An act to amend Section 49475 of the Education Code, relating to school athletics.

LEGISLATIVE COUNSEL'S DIGEST

AB 588, as amended, Fox. School athletics: concussions.

Existing law requires a school district, if it offers an athletic program, to immediately remove an athlete from an athletic activity for the remainder of the day if the athlete is suspected of sustaining a concussion or head injury, and prohibits the athlete from returning to the activity until the athlete is evaluated by a licensed health care provider, trained in the management of concussions, and acting within the scope of his or her practice, and the athlete receives written clearance from the licensed health care provider to return to the activity. Existing law also requires, on a yearly basis, a concussion and head injury information sheet to be signed and returned by the athlete and athlete's parent or guardian before the athlete's initiating practice or competition.

This bill would apply these provisions to athletes attending *charter schools and* private schools, and would require the information sheet to include, at a minimum, information regarding concussions and their symptoms. The bill would authorize the information to be available in a digital format, including, but not limited to, e-mail or an Internet Web site.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*
