LEGISLATIVE COUNSEL'S DIGEST

AB 105, as amended, Committee on Budget. ~~Budget Act of 2013. Active Transportation Program.~~

*Existing law establishes various transportation programs and associated funds and accounts, including the Bicycle Transportation Account, the Bikeway Account, and the Safe Routes to School Program. Existing federal law, pursuant to the Moving Ahead for Progress in the 21st Century Act, reconstitutes various federal transportation funding programs, including the former Transportation Enhancements Program, and creates the new federal Transportation Alternatives Program comprised of various former separate programs.*

*This bill would create the Active Transportation Program in the Department of Transportation, to be funded in the annual Budget Act from specified federal and state transportation funds, including 100% of the available federal Transportation Alternatives Program funds and federal Recreational Trails Program funds, except as specified, \$21,000,000 of federal Highway Safety Improvement Program funds or other federal funds, a specified amount of fuel tax revenues from the Highway Users Tax Account and the State Highway Account, and from other available funds. The bill would provide for funds to be allocated to eligible projects by the California Transportation Commission, with 40% of available funds to be made available for programming by metropolitan planning organizations in urbanized areas with a population greater than 200,000, 10% for small urban and rural regions, and 50% on a statewide basis, with all awards to be made competitively, as specified. The bill would include among the authorized activities for the Active Transportation Program certain existing activities of the above-referenced programs and accounts. The bill would also add new authorized activities, as specified. The bill would require the commission to develop guidelines and procedures, including project selection criteria, for the program in consultation with various agencies and interested parties. The bill would require the commission to initially adopt a 2-year program of projects for the program, with subsequent 4-year programs thereafter. The bill would correspondingly eliminate the Bicycle Transportation Account, the Bikeway Account, and the Safe Routes to School Program as separate programs. The bill would require the Commission, no later than 45 days prior to adopting the initial set of final guidelines for the Active Transportation Program, to submit the draft guidelines to the Joint Legislative Budget Committee.*

*This bill would provide that no additional funds shall be transferred to the Bicycle Transportation Account. The bill would transfer the remaining assets and liabilities of the Bicycle Transportation Account and the Bikeway Account to the State Highway Account on July 1, 2014, and would provide that various provisions governing these programs become inoperative on July 1, 2014, and would be repealed on January 1, 2015.*

*Existing law creates the Environmental Enhancement and Mitigation Program Fund, and states the intent of the Legislature to allocate \$10,000,000 annually to the fund, for expenditure on grants to specified agencies and nonprofit entities for various types of projects that are directly or indirectly related to the environmental impact of*

transportation facilities, including, among other things, highway landscaping and roadside recreational opportunities.

This bill would instead state the intent of the Legislature to allocate \$7,000,000 annually to the fund, and would delete the reference to projects for highway landscaping and roadside recreational opportunities.

The bill would appropriate \$10,000,000 from the Environmental Enhancement and Mitigation Program Fund to the Secretary of the Natural Resources Agency for grants awarded by the secretary to support local environmental enhancement and mitigation programs.

This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

~~This bill would express the intent of the Legislature to enact statutory changes relating to the Budget Act of 2013.~~

Vote: majority. Appropriation: ~~no~~ yes. Fiscal committee: ~~no~~ yes. State-mandated local program: no.

CHAPTER 3. HIGHWAY USERS TAX ~~FUND~~ ACCOUNT

SEC. 13. Section 2106 of the Streets and Highways Code is amended to read:

2106. Notwithstanding Section 13340 of the Government Code, a sum equal to the net revenue derived from one and four one-hundredths cent (\$0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301) of Division 2 of the Revenue and Taxation Code) shall be apportioned monthly from the Highway Users Tax Account in the Transportation Tax Fund among the counties and cities as follows:

(a) Four hundred dollars (\$400) per month shall be apportioned to each city and city and county and eight hundred dollars (\$800) per month shall be apportioned to each county and city and county.

(b) ~~Commencing on July 31, 2007, and on~~ On the last day of each month ~~after that date~~, the sum of six hundred thousand dollars (\$600,000) ~~per month~~ shall be transferred to the ~~Bicycle Transportation State Highway Account~~ in the State Transportation Fund *for the Active Transportation Program pursuant to Chapter 8 (commencing with Section 2380). For each month in the 2013–14 fiscal year that has passed prior to the enactment of the bill adding this sentence, six hundred thousand dollars (\$600,000) shall be immediately transferred from the Bicycle Transportation Account to the State Highway Account in the State Transportation Fund for the Active Transportation Program, less any amount already expended for that program from the Bicycle Transportation Account during the 2013–14 fiscal year.*

(c) The balance shall be apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are established for purposes of apportionment of funds under subdivision (d) of Section 2104.

(2) For each county, the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property, for purposes of this computation, shall be that most recently used for countywide tax levies as reported to the

1 Controller by the State Board of Equalization. If an incorporation  
2 or annexation is legally completed following the base sum  
3 computation, the new city's assessed valuation shall be deducted  
4 from the county's assessed valuation, the estimate of which may  
5 be provided by the State Board of Equalization.

6 (3) The difference between the base sum for each county and  
7 the amount apportioned to the county shall be apportioned to the  
8 cities of that county in the proportion that the population of each  
9 city bears to the total population of all the cities in the county.  
10 Populations used for determining apportionment of money under  
11 Section 2107 are to be used for purposes of this section.

12 (d) (1) Transfers of revenues from the Highway Users Tax  
13 Account to counties or cities pursuant to this section collected  
14 during the months of March, April, May, June, and July of 2008,  
15 shall be made with the transfer of August 2008 revenues in  
16 September of 2008. This suspension shall not apply to a county  
17 with a population of less than 40,000.

18 (2) For the purpose of meeting the cash obligations associated  
19 with ongoing budgeted costs, a city or county may make use of  
20 any cash balance in the city account that is designated for the  
21 receipt of state funds allocated for local streets and roads or the  
22 county road fund, including that resulting from the receipt of funds  
23 pursuant to the Highway Safety, Traffic Reduction, Air Quality,  
24 and Port Security Bond Act of 2006 (Chapter 12.49 (commencing  
25 with Section 8879.20) of Division 1 of Title 2 of the Government  
26 Code (hereafter bond act)) for local streets and roads maintenance,  
27 during the period of this suspension, without the use of this cash  
28 being reflected as an expenditure of bond act funds, provided the  
29 cash is replaced once this suspension is repaid in September of  
30 2008. Counties and cities may accrue the revenue received in  
31 September 2008 as repayment of these suspensions for the months  
32 of April, May, and June of 2008 back to the 2007-08 fiscal year.  
33 Nothing in this paragraph shall change the fact that expenditures  
34 must be accrued and reflected from the appropriate funding sources  
35 for which the moneys were received and meet all the requirements  
36 of those funding sources.

37 (e) (1) The transfer of revenues from the Highway Users Tax  
38 Account to counties or cities pursuant to this section collected  
39 during the months of January, February, and March 2009, shall be  
40 made with the transfer of April 2009 revenues in May 2009.

1 (2) For the purpose of meeting the cash obligations associated  
 2 with ongoing budgeted costs, a city or county may make use of  
 3 any cash balance in the city account that is designated for the  
 4 receipt of state funds allocated for local streets and roads or the  
 5 county road fund, including that resulting from the receipt of funds  
 6 pursuant to the Highway Safety, Traffic Reduction, Air Quality,  
 7 and Port Security Bond Act of 2006 (Chapter 12.49 (commencing  
 8 with Section 8879.20) of Division 1 of Title 2 of the Government  
 9 Code (bond act)) for local streets and roads maintenance, during  
 10 the period of this suspension, and the use of this cash shall not be  
 11 considered as an expenditure of bond act funds, if the cash is  
 12 replaced when the payments that are suspended pursuant to this  
 13 subdivision are repaid in May 2009.

14 (3) This subdivision shall not affect any requirement that an  
 15 expenditure is required to be accrued and reflected from the  
 16 appropriate funding source for which the money was received and  
 17 to meet all the requirements of its funding source.

18 *SEC. 14. Section 2333.5 of the Streets and Highways Code is*  
 19 *amended to read:*

20 2333.5. (a) The department, in consultation with the  
 21 Department of the California Highway Patrol, shall establish and  
 22 administer a “Safe Routes to School” construction program for  
 23 construction of bicycle and pedestrian safety and traffic calming  
 24 projects.

25 (b) The department shall award grants to local governmental  
 26 agencies under the program based on the results of a statewide  
 27 competition that requires submission of proposals for funding and  
 28 rates those proposals on all of the following factors:

 33 and bicycling among students.
- 34 (4) Identification of safety hazards.
- 35 (5) Identification of current and potential walking and bicycling  
 36 routes to school.
- 37 (6) Use of a public participation process, including, but not  
 38 limited to, a public meeting that satisfies all of the following:
- 39 (A) Involves the public, schools, parents, teachers, local  
 40 agencies, the business community, key professionals, and others.

2 input to guide the development of projects included in the proposal.

3 (C) Ensures that community priorities are reflected in the  
4 proposal.

5 (D) Secures support for the proposal by relevant stakeholders.

6 (7) Benefit to a low-income school, defined for purposes of this  
7 section to mean a school where at least 75 percent of students are  
8 eligible to receive free or reduced-price meals under the National  
9 School Lunch Program.

10 (c) Any annual budget allocation to fund grants described in  
11 subdivision (b) shall be in addition to any federal funding received  
12 by the state that is designated for “Safe Routes to School” projects  
13 pursuant to Section 1404 of SAFETEA-LU or any similar program  
14 funded through a subsequent transportation act.

16 for “Safe Routes to School” projects shall be distributed by the  
17 department under the competitive grant process, consistent with  
18 all applicable federal requirements.

19 (e) Prior to the award of any construction grant or the  
20 department’s use of those funds for a “Safe Routes to School”  
21 construction project encompassing a freeway, state highway, or  
22 county road, the department shall consult with, and obtain approval  
23 from, the Department of the California Highway Patrol, ensuring  
24 that the “Safe Routes to School” proposal complements the  
25 California Highway Patrol’s Pedestrian Corridor Safety Program  
26 and is consistent with its statewide pedestrian safety statistical  
27 analysis.

28 (f) The department is encouraged to coordinate with law  
29 enforcement agencies’ community policing efforts in establishing  
30 and maintaining the “Safe Routes to School” construction program.

31 (g) In the development of guidelines and procedures governing  
32 this program, the department shall fully consider the needs of  
33 low-income schools.

34 (h) Up to 10 percent of program funds may be used to assist  
35 eligible recipients in making infrastructure improvements, other  
36 than schoolbus shelters, that create safe routes to schoolbus stops  
37 that are located outside the vicinity of schools.

38 (i) *This section shall become inoperative on July 1, 2014, and,*  
39 *as of January 1, 2015, is repealed, unless a later enacted statute,*

1 *that becomes operative on or before January 1, 2015, deletes or*
