(Coauthors: Assembly Members Grove, Harkey, Jones, and Nestande)

February 6, 2014

An act to amend Section 11344 of the Government Code, relating to state government.

LEGISLATIVE COUNSEL'S DIGEST

AB 1612, as amended, Donnelly. State government: regulations.

The Administrative Procedure Act generally sets forth the requirements for the adoption, publication, review, and implementation of regulations by state agencies. The act requires the Office of Administrative Law to provide on its Internet Web site, free of ~~charges~~ *charge*, the full text of the California Code of Regulations, and a list of, and a link to the full text of, each regulation filed with the Secretary of State that is pending effectiveness, as specified. Existing law requires the Legislative Counsel to make specified information available to the public in electronic form, including, among other things, the legislative calendar, the text of each bill introduced in each current legislative session, the California Codes, and the California Constitution.

This bill would require the Office of Administrative Law to make those regulations searchable in one or more formats and by one or more means in order to provide the greatest feasible access to the public, and also make those regulations available by other means, as specified. This bill would declare legislative intent to provide a level of public access to the California Code of Regulations that is equal to, or greater than,

the level of access to the California Codes provided by the Legislative Counsel.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
