This bill would require all proposed expenditures from a county fish and wildlife propagation fund to be reviewed first at a regular meeting of the county board of supervisors or its designated county fish and

game commission to ensure compliance with those specified expenditure purposes. The bill would find and declare that these provisions are an issue of statewide concern and not a municipal affair, as specified. By imposing new duties on counties, this bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Chapter 7.4 (commencing with Section 1745) is
2 added to Division 2 of the Fish and Game Code, to read:

3

4 CHAPTER 7.4. DEPARTMENT-MANAGED LANDS

5

6 1745. (a) For purposes of this section, the following terms
7 have the following meanings:

8 (1) "Department-managed lands" includes lands, or lands and
9 water, acquired for public shooting grounds, state marine
10 (estuarine) recreational management areas, ecological reserves,
11 and wildlife management areas.

12 (2) "Nonconsumptive uses" means compatible uses other than
13 hunting and fishing.

14 (b) (1) Department-managed lands shall be operated on a
15 nonprofit basis by the department.

16 (2) The department may enter into contracts or other agreements
17 for the management and operation of department-managed lands
18 with nonprofit conservation groups, recognized under Section
19 501(c) of the Internal Revenue Code, or resource conservation
20 districts, as described in Chapter 3 (commencing with Section
21 9151) of Division 9 of the Public Resources Code.

22 (A) The contracts or other agreements authorized pursuant to
23 this paragraph are not subject to Part 2 (commencing with Section

1 10100) of Division 2 of the Public Contract Code or Article 6
2 (commencing with Section 999) of Chapter 6 of Division 4 of the
3 Military and Veterans Code.

4 (B) The contracts or other agreements authorized pursuant to
5 this paragraph shall adhere to the goals and objectives included in
6 an approved management plan and shall be consistent with the
7 purpose for which the lands were acquired and managed by the
8 department. Any changes to the management plan shall be subject
9 to public review and comment.

10 (c) Multiple recreational use of department-managed lands is
11 desirable and that use shall be encouraged by the commission.
12 Except for hunting and fishing purposes, only minimum facilities
13 to permit other forms of multiple recreational use, such as camping,
14 picnicking, boating, or swimming, shall be provided.

15 (d) (1) Hunting, fishing, wildlife viewing, wildlife photography,
16 conservation education, and fish and wildlife research are the
17 priority uses compatible with department-managed lands.

18 (2) Public uses of department-managed lands not described in
19 paragraph (1), or subdivision (c) or (f), shall be authorized by
20 regulations adopted by the commission. The commission may
21 require the purchase of a special use permit for these other uses.

22 (e) Except as provided in Section 1765 and subdivision (h), and
23 to defray the costs associated with multiple use, the commission
24 may determine and fix the amount of, and the department shall
25 collect, fees for any use privileges. Only persons holding valid
26 hunting licenses may apply for or obtain shooting permits for
27 department-managed lands.

28 (f) ~~The~~ *Commencing January 1, 2015, the* department shall
29 require the purchase of an entry permit for nonconsumptive uses
30 of department-managed lands if the department finds that it is
31 practical and would be cost-effective for the state to collect entry
32 permit fees.

33 (g) The following shall apply if the department requires the
34 purchase of an entry permit pursuant to subdivision (f):

35 (1) The department shall require the purchase of an entry permit
36 for nonconsumptive uses of a department-managed land only if a
37 sign providing notice of the requirement has been posted at the
38 department-managed land.

39 (2) To the extent feasible, the department shall allow
40 nonconsumptive users to purchase an entry permit onsite.

1 (3) The department shall use the Automated License Data
2 System to sell an entry permit.

3 (4) A nonconsumptive user shall have an entry permit in his or
4 her immediate possession while on department-managed lands.

5 (h) Failure to obtain a permit as required pursuant to this section
6 shall be an infraction as described in Section 12002.2.1. A person
7 in possession of a valid hunting license, sport fishing license, or
8 trapping license shall be exempt from a requirement to obtain a
9 permit.

10 (i) The moneys generated pursuant to this section shall be
11 deposited in the Native Species Conservation and Enhancement
12 Account within the Fish and Game Preservation Fund, and shall
13 be available, upon appropriation by the Legislature, to the
14 department for the management and operation of its lands. To the
15 extent that the department is able to identify the source of the fee
16 revenue collected, the department shall provide no less than 35
17 percent of the funds generated pursuant to this section to the
18 department-managed lands from which the fee revenues were
19 collected.

20 (j) The commission and department may continue to allow free
21 access to a department-managed land if the commission or
22 department finds the best interests of that area would be served by
23 not fixing a fee for use privileges.

24 SEC. 2. Section 13100 of the Fish and Game Code is amended
25 to read:

26 13100. (a) The amounts paid to and retained in the county
27 treasury pursuant to Sections 12009 and 13003 shall be deposited
28 in a county fish and wildlife propagation fund and expended for
29 the protection, conservation, propagation, and preservation of fish
30 and wildlife, under the direction of the board of supervisors,
31 pursuant to this chapter.

32 (b) All proposed expenditures from a county fish and wildlife
33 propagation fund shall be reviewed first at a regular meeting of
34 the county board of supervisors or its designated county fish and
35 game commission to ensure compliance with Section 13103.

36 SEC. 3. The Legislature finds and declares that Section 2 of
37 this bill is an issue of statewide concern and not a municipal affair,
38 as that term is used in Section 5 of Article XI of the California
39 Constitution.

1 SEC. 4. If the Commission on State Mandates determines that
2 this act contains costs mandated by the state, reimbursement to
3 local agencies and school districts for those costs shall be made
4 pursuant to Part 7 (commencing with Section 17500) of Division
5 4 of Title 2 of the Government Code.
