An act to ~~amend~~ *amend, repeal, and add* Section 48273 of the Education Code, relating to pupil attendance.

LEGISLATIVE COUNSEL'S DIGEST

AB 1672, as amended, Holden. Pupil attendance: truancy.

Existing law authorizes the establishment of county and local school attendance review boards, and authorizes a school district to refer a pupil to a school attendance review board or the probation department for, among other things, truancy. Existing law, under specified circumstances, authorizes a school attendance review board or probation officer to direct the county superintendent of schools to request a petition on behalf of the pupil in the juvenile court of the county. Existing law requires the governing board of a school district to adopt rules and regulations to require appropriate officers and employees of the school district to gather and transmit to the county superintendent of schools the number and types of referrals to school attendance review boards and of requests for petitions to the juvenile court.

This bill would instead require the governing board of each school district that has established a local school attendance review board to adopt rules and regulations to require appropriate officers and employees of the school district to gather and transmit that information for the prior school year to the county superintendent of schools and the Superintendent of Public Instruction, by September 15 of every year, and would expand the information required to be gathered and submitted to include, among other things, the number and percentage of chronic absentees in the school district, the number of pupils referred to a school attendance review board who improved their attendance, attendance and the number of pupils and parents or guardians referred to community services, as specified. The bill would require the information to be disaggregated by specified subgroups, including gender, ethnicity, and foster youth status. The bill would require a county office of education *the governing board of each school district* to make available on its Internet Web site, if one is available, certain reports and information received from school attendance review boards. *By imposing additional requirements on local educational agencies, the bill would impose a state-mandated local program: the contents of those school attendance review board reports no later than September 15 of every year. The bill would require the State Department of Education to maintain current Internet Web site links to the Internet Web sites of school attendance review board reports and would require the governing board of each school district that posts school attendance review board reports to provide to the department current uniform resource locators for those Internet Web sites. The bill would make these provisions operative beginning June 1, 2015.*

~~The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.~~

~~This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: ~~yes~~ no.
