An act to amend Section 316 of, and to add Sections 320.3, 1253.92, and 1326.5 to, the Unemployment Insurance Code, relating to unemployment insurance, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

AB 1556, as introduced, Perea. Unemployment insurance.

Existing unemployment insurance law requires all standard information employee pamphlets provided by the Employment Development Department concerning unemployment and disability insurance programs to be printed in English and separately in Spanish, or both.

This bill would instead require those pamphlets to be printed in English and the 4 other most commonly used languages among participants in each program. This bill would require the Employment Development Department to make pages on its Internet Web site that provide information regarding applying for, and receiving, unemployment insurance benefits available in the 4 languages, other than English, most commonly used by unemployment insurance applicants and claimants.

Existing unemployment insurance law requires the Employment Development Department to pay unemployment compensation benefits to unemployed individuals meeting specified requirements.

This bill would require the Director of Employment Development to periodically review policies and practices used to determine eligibility for and the amount of benefits in the unemployment insurance program, as specified, and report to the Legislature the results of the first review on or before July 1, 2015.

Existing law prohibits an unemployed individual from being disqualified for benefits solely on the basis that he or she is a student.

This bill would prohibit an unemployed individual who is otherwise eligible for and receiving unemployment compensation benefits from being deemed ineligible for a week in which the individual commenced a training or education program, if specified conditions are met. Because this bill would make changes to existing eligibility requirements for unemployment compensation benefits that would result in additional amounts being payable from the Unemployment Fund, a continuously appropriated fund, the bill would make an appropriation.

Existing law requires claims to be made in accordance with authorized regulations of the director.

This bill would require a continued claim to be submitted within a specified period. It would also prohibit the director from reevaluating a continued claim for eligibility solely because it was submitted 15 to 21 days, inclusive, from the end of the last week for which benefits were paid.

Vote: majority. Appropriation: yes. Fiscal committee: yes.  
State-mandated local program: no.
