An act to amend Section 13525.5 of the Water Code, relating to water reclamation.

LEGISLATIVE COUNSEL'S DIGEST

AB 613, as introduced, Hueso. Water: water reclamation.

The Water Recycling Law requires each California regional water quality control board, after consulting with and receiving the recommendations of the State Department of Public Health and any party who has requested in writing to be consulted, and after any necessary hearing, to prescribe water reclamation requirements for water that is used or proposed to be used as reclaimed water. That law also provides that a person recycling water or using recycled water in violation of specific provisions, after the violation has been called to the attention of that person in writing by the regional board, is guilty of a misdemeanor, as specified.

This bill would make technical, nonsubstantive changes to the latter provision.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 13525.5 of the Water Code is amended  
2 to read:
